## Replacement Battery for NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT

Model: B086C9MFD3

### 1. INTRODUCTION

This manual provides essential information for the safe and effective use of your replacement battery for the NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT. This product is designed to provide reliable power for your compatible flashlight. Please read this manual thoroughly before installation and use.

### 2. SETUP AND INSTALLATION

Follow these steps to properly install the replacement battery into your NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT:

1. **Safety First:** Ensure the flashlight is turned off before attempting to replace the battery.
2. **Locate Battery Compartment:** Identify the battery compartment on your NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT. This is typically at the rear or base of the flashlight, secured by a screw-on cap or a latch.
3. **Open Compartment:** Carefully open the battery compartment. If there is an existing battery, remove it. Dispose of old batteries according to local regulations.
4. **Insert New Battery:** Insert the new replacement battery, ensuring correct polarity. Most batteries have positive (+) and negative (-) terminals clearly marked. Match these markings with the indicators inside the battery compartment. Incorrect insertion can prevent the flashlight from working and may damage the battery or device.
5. **Secure Compartment:** Close the battery compartment securely. Ensure the cap is tightly screwed or the latch is fully engaged to prevent moisture or dust ingress.
6. **Test Functionality:** Turn on the flashlight to confirm that the new battery is properly installed and functioning.

### 3. OPERATING INSTRUCTIONS

Once installed, the replacement battery operates in conjunction with your NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT's existing controls. Refer to your flashlight's original instruction manual for specific operating modes, brightness settings, and other features. This replacement battery is designed to provide the necessary power for all standard functions of the compatible flashlight.

## 4. MAINTENANCE AND STORAGE

Proper maintenance and storage will extend the life of your replacement battery:

- **Regular Use:** For optimal performance, use the flashlight regularly.
- **Storage:** If the flashlight will not be used for an extended period (e.g., several months), it is recommended to remove the battery to prevent potential leakage and damage to the device. Store the battery in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cleaning:** Keep battery terminals clean. If they appear dirty, gently wipe them with a clean, dry cloth.
- **Disposal:** Do not dispose of batteries in household waste. Always follow local regulations for battery recycling and disposal.

## 5. TROUBLESHOOTING

If your flashlight is not functioning correctly after battery installation, consider the following:

Problem	Possible Cause	Solution
Flashlight does not turn on.	Incorrect battery polarity.	Remove the battery and reinsert it, ensuring positive (+) and negative (-) terminals match the compartment markings.
Flashlight light is dim or flickers.	Battery is low on charge or nearing end of life.	If applicable, recharge the battery or replace it with a new one.
Battery compartment will not close.	Battery not seated correctly or incorrect battery size.	Ensure the battery is fully seated and that it is the correct replacement for your flashlight model. Do not force the compartment closed.

If issues persist, please contact customer support for further assistance.

## 6. SPECIFICATIONS

- **Product Type:** Replacement Battery
- **Compatibility:** NEBO BLUELINE (CLAMSHELL) 5602 FLASHLIGHT
- **Model Number (Replacement):** B086C9MFD3
- **Manufacturer:** Technical Precision
- **Unit Count:** 1
- **First Available:** March 15, 2019

## 7. WARRANTY AND SUPPORT

This replacement battery is provided by Technical Precision. For specific warranty information, please refer to the terms and conditions provided at the time of purchase. Generally, products are covered by a return

policy. For this product, a 30-day return policy is typically offered from the date of purchase. For technical support, questions, or assistance with your replacement battery, please contact Technical Precision customer service through the retailer where the product was purchased or visit the Technical Precision store on Amazon:
