Sujeet NO.603

Sujeet Night Light Instruction Manual

Model: NO.603

1. INTRODUCTION

Thank you for choosing Sujeet Night Lights. This 8-pack of plug-in night lights is designed to provide gentle, automatic illumination for various areas of your home. Featuring a sensitive dusk-to-dawn sensor, these energy-efficient LED lights automatically turn on when ambient light is low and turn off when light increases, ensuring light is only provided when needed.

Each night light consumes only 0.5 Watts, making them incredibly energy-efficient, costing less than 1 Kwh per year if used for 7 hours daily. Their compact design ensures that the second outlet remains free for other devices.

2. SAFETY INFORMATION

- For indoor use only. Do not expose to water or moisture.
- Do not disassemble or modify the product.
- Keep away from flammable materials.
- This product is not a toy. Keep out of reach of children.
- Ensure the outlet is clean and dry before plugging in the night light.

3. PRODUCT OVERVIEW

The Sujeet Night Light features a minimalist square design with an integrated light sensor on the front face. It is designed to plug directly into a standard wall outlet.

Product Dimension

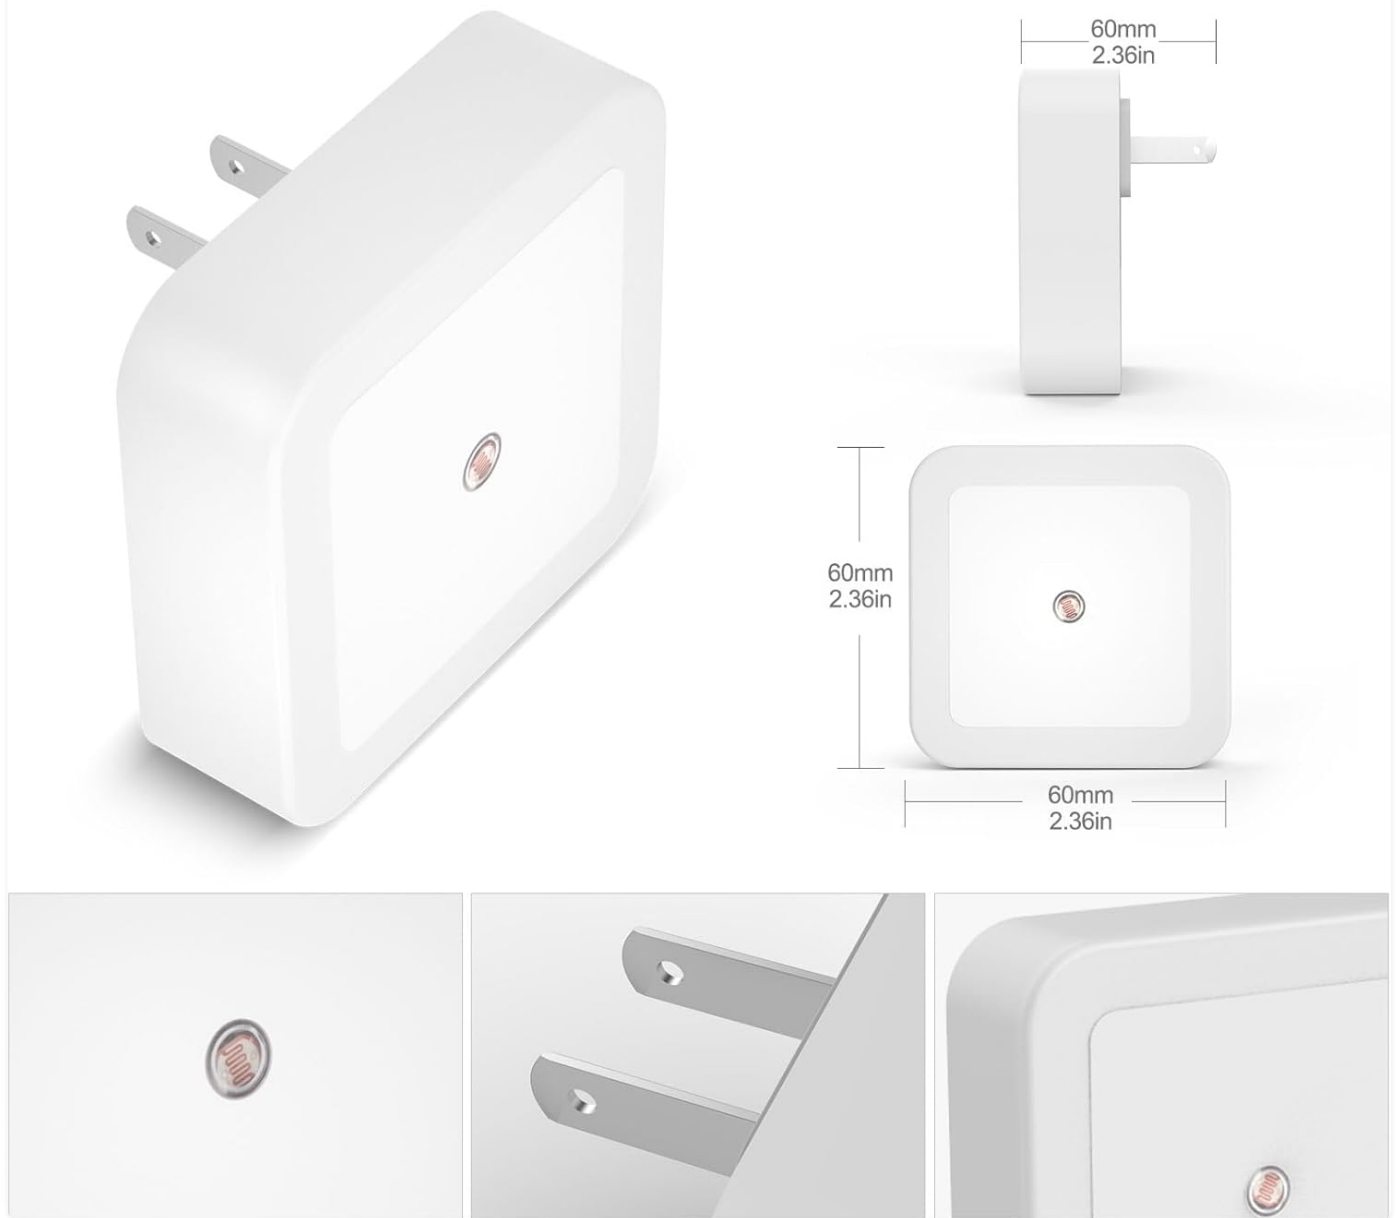

Figure 2: Product Dimensions

Its compact size (approximately 2.4 x 2.4 x 1.6 inches) ensures it does not block the second outlet, allowing for convenient use of other electrical devices.

Figure 3: Space-Saving Design

The night light utilizes long-life LED technology, providing over 20,000 hours of illumination.

4. SETUP

Setting up your Sujeet Night Light is simple:

1. Unpack the night lights from their packaging.
2. Select a standard 120V AC wall outlet in the desired location.
3. Plug the night light directly into the lower socket of the wall outlet. Ensure it is securely seated.
4. The night light is now ready for automatic operation.

5. OPERATING INSTRUCTIONS

The Sujeet Night Light operates automatically using its built-in dusk-to-dawn light sensor. No manual switching is required.

- **Automatic On:** When the ambient light in the room dims (e.g., at dusk or when room lights are turned off), the night light will automatically turn on, emitting a soft white glow.
- **Automatic Off:** When the ambient light in the room increases (e.g., at dawn or when room lights are turned on), the night light will automatically turn off.

6. MAINTENANCE

To ensure optimal performance and longevity of your Sujeeet Night Light:

- Unplug the device before cleaning.
- Wipe the exterior with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Ensure the light sensor is free from dust or obstructions for proper automatic operation.

7. TROUBLESHOOTING

Light does not turn on in the dark:

- Check if the night light is securely plugged into a working outlet.
- Ensure the light sensor on the front of the unit is not covered or obstructed.

- Verify that the ambient light level is sufficiently low for the sensor to activate.

Light does not turn off during the day:

- Ensure the light sensor is not covered or in a consistently dark area.
- Check for external light sources that might be insufficient to trigger the sensor but are still present.

Light flickers or is dim:

- Ensure the night light is fully plugged into the outlet.
- Try plugging the night light into a different outlet to rule out an issue with the power source.

8. SPECIFICATIONS

Feature	Detail
Brand	Sujeet
Model Number	NO.603
Light Source Type	LED
Power Source	Plug-in
Voltage	120 Volts (AC)
Maximum Compatible Wattage	0.5 Watts
