PRODUCT FEATURES

- **Material:** Crafted from high-quality Baltic Birch wood.
- **Precision Cut:** Features precision laser-cut edges, which may exhibit a rustic burned appearance.
- **Unfinished Surface:** Ready for customization with paint, stain, glitter, and other decorative mediums.
- **Versatile Use:** Suitable for home décor, classroom activities, party decorations, wedding accents, greeting cards, gift tags, embellishments, and ornaments.
- **Dimensions:** This specific model measures 6.25 inches on its longest side and is 1/4 inch thick.

SETUP

The Sniggle Sloth Unfinished Wood Shape requires minimal setup before use. Follow these steps to prepare for your crafting project:

1. **Unpack:** Carefully remove the wood shape from its packaging.
2. **Inspect:** Examine the wood shape for any imperfections or splinters. While precision cut, natural wood variations may occur.
3. **Prepare Workspace:** Set up a clean, well-ventilated area for crafting. Protect your work surface with newspaper or a craft mat.
4. **Gather Supplies:** Collect all necessary crafting materials such as paints, brushes, stains, glues, or glitter.

OPERATING (USAGE INSTRUCTIONS)

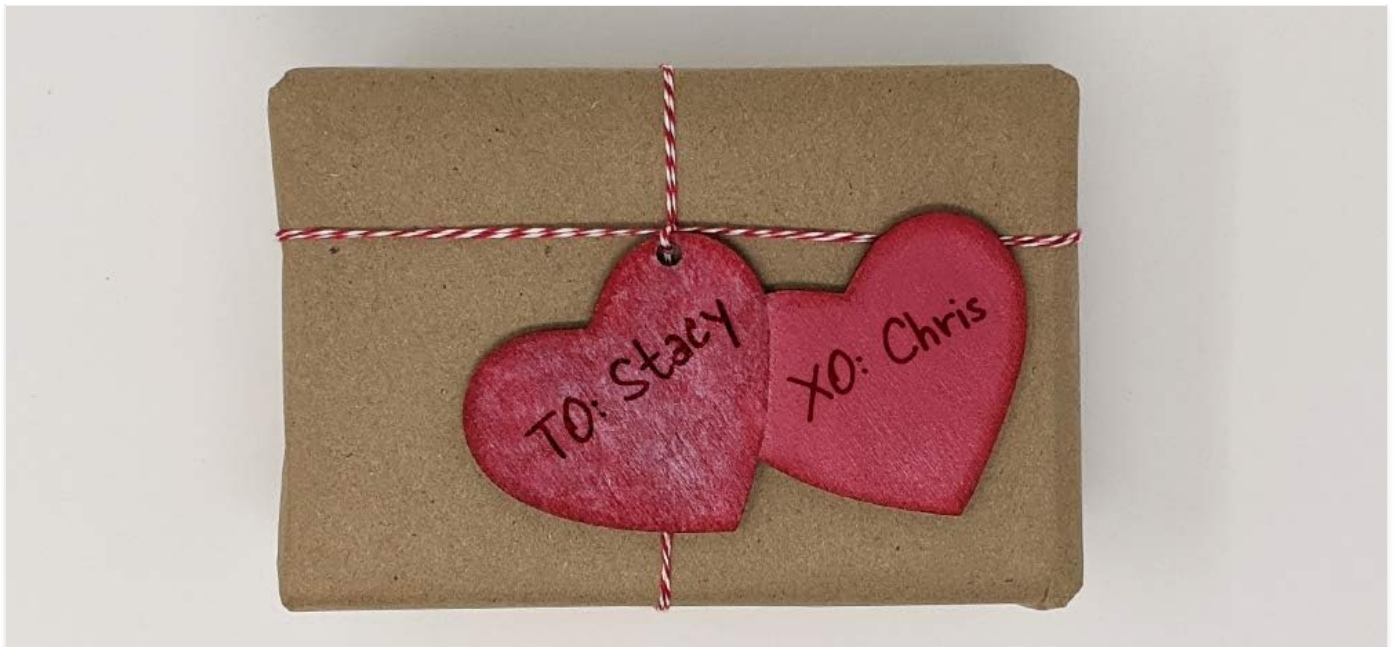

The unfinished nature of this wood shape allows for extensive customization. Here are general guidelines for using your wood shape in various craft projects:

1. **Surface Preparation (Optional):** For a smoother finish, lightly sand the wood surface with fine-grit sandpaper before applying any finishes. Wipe away any dust with a dry cloth.
2. **Applying Finishes:**
 - **Paint:** Apply acrylic, tempera, or craft paints using brushes, sponges, or other applicators. Allow each coat to dry completely before applying subsequent coats or details.
 - **Stain:** Use wood stains to enhance the natural grain. Follow the stain manufacturer's instructions for application and drying times.
 - **Glitter & Embellishments:** Apply craft glue to the desired areas and sprinkle glitter, or attach small embellishments like beads, sequins, or fabric pieces.
3. **Sealing (Recommended):** Once decorated and dry, apply a clear sealant (e.g., Mod Podge, clear varnish) to protect your artwork and ensure durability, especially if the item will be handled frequently or exposed to moisture.
4. **Integration into Projects:** The finished wood shape can be incorporated into larger projects. Use appropriate adhesives for attaching it to other surfaces, or drill small holes (with caution) for hanging as an ornament or tag.

MAINTENANCE

Proper care ensures the longevity of your wood shape, whether unfinished or decorated:

- **Cleaning:** For unfinished wood, gently wipe with a dry, soft cloth to remove dust. For finished pieces, use a slightly damp cloth if necessary, avoiding harsh chemicals.
- **Storage:** Store wood shapes in a dry environment away from extreme temperature fluctuations or direct sunlight to prevent warping or cracking.
- **Handling:** Handle with care to avoid dents or scratches, especially before sealing.

TROUBLESHOOTING

While wood shapes are generally straightforward, here are solutions to common concerns:

Issue	Solution
Minor Splinters:	Carefully sand the affected area with fine-grit sandpaper.
Warping:	Ensure proper storage in a stable environment. Minor warping may sometimes be corrected by placing the piece under heavy, flat objects in a dry area.
Uneven Paint/Stain Application:	Ensure the surface is clean and dry before application. Apply thin, even coats, allowing each to dry completely. Light sanding between coats can improve adhesion and smoothness.

SPECIFICATIONS

Attribute	Detail
Brand	Sniggle Sloth
Model	Pentagon Unfinished Wood Shape
Material	Baltic Birch Wood
Dimensions (L x W x H)	6.3 x 6.3 x 0.25 inches (approximate, longest side 6.25 inches)
