Accutime Batman Arkham Symbol Silver Metal Watch

INSTRUCTION MANUAL

Product Overview

The Accutime Batman Arkham Symbol Silver Metal Watch is an officially licensed timepiece designed for durability and style. Featuring a sleek silver metal construction and the iconic Batman Arkham City logo on its dial, this watch is built for reliable timekeeping. It is equipped with a robust metal wristband and a tang buckle clasp for secure wear.

Key Features

- Officially Licensed Batman Product: Authenticity guaranteed.
- Durable Metal Wristband: Provides long-lasting wear and a premium feel.
- High-Quality Design: Crafted with attention to detail for reliable performance.
- Tang Buckle Clasp: Ensures a secure and adjustable fit on the wrist.

Setup Guide

Upon receiving your watch, ensure all protective films are removed from the crystal and case back. The watch is ready for time setting and immediate use.

Setting the Time

1. Locate the crown (the small knob on the side of the watch case).
2. Gently pull the crown outwards to the first click position. This will stop the second hand (if applicable) and allow you to adjust the time.
3. Rotate the crown clockwise or counter-clockwise to move the hour and minute hands to the desired time.
4. Once the time is set, push the crown back in fully to its original position. The second hand will resume movement, indicating the watch is now running.

Operation

This watch operates as a standard analog timepiece, displaying hours, minutes, and seconds. Once the time is set, the watch will continuously keep time as long as it is powered. No further user interaction is required for basic timekeeping.

Care and Maintenance

- **Cleaning:** Wipe the watch case and band regularly with a soft, dry cloth to remove dust and smudges. For metal parts, a slightly damp cloth can be used, followed by immediate drying.
- **Avoid Water Exposure:** This watch is not specified as water-resistant. Avoid exposing it to water, moisture, or extreme humidity to prevent damage to the internal mechanism.
- **Temperature:** Protect the watch from extreme temperatures, both hot and cold, as this can affect its accuracy and lifespan.
- **Impact:** Avoid dropping the watch or subjecting it to strong impacts, which can damage the internal components or the crystal.
- **Chemicals:** Keep the watch away from solvents, detergents, perfumes, and cosmetics, as these can damage the case, band, or seals.

Troubleshooting

Problem	Possible Cause	Solution
Watch stops or runs intermittently	Depleted battery.	Replace the battery. Consult a professional watch repair service if unsure.
Time is inaccurate	Crown not fully pushed in; exposure to strong magnetic fields.	Ensure crown is fully pushed in. Keep watch away from magnets. If problem persists, battery may be low or watch needs servicing.
Condensation under crystal	Exposure to moisture or extreme temperature changes.	Avoid moisture exposure. If condensation persists, seek professional repair to prevent internal damage.
