## RICTLY 012-1361

# Night Light for Kids, Kids Night Light Nebula 360 Degree Rotation

Model: 012-1361 | Brand: RICTLY

## INTRODUCTION

This user manual provides comprehensive instructions for the setup, operation, and maintenance of your RICTLY Star Projector Night Light. Please read this manual carefully before using the product to ensure safe and optimal performance.

The RICTLY Star Projector Night Light is designed to create a relaxing and enchanting atmosphere, projecting stars and moon light onto your room's walls and ceiling. It features multiple color modes and a 360-degree rotation function, making it ideal for children's bedrooms, parties, or creating a romantic ambiance.

## SAFETY INFORMATION

- Keep the device away from water and moisture.
- Do not disassemble or attempt to repair the device yourself. Refer to qualified personnel for service.
- Use only the specified power source (4 x AAA batteries or USB connection).
- Avoid direct eye exposure to the LED light source.
- Keep out of reach of small children to prevent choking hazards from small parts.
- Ensure proper ventilation around the device during operation.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x Star Projector Night Light
- 1 x USB Cable
- 1 x User Manual (This document)

Image: The RICTLY Star Projector Night Light, featuring a blue base and a dome designed for projecting stars and moons.

## SETUP

Your Star Projector Night Light can be powered by either AAA batteries or a USB connection.

### Power Supply Options:

1. **Battery Power:**

Locate the battery compartment on the bottom of the unit. Insert 4 x AAA batteries (not included), ensuring correct polarity (+/-). Close the battery compartment securely.

## 2. USB Power:

Connect the provided USB cable to the DC 5V port on the side of the night light. Plug the other end of the USB cable into a USB power source, such as a computer, a USB wall charger (not included), or a portable power bank.

# POWER SUPPLYING WAYS

Powered by 4\*AAA batteries(not included)

Computer

Charger

Portable battery

## Preparing for Projection or Night Light Mode:

- **For Star Projection Mode:** Ensure the removable white dome cover is placed on top of the unit. This cover has the star and moon cutouts that allow the light to project.
- **For Night Light Mode:** Remove the removable white dome cover. This will allow the internal LED bulbs to illuminate the room with a soft glow without projection.

# PROJECTION MODE

Take off the outside cover  
Stars and moons will be projected on wall or ceiling

### OPERATING INSTRUCTIONS

---

The night light features three control buttons (A, B, C) on its base:

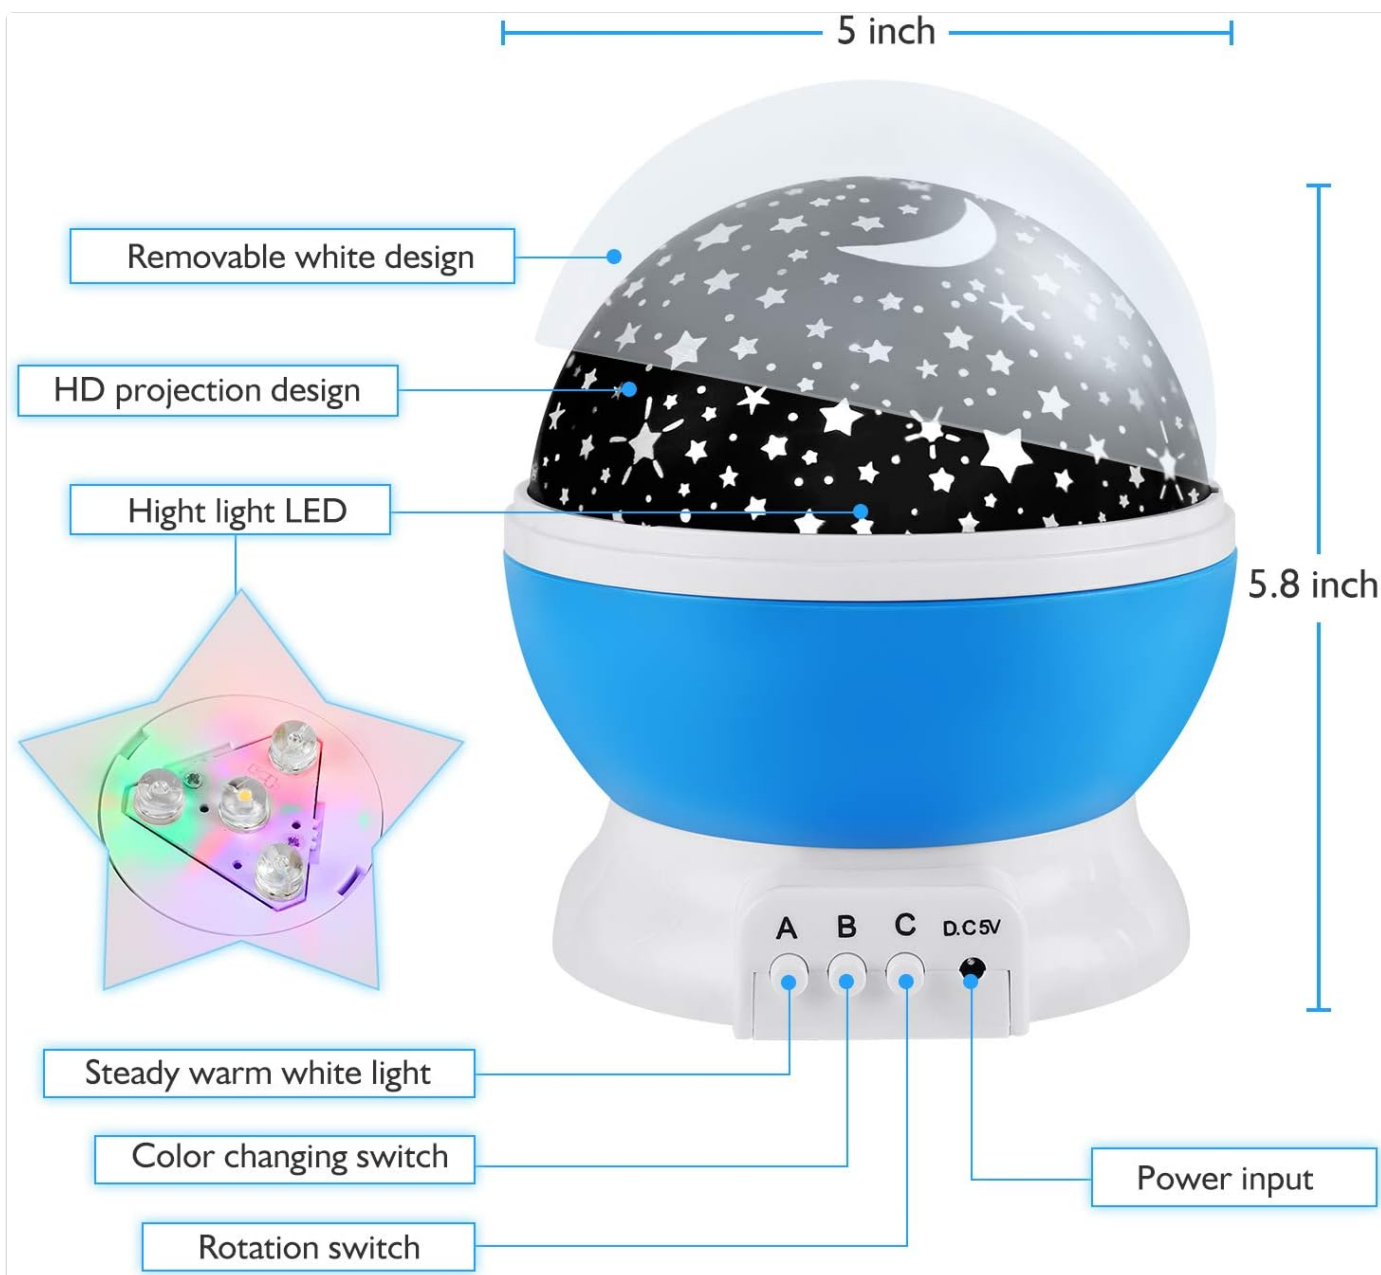

Image: Detailed view of the night light's base, highlighting the control buttons (A, B, C) and power input.

- **Button A: Warm White Light On/Off Switch**

Press Button A once to turn on the steady warm white light. Press Button A a second time to turn off the warm white light.

- **Button B: Color Lighting Effect Switch**

Press Button B repeatedly to cycle through 9 different color modes. These modes include single colors (red, green, blue, warm white) and various multi-color combinations. Continue pressing Button B until all color lights turn off to disable the color effects.

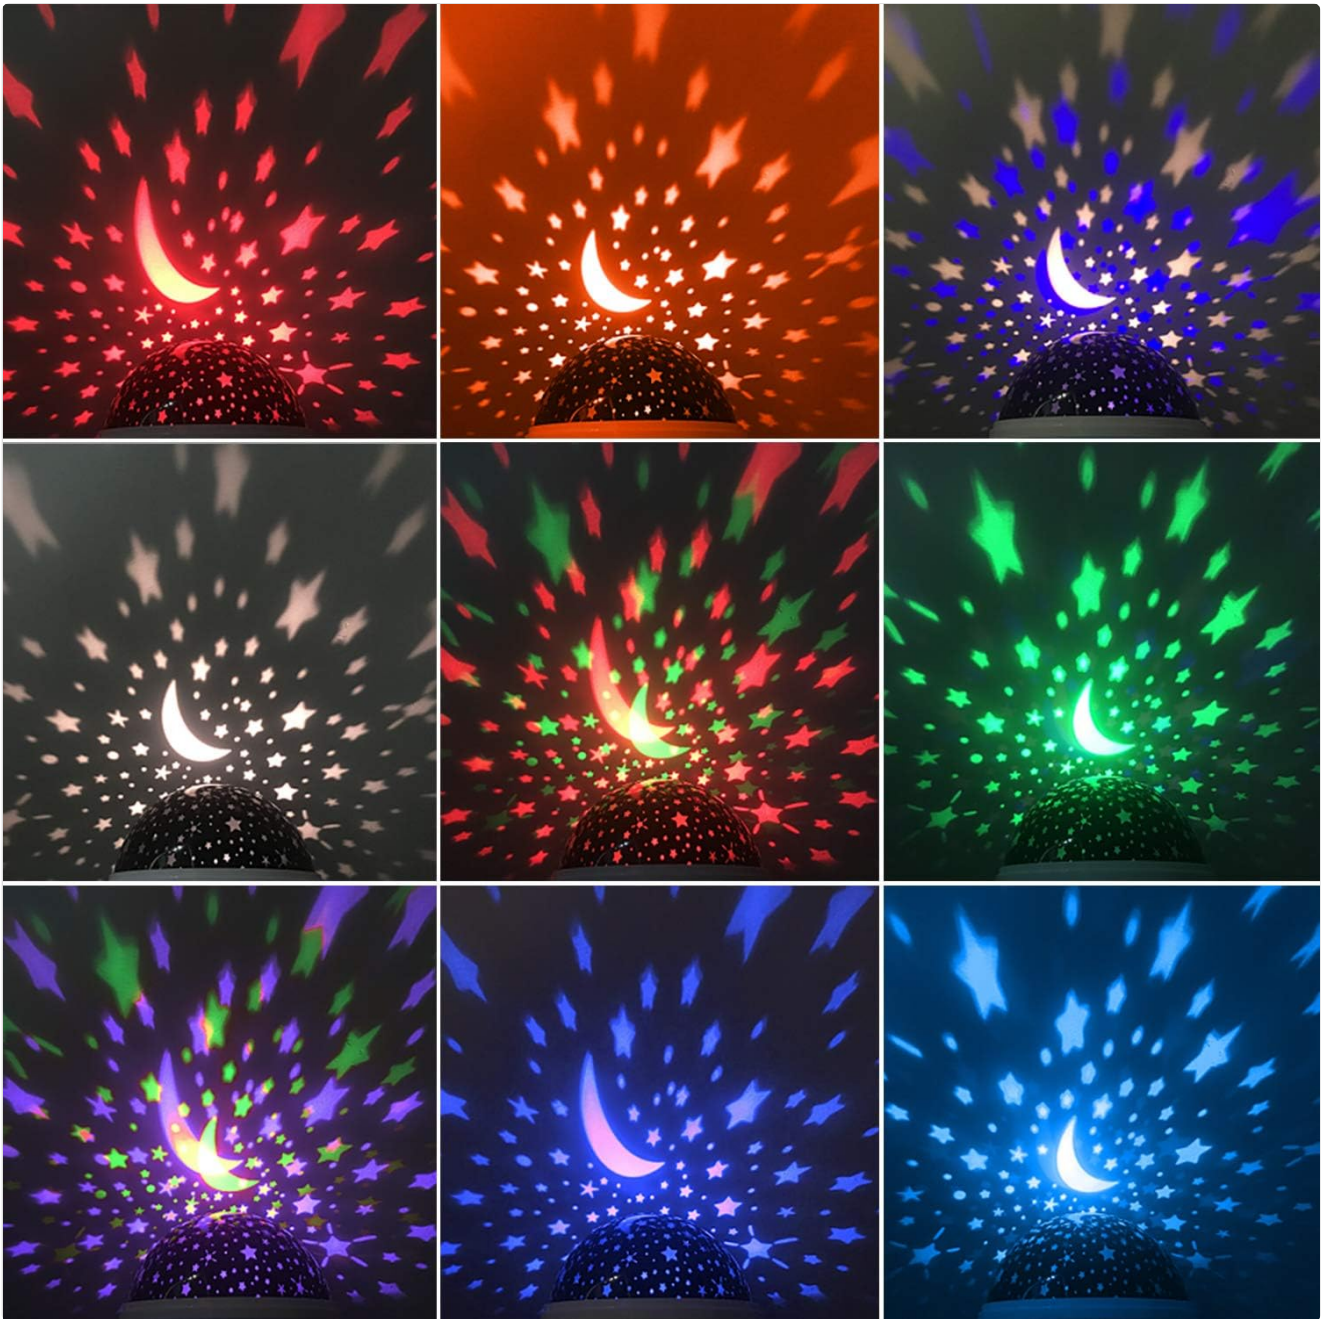

Image: Examples of the 9 different color projection modes available, showcasing various single and mixed color effects.

- **Button C: Rotation On/Off Switch**

Press Button C once to activate the 360-degree rotation feature, causing the projected stars and moons to slowly move across the room. Press Button C again to stop the rotation.

You can combine the functions of Button A, B, and C to create various lighting effects and experiences.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to gently wipe the surface of the night light. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** When not in use for extended periods, store the night light in a cool, dry place, away from direct sunlight and extreme temperatures. If using batteries, remove them before storage to prevent leakage.
- **Bulb Replacement:** The LED bulbs are designed for long-term use and are not user-replaceable.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Night light does not turn on.	No power supply, or batteries are depleted/incorrectly inserted.	Ensure USB cable is securely connected to a working power source. If using batteries, check if they are inserted correctly with proper polarity. Replace with fresh AAA batteries if needed.
Projection is dim or unclear.	Room is too bright; protective film on dome not removed; dirty dome.	Ensure the room is sufficiently dark for optimal projection. Verify that any protective film has been removed from the projection dome. Gently clean the projection dome with a soft, dry cloth.
Rotation function is not working.	Button C not pressed; internal mechanism obstruction.	Press Button C to activate rotation. Press again to stop. Ensure the device is on a flat, stable surface.
Cannot turn off the light using buttons.	Incorrect button sequence.	To turn off the warm white light, press Button A twice. To turn off the color lights, repeatedly press Button B until all color lights are off. To turn off rotation, press Button C. If all else fails, disconnect the USB cable or remove batteries.

## SPECIFICATIONS

Feature	Detail
Product Name	Rotating Star Night Light
Model Number	012-1361
Dimensions (D x W x H)	5.3" x 4.7" x 4.7" (13.46 cm x 11.94 cm x 11.94 cm)
Item Weight	9.6 ounces (272 grams)
Material	Acrylonitrile Butadiene Styrene (ABS)
Light Source Type	LED (4 LED Bulbs)
Light Colors	Warm White, Blue, Red, Green (9 adjustable projection effects)
Power Mode	4 x AAA Batteries (not included) or USB Connection (DC 5V)
Control Method	Push Button / Touch
Special Features	360 Degree Rotation, Color Changing
