

## KitchenAid 5KSB1CPA

# KitchenAid 5KSB1CPA Citrus Juicer Attachment User Manual

Model: 5KSB1CPA

## 1. INTRODUCTION

The KitchenAid 5KSB1CPA Citrus Juicer is an optional accessory designed to transform your KitchenAid K400 or K150 Artisan blender into an efficient electric citrus juicer. This attachment allows you to quickly and easily extract fresh juice from various citrus fruits, such as oranges, lemons, limes, and grapefruits, while effectively separating the pulp.

This manual provides essential information for the safe and effective use, setup, operation, and maintenance of your KitchenAid 5KSB1CPA Citrus Juicer Attachment.

## 2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions before using the appliance.
- To protect against risk of electrical shock, do not immerse the blender base or cord in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The use of attachments not recommended or sold by KitchenAid may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter.
- Do not let cord contact hot surfaces.
- Always ensure the attachment is properly assembled and secured to the blender base before operation.

## 3. PRODUCT OVERVIEW AND COMPONENTS

The KitchenAid 5KSB1CPA Citrus Juicer Attachment is designed for seamless integration with your KitchenAid K400 or K150 Artisan blender. It features a robust design for efficient juicing and easy cleaning.

## Components:

- **1-Liter BPA-Free Juice Pitcher:** Collects the extracted juice and features a convenient pouring spout.
- **Drive:** Connects the juicer attachment to the blender base.
- **Sieve Container:** Separates pulp from the juice, ensuring smooth, pulp-free juice.
- **Reamer:** The conical part that extracts juice from the citrus fruit.

## 4. SETUP INSTRUCTIONS

---

Follow these steps to properly set up your citrus juicer attachment with your KitchenAid K400 or K150 blender:

1. Ensure your KitchenAid K400 or K150 blender is unplugged from the power outlet.
2. Remove the blender jar from the blender base.
3. Place the citrus juicer attachment onto the blender base, aligning the drive mechanism of the juicer with the blender's motor coupling.
4. Gently twist or press down until the juicer attachment is securely seated on the blender base. It should fit snugly and not wobble.
5. Plug the blender into a grounded electrical outlet.

## 5. OPERATING INSTRUCTIONS

---

Once the citrus juicer attachment is securely installed on your blender base, you can begin juicing:

1. Cut your desired citrus fruit (e.g., oranges, lemons, limes, grapefruits) in half.
2. Place one half of the fruit, cut-side down, onto the reamer of the juicer attachment.
3. Turn on your KitchenAid blender to a low or medium speed setting. The reamer will begin to rotate.
4. Apply gentle downward pressure on the fruit against the rotating reamer. The juice will flow through the sieve into the 1-liter pitcher below, while the pulp and seeds are collected in the sieve container.
5. Continue juicing until all desired fruit halves have been processed.
6. Once finished, turn off the blender and unplug it from the power outlet.
7. Carefully remove the citrus juicer attachment from the blender base.
8. Pour the fresh juice from the pitcher using its convenient spout.

## 6. CLEANING AND MAINTENANCE

---

Proper cleaning and maintenance will ensure the longevity and optimal performance of your citrus juicer attachment.

### Cleaning:

- Always unplug the blender from the power outlet before cleaning.
- Disassemble the citrus juicer attachment by separating the juice pitcher, sieve container, and reamer from the drive and blender base.
- All components of the citrus juicer attachment (juice pitcher, sieve container, reamer, and drive) are dishwasher safe. Place them on the top rack of your dishwasher for cleaning.
- Alternatively, wash the components by hand using warm, soapy water and a soft brush or sponge. Rinse thoroughly.
- Wipe the blender base with a damp cloth. Never immerse the blender base in water or other liquids.
- Ensure all parts are completely dry before reassembling or storing.

### Storage:

Store the clean and dry citrus juicer attachment in a safe place, away from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

If you encounter any issues with your KitchenAid 5KSB1CPA Citrus Juicer Attachment, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Juicer does not operate.	Blender not plugged in or not turned on. Attachment not properly seated.	Ensure blender is plugged in and powered on. Re-seat the juicer attachment firmly onto the blender base.
Low juice yield or excessive pulp.	Insufficient pressure on fruit. Fruit not ripe enough. Sieve clogged.	Apply firm, consistent pressure. Use ripe citrus fruits. Clean the sieve container thoroughly.
Attachment wobbles during operation.	Attachment not securely installed.	Turn off and unplug the blender. Remove and re-install the attachment, ensuring it clicks or locks into place.

## 8. SPECIFICATIONS

- **Brand:** KitchenAid
