Technical Precision Replacement Part 0412-577 User Manual

For EZGO, Cushman, and TEXTRON Vehicles

1. INTRODUCTION

This document provides essential information for the Technical Precision Replacement Part 0412-577. This component is designed as a direct replacement for specific parts in EZGO, Cushman, and TEXTRON vehicles. It is crucial to ensure this part is compatible with your specific vehicle model before installation.

2. PRODUCT OVERVIEW

The Technical Precision Replacement Part 0412-577 is a durable component, often referred to as a bushing or similar small part, intended for automotive and powersports applications. It is manufactured to meet the specifications of the original equipment part it replaces.

Image 2: A side view of the replacement part, highlighting its cylindrical shape and material texture.

2.1 What's in the Box

- 1 x Replacement Part (0412-577)

Image 3: The packaging for the replacement part, showing the part number 0412-577 and UPC 0886224799292.

3. INSTALLATION (SETUP)

This replacement part is intended for installation into compatible EZGO, Cushman, or TEXTRON vehicles. Due to the nature of automotive and powersports components, professional installation is highly recommended. Incorrect installation can lead to vehicle malfunction or damage.

3.1 General Installation Guidelines

- **Safety First:** Always ensure the vehicle is turned off, parked on a level surface, and secured before beginning any work. Disconnect the battery if working with electrical components.
- **Consult Vehicle Manual:** Refer to your specific vehicle's service or repair manual for detailed, step-by-step instructions on how to remove the old part and install the new 0412-577 replacement.
- **Tools:** Gather all necessary tools as specified in your vehicle's service manual.
- **Component Identification:** Carefully identify the part to be replaced to ensure it matches the 0412-577 replacement.
- **Secure Fasteners:** Ensure all fasteners are tightened to the manufacturer's recommended torque specifications.

4. OPERATING

As a replacement component, the 0412-577 does not have independent operating instructions. Its function is integrated into the overall operation of the vehicle system it is part of. Once correctly installed, the vehicle should operate as intended by its manufacturer.

After installation, perform a functional check of the vehicle to ensure the new part is working correctly and that no new issues have arisen.

5. MAINTENANCE

The Technical Precision Replacement Part 0412-577 is designed for durability and typically requires minimal direct maintenance. Follow the maintenance schedule and recommendations provided in your vehicle's owner's manual for the system this part belongs to.

- **Regular Inspection:** Periodically inspect the installed part for signs of wear, damage, or looseness, especially during routine vehicle servicing.
- **Cleaning:** Keep the area around the part clean from dirt, debris, and corrosive substances.

6. TROUBLESHOOTING

If issues arise after replacing a component with the 0412-577 part, consider the following general troubleshooting steps:

- **Re-check Installation:** Verify that the part was installed correctly and all connections/fasteners are secure.
- **Vehicle Diagnostics:** Consult your vehicle's service manual or a qualified technician for diagnostic procedures related to the system where the part was installed.
- **Part Compatibility:** Double-check that the 0412-577 is indeed the correct replacement part for your specific vehicle model and year.
- **Other Components:** The issue might stem from another component in the system, not necessarily the newly installed replacement part.

7. SPECIFICATIONS

Brand	Technical Precision
Model Number	0412-577
Manufacturer	Technical Precision
ASIN	B086C9DP79
UPC	0886224799292
Date First Available	June 12, 2019

8. SUPPORT AND WARRANTY

For technical assistance, product inquiries, or information regarding potential warranties, please contact Technical Precision directly. While specific warranty details are not provided in this document, standard return policies may apply.
