Inter Link Lotar 90x190 cm Trundle Bed with Storage Instruction Manual

Model: 20900258

1. PRODUCT OVERVIEW

The Inter Link Lotar Trundle Bed is a versatile and functional furniture piece designed to maximize space and provide multiple sleeping options. This 3-in-1 bed can function as a single bed, a double bed, or a bed with three sleeping surfaces, making it ideal for guest rooms, children's rooms, or youth rooms. Constructed from robust solid wood with a white lacquered finish, the natural wood grain remains subtly visible, preserving the authentic character of the wood.

An integrated pull-out drawer, equipped with an MDF base, serves as an additional sleeping area or can be utilized for convenient storage of bedding, towels, or toys. The bed includes two slatted frames for the main and trundle beds.

2. SAFETY INFORMATION

- Always follow assembly instructions carefully to ensure structural integrity.

- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not allow children to play unsupervised on or around the bed, especially when converting between configurations.
- Avoid placing the bed near heat sources or open flames.
- Do not exceed the recommended weight capacity for each sleeping surface.
- Keep small parts out of reach of children during assembly.

3. PACKAGE CONTENTS

Your Inter Link Lotar Trundle Bed package includes the following components, typically delivered in two boxes:

- Bed frame components for the main bed.
- Bed frame components for the pull-out trundle bed/drawer.
- Two slatted frames (one for the main bed, one for the trundle bed).
- MDF base for the pull-out drawer (if used for storage).
- Assembly hardware (screws, dowels, connectors).
- Illustrated assembly instructions.

Please verify all components are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

4. SETUP AND ASSEMBLY

The Inter Link Lotar Trundle Bed is designed for self-assembly. Detailed, illustrated assembly instructions are included in your package. Please follow these instructions step-by-step for proper and safe construction.

General Assembly Guidelines:

1. **Unpack Components:** Carefully unpack all parts and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in the included manual to identify each component.
3. **Gather Tools:** Ensure you have the necessary tools as specified in the assembly manual (e.g., screwdriver, hammer).
4. **Follow Steps:** Assemble the bed frame sections according to the numbered steps in the instruction booklet. Pay close attention to the orientation of each piece.
5. **Install Slatted Frames:** Once the main bed frame is assembled, install the slatted frame. Repeat for the trundle bed.
6. **Secure Drawer:** Assemble the pull-out drawer and ensure it slides smoothly into place.
7. **Final Check:** After assembly, double-check all connections and tighten any loose screws.

5. OPERATING INSTRUCTIONS

The Inter Link Lotar Trundle Bed offers flexible configurations to suit your needs:

5.1 Single Bed Configuration

In its most compact form, the bed functions as a standard single bed (90x190 cm). The pull-out drawer remains tucked underneath, either empty or used for storage.

5.2 Double Bed Configuration

To convert the bed into a double sleeping surface, simply pull out the lower trundle bed frame. The main bed and the trundle bed can then be placed side-by-side to create a wider sleeping area. Ensure both mattresses are of compatible height for comfort.

Image 5.1: The trundle bed extended, providing two separate sleeping surfaces or a wider double bed when placed together.

Image 5.2: Visual representation of the bed's transformation from a single unit to a wider sleeping area.

5.3 Triple Sleeping Configuration

The design allows for three sleeping surfaces. The main bed, the pull-out trundle bed, and the drawer itself can accommodate mattresses. The drawer is equipped with an MDF base, eliminating the need for an additional slatted frame if used for a mattress.

5.4 Using the Storage Drawer

The pull-out unit can also function as a spacious storage drawer. Simply remove any mattress from the drawer and use the integrated MDF base to store items such as bedding, blankets, pillows, or toys. Ensure items are evenly distributed and do not exceed the drawer's weight capacity.

6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Inter Link Lotar Trundle Bed, follow these care guidelines:

- **Cleaning:** Wipe the lacquered surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or excessive moisture, which can damage the finish.
- **Wood Care:** As solid wood is a natural product, slight variations in grain and color are normal and contribute to its authenticity. Protect the wood from direct sunlight and extreme temperature changes to prevent warping or fading.
- **Hardware:** Periodically check all screws and fittings to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Slatted Frames:** Inspect the slatted frames for any damage or wear. Replace broken slats promptly to ensure proper mattress support.
- **Drawer Mechanism:** Keep the drawer runners clean and free of debris to ensure smooth operation.

7. TROUBLESHOOTING

- **Difficulty during assembly:** Refer to the detailed assembly instructions provided. Ensure all parts are correctly oriented and that you are using the correct hardware for each step. Do not force components together.
- **Wobbly bed frame:** Check all screws and bolts. Tighten any that are loose. Ensure the bed is placed on a level surface.
- **Drawer not sliding smoothly:** Check for any obstructions in the drawer runners. Ensure the drawer is assembled correctly and that its base is not warped. Clean the runners if necessary.
- **Squeaking noises:** This can often be resolved by re-tightening all assembly hardware. If the noise persists, check the slatted frames for friction points.

8. SPECIFICATIONS

Feature	Detail
Brand	Inter Link
Model Number	20900258
Color	White (natural wood grain visible)
Material	Solid Pine Wood (Pinus Taeda), MDF (for drawer base)
Dimensions (Assembled)	199 cm (Length) x 97 cm (Width) x 65 cm (Height)
Mattress Size Compatibility	90 x 190 cm (for main bed and trundle bed)
Weight	Approximately 55 Kilograms
Special Features	Includes slatted frames, Trundle bed, Convertible (single/double/triple), Storage drawer
Finish Type	Painted

9. WARRANTY AND SUPPORT

Inter Link provides a competent and personal service center for support. For any inquiries, assistance with assembly, or to report missing/damaged parts, please refer to the service booklet included with your product or contact the manufacturer directly.

Technical modifications may be implemented to improve the product and are considered free updates. Slight color differences on screen may occur due to internet and display variations. Solid wood is a natural product and may exhibit differences in grain and color, which characterize its authenticity. Dimensional tolerances are possible and permitted due to production processes.
