Movo LV1-USB

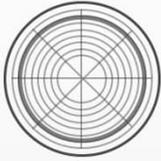

Movo LV1-USB Lavalier Microphone Instruction Manual

Model: LV1-USB | Brand: Movo

INTRODUCTION

The Movo LV1-USB Lavalier Microphone is designed to provide clear, high-quality audio for various applications, including video tutorials, video calls via platforms like Skype, Slack, Zoom, and Hangouts, and other web conferencing apps. Its omnidirectional polar pattern ensures clear voice reproduction, making it an ideal external microphone solution for content creators and remote workers.

WHAT'S IN THE BOX

Your Movo LV1-USB Lavalier Microphone package includes the following items:

- Movo LV1-USB Lavalier Microphone
- USB Adapter
- Windscreen (foam)
- Lapel Clip
- Warranty Card

SETUP

- 1. Insert Battery:** The microphone requires 1 LR44 battery for operation. Open the battery compartment on the microphone's control module and insert the battery, ensuring correct polarity.
- 2. Attach Windscreen and Clip:** Place the foam windscreen over the microphone capsule. Attach the lavalier clip to the microphone for secure placement on clothing.
- 3. Connect to Device:**
 - **For 3.5mm Devices (Smartphones, Cameras, Recorders):** Plug the 3.5mm jack directly into your device's microphone input. Ensure the microphone's control module switch is set to 'OFF/Smartphone' mode for smartphones or 'Camera' mode for cameras.
 - **For USB Devices (Computers, Laptops):** Connect the 3.5mm jack to the included USB adapter, then plug the USB adapter into an available USB port on your computer. The microphone is plug-and-play, requiring no additional software or drivers.

4. **Position Microphone:** Clip the microphone to your clothing, ideally 6-8 inches from your mouth, for optimal sound capture.

OPERATING INSTRUCTIONS

The Movo LV1-USB microphone is designed for ease of use, offering a plug-and-play experience without the need for complex software installations.

- **Power On/Off:** Use the switch on the microphone's control module to turn the microphone on or off. For smartphones, set the switch to 'OFF/Smartphone'. For cameras, set it to 'Camera'. For computers using the USB adapter, the microphone is typically powered via USB.
- **Recording:** Once connected and powered, open your preferred audio or video recording application on your device. Select the Movo LV1-USB as your input device if prompted. Begin recording.
- **Extended Reach:** The 20ft cord provides ample length, allowing for movement during recordings such as webinars, vlogs, and tutorials.

EXTENDED REACH

The 20ft USB microphone cable provides plenty of length, allowing you to move freely while recording webinars, vlogs, tutorials, and other content with ease.

COMPATIBILITY

The Movo LV1-USB Lavalier Microphone offers universal compatibility with a wide range of devices:

- **Hardware Platforms:** Laptop, PC
- **Compatible Devices:** Laptop, Personal Computer, Smartphone
- **Connectivity Technology:** Auxiliary, USB
- **Connector Type:** 3.5 mm Jack, USB

MULTIPLE USE CASES

MAINTENANCE

To ensure the longevity and optimal performance of your Movo LV1-USB Lavalier Microphone, follow these simple maintenance guidelines:

- **Cleaning:** Gently wipe the microphone and cables with a soft, dry cloth. Avoid using liquid cleaners or solvents.
- **Storage:** Store the microphone in a cool, dry place away from direct sunlight and extreme temperatures. Use the provided bag to protect it from dust and physical damage.
- **Cable Care:** Avoid sharp bends or kinks in the cable. Coil it loosely when not in use to prevent damage.
- **Battery Replacement:** Replace the LR44 battery when audio quality degrades or the microphone stops functioning.

TROUBLESHOOTING

If you encounter issues with your Movo LV1-USB Lavalier Microphone, consider the following:

- **No Sound/Low Volume:**
 - Ensure the battery is correctly inserted and not depleted.
 - Check that the microphone's switch is in the correct position (OFF/Smartphone for phones, Camera for cameras).
 - Verify the 3.5mm jack or USB adapter is fully inserted into the device.
 - Confirm the microphone is selected as the input device in your computer's sound settings or recording application.
 - Adjust input volume levels on your recording device or computer.

- **Distorted Sound:**

- Ensure the microphone is not too close to the sound source.
- Check for any loose connections.
- Replace the battery if it's low.

- **Background Noise:**

- Ensure the windscreen is properly attached.
- Minimize environmental noise during recording.

SPECIFICATIONS

Feature	Specification
Audio Sensitivity	30 Decibels
Item Weight	0.11 Kilograms (3.84 ounces)
Microphone Form Factor	Lavalier
Power Source	Battery Powered
Number of Batteries	1 LR44 batteries required
Material	Plastic
Signal-to-Noise Ratio	78 dB
Hardware Platform	Laptop, PC
