## 2. SAFETY INFORMATION

---

Your SupplySource charger is built with multiple safety features to protect both the adapter and your connected device. Adhering to these guidelines ensures safe operation.

- **Incorrect Voltage Protection (IV):** Prevents damage from improper voltage input.
- **Short Circuit Protection (SC):** Automatically shuts down in case of a short circuit.
- **Internal Overheating Protection (IO):** Safeguards against excessive internal temperatures.
- **Over Charge Protection:** Prevents battery overcharging in compatible devices.
- **Over Current Protection:** Protects against excessive current flow.
- **Over Temperature Protection:** Monitors and regulates operating temperature.

The charger is certified with CE and FCC standards, ensuring compliance with safety and quality regulations.

## 3. SETUP AND CONNECTION

---

Follow these steps to properly set up and connect your AC adapter charger.

1. **Verify Compatibility:** Ensure your device is the QFX PBX-8074 Rechargeable Bluetooth Party Speaker or another compatible device requiring a similar power input. Refer to your device's manual for power requirements.
2. **Inspect the Charger:** Before connecting, visually inspect the charger and its cable for any signs of damage. Do not use if damaged.
3. **Connect to Device:** Insert the output connector of the AC adapter firmly into the charging port of your QFX PBX-8074 speaker.
4. **Connect to Power Outlet:** Plug the AC adapter's wall plug into a standard electrical outlet (100-240V AC, 50/60Hz).

5. **Charging Indication:** Your speaker should indicate that it is charging, typically via an LED indicator. Refer to your speaker's manual for specific charging indicators.

## 4. OPERATING INSTRUCTIONS

---

Once connected, the charger will automatically begin supplying power to your device. No further user interaction is required for basic operation.

- The charger is designed for continuous use, but it is recommended to disconnect it from the power outlet when not in use for extended periods.
- Ensure the charger is placed in a well-ventilated area to prevent heat buildup.
- The 4-foot cable length provides flexibility for placement.

- Prevent Leakage and Breakdown
- Ensure Efficient Stable Current
- Strong Power Output

Figure 3: The power cord, highlighting its 1.2 meter (approximately 4 feet) length and features designed to ensure efficient and stable current delivery.

## 5. MAINTENANCE AND CARE

---

Proper care will extend the life of your AC adapter charger.

- **Cleaning:** Disconnect the charger from both the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Handling:** Do not drop, disassemble, or attempt to repair the charger. This can void the warranty and pose safety risks.

## 6. TROUBLESHOOTING

---

If you encounter issues with your charger, refer to the following common problems and solutions.

| Problem                                 | Possible Cause  | Solution   |
|---|---|--|
| Charger not supplying power.            | Power outlet is not active.<br>Charger cable or connector is damaged.<br>Device charging port issue.                              | Test the outlet with another device.<br>Inspect the charger for visible damage. If damaged, discontinue use.<br>Try charging another compatible device (if available) to isolate the issue.                                    |
| Device not charging or charging slowly. | Loose connection.<br>Charger is not fully compatible (despite being for QFX PBX-8074, variations exist).<br>Device battery issue. | Ensure all connections are secure.<br>Verify the exact model number and power requirements of your speaker against the charger's specifications.<br>Consult your speaker's manual or manufacturer for battery troubleshooting. |
| Charger feels excessively hot.          | Poor ventilation.<br>Overload or internal fault.  | Ensure the charger is in a well-ventilated area, not covered.<br>Immediately disconnect the charger from the power source and device. Do not use if it continues to overheat. Contact support.                                 |

If the problem persists after trying these solutions, please contact SupplySource customer support.

## 7. SPECIFICATIONS

---

| Feature             | Detail                          |
|---------------------|---------------------------------|
| Model Number        | PSS/200309/075                  |
| Brand               | SupplySource                    |
| Input Voltage Range | 100-240V AC                     |
| Input Frequency     | 50-60Hz                         |
| Cable Length        | 4 FT (approximately 1.2 meters) |
| Color               | Black                           |
| Item Weight         | 3.2 ounces                      |

|                       |   |
|-----------------------|---|
| Package Dimensions    | 4.13 x 3.5 x 1.85 inches                |
| Included Components   | AC Power Cord (integrated with adapter) |
| Safety Certifications | CE, FCC                                 |
