TBI Pro ZapLikePRO 360

TBI Pro ZapLikePRO 360 Octenol Mosquito Attractant Cartridge

USER MANUAL

1. Product Overview

The TBI Pro ZapLikePRO 360 Octenol Mosquito Attractant Cartridge is designed to enhance the effectiveness of compatible bug zappers and mosquito killers. This cartridge releases Octenol, a powerful attractant that mimics human breath, drawing various mosquito species towards the trapping device. Each cartridge is formulated to provide continuous attraction for up to 30 days, ensuring prolonged protection against mosquitoes in both indoor and outdoor environments.

It is effective against a wide range of mosquito species, including *Culex pipiens*, *Culex*, *Anopheles sinensis*, *Anopheles micro*, *Aedes aegypti*, and *Aedes albopictus*.

2. Safety Information

- **Keep Out of Reach:** Store the cartridge away from children and pets.
- **Avoid Ingestion:** Do not ingest the contents of the cartridge. If ingested, seek medical attention immediately.
- **Skin and Eye Contact:** Avoid direct contact with skin and eyes. In case of contact, rinse thoroughly with water. If irritation persists, consult a physician.
- **Ventilation:** Use in well-ventilated areas, especially when handling.
- **Storage:** Store in a cool, dry place, away from direct sunlight and extreme temperatures. Keep in original packaging until ready for use.
- **Disposal:** Dispose of used cartridges according to local regulations for household waste. Do not puncture or burn.

3. Setup

1. **Unpack the Cartridge:** Carefully remove the Octenol attractant cartridge from its outer packaging.
2. **Open the Seal:** Locate the foil seal on the top of the cartridge. Gently peel back the foil seal to expose the attractant material. Do not remove the entire foil if your device requires a partial opening

or specific orientation. Refer to your bug zapper's manual for precise instructions on cartridge insertion.

3. **Insert into Device:** Insert the opened attractant cartridge into the designated slot or compartment of your compatible TBI Pro ZapLikePRO bug zapper or mosquito killer. Ensure it is securely seated.
4. **Activate Device:** Once the cartridge is installed, turn on your bug zapper or mosquito killer according to its operating instructions. The attractant will begin to disperse immediately.

Image 1: The TBI Pro ZapLikePRO Octenol Mosquito Attractant Cartridge with its foil seal partially peeled back, revealing the attractant material inside. This illustrates the initial step of preparing the cartridge for use by opening its protective seal.

4. Operating

Once installed and your compatible mosquito killer is active, the TBI Pro ZapLikePRO 360 Octenol Mosquito Attractant Cartridge will continuously release Octenol to attract mosquitoes. For optimal results:

- **Placement:** Position your bug zapper or mosquito killer in an area where mosquito activity is high, but away from where people gather, to draw mosquitoes away from human presence.
- **Duration:** Each cartridge is effective for approximately 30 days. Mark the installation date to remember when to replace it.
- **Continuous Use:** For best results, operate your mosquito killer with the attractant cartridge continuously during peak mosquito seasons or times of high activity.

5. Maintenance

- **Cartridge Replacement:** Replace the Octenol attractant cartridge every 30 days, or sooner if you notice a decrease in mosquito attraction. The effectiveness of the attractant diminishes over time.
- **Disposal:** After 30 days, carefully remove the used cartridge from your device. Dispose of the used cartridge in regular household waste. Do not attempt to refill or reuse the cartridge.
- **Device Cleaning:** Regularly clean your bug zapper or mosquito killer according to its own instruction manual to ensure optimal performance and airflow around the attractant.

6. Troubleshooting

Issue: Reduced mosquito attraction.

Possible Causes & Solutions:

- **Cartridge Expired:** The attractant is effective for approximately 30 days. Check the date of installation and replace the cartridge if it has been in use for more than 30 days.
- **Improper Installation:** Ensure the cartridge is correctly installed and its seal is adequately opened

as per the setup instructions and your device's manual.

- **Device Malfunction:** Verify that your bug zapper or mosquito killer is functioning correctly (e.g., power is on, fan is working if applicable). Refer to your device's manual for troubleshooting its operation.
- **Environmental Factors:** Strong winds can disperse the attractant quickly. Consider relocating the device to a more sheltered area.

Issue: Cartridge contents leaking.

Possible Causes & Solutions:

- **Damage:** Inspect the cartridge for any visible damage before use. Do not use a damaged cartridge.
- **Improper Storage:** Ensure the cartridge was stored in a cool, dry place away from extreme temperatures.
- **Contact Support:** If a new, undamaged cartridge is leaking, discontinue use and contact TBI Pro customer support.

7. Specifications

| Feature | Detail |
|--------------------|--|
| Product Name | TBI Pro ZapLikePRO 360 Octenol Mosquito Attractant Cartridge |
| Brand | TBI Pro |
| Model Identifier | ZapLikePRO 360 (Attractant Cartridge) |
| ASIN | B086CD7Y6D |
| Manufacturer | TBI Pro |
| Package Dimensions | 9.2 x 5.1 x 1.6 cm |
| Item Weight | 1 kg (as per package dimensions, actual cartridge weight may vary) |
| Effective Duration | Up to 30 days per cartridge |
| Compatibility | Compatible with TBI Pro ZapLikePRO bug zappers and other specified mosquito killers. |

8. Warranty and Support

For specific warranty information regarding your TBI Pro ZapLikePRO 360 Octenol Mosquito Attractant Cartridge, please refer to the documentation provided with your purchase or contact the retailer from whom the product was acquired. Warranty terms typically cover manufacturing defects.

For further assistance, technical support, or to inquire about product details, please visit the official TBI Pro website or contact their customer service department. Contact information can usually be found on the product packaging or the manufacturer's website.

Note: This manual provides general instructions. Always refer to the specific instructions of your compatible bug zapper or mosquito killer for complete setup and operational guidance.
