Belkin BoostCharge USB-A to USB-C Cable (6.6ft, 15W) Instruction Manual

PRODUCT OVERVIEW

The Belkin BoostCharge USB-A to USB-C Cable is designed for reliable charging and data transfer between USB-A and USB-C compatible devices. This 6.6-foot (2-meter) cable supports up to 15W charging and is engineered for durability and broad compatibility.

Key features include:

- **Broad Compatibility:** Connects with a wide range of USB-C devices, including smartphones, tablets, and gaming consoles.
- **Superior Durability:** Tested to withstand over 25,000 bends and 10,000 plug-ins.
- **Flexible Design:** Ultra-flexible silicone technology for a long lifespan.
- **Charge, Sync, and Connect:** Facilitates charging, music/photo syncing, and data transfer.
- **USB-IF Certified:** Ensures fast, safe charging and reliable data transfers.

Figure 1: The Belkin BoostCharge USB-A to USB-C Cable, illustrating both connector types.

SETUP INSTRUCTIONS

To begin using your Belkin BoostCharge USB-A to USB-C Cable, follow these simple steps:

1. **Identify Connectors:** Locate the USB-A connector (rectangular) and the USB-C connector (oval-shaped).
2. **Connect to Power Source/Computer:** Insert the USB-A connector into a compatible USB-A port on a wall charger, power bank, or computer.
3. **Connect to Device:** Insert the USB-C connector into the USB-C port of your smartphone, tablet, or other compatible device.
4. **Verify Connection:** Ensure both connectors are fully inserted. Your device should indicate that it is

charging or connected for data transfer.

OPERATING INSTRUCTIONS

This cable supports both charging and data transfer functionalities.

Charging Your Device

Once connected to a power source and your device, the cable will automatically begin charging. The cable supports up to 15W charging, allowing for efficient power delivery to compatible devices.

Figure 3: Illustration of 15W charging capability, showing a smartphone charging via the cable.

Data Transfer

When connected to a computer, the cable enables data transfer between your device and the computer. Depending on your device's operating system, you may need to select a data transfer mode (e.g., 'File Transfer' or 'MTP') on your device after connecting.

MAINTENANCE

To ensure the longevity and optimal performance of your Belkin BoostCharge USB-A to USB-C Cable, follow these maintenance guidelines:

- **Avoid Extreme Bending:** While durable, excessive or sharp bending, especially near the connectors, can damage internal wires.

- **Store Properly:** When not in use, coil the cable loosely. Avoid tightly wrapping or knotting the cable.
- **Keep Clean:** Periodically wipe the cable and connectors with a dry, soft cloth to remove dust and debris. Do not use liquid cleaners directly on the connectors.
- **Handle with Care:** Always grasp the connector head when plugging or unplugging the cable, rather than pulling on the cable itself.

USB-IF Certified

USB-IF certified cables ensure fast, safe charging and reliable data transfers. Protect your devices.

Figure 4: The cable's robust construction is designed to withstand significant bending and repeated plugging.

TROUBLESHOOTING

If you encounter issues with your Belkin BoostCharge USB-A to USB-C Cable, consider the following:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
 - Try a different power adapter or USB-A port.
 - Test the cable with another compatible device to rule out a device-specific issue.
- **Slow Charging:**
 - Verify that your power adapter provides sufficient wattage for your device.
 - Ensure your device's charging port is clean and free of debris.
- **Data Transfer Issues:**
 - Confirm your device is set to 'File Transfer' or 'MTP' mode when connected to a computer.
 - Try connecting to a different USB-A port on your computer.
 - Restart both your device and computer.
- **Physical Damage:** Inspect the cable for any visible signs of damage, such as fraying, cuts, or bent connectors. If damaged, discontinue use.

SPECIFICATIONS

Feature	Detail
Brand	Belkin
Model Name	6.6-Foot BOOST↑CHARGE USB-C to USB-A Cable (Black)
Model Number	CAB001bt2MBK
Connector Type	USB 3.0 (USB-A to USB-C)
Cable Length	6.6 Feet (2 Meters)
Power Delivery	Up to 15W
Data Transfer Rate	Up to 12 Gigabits Per Second (USB 3.0)
Certification	USB-IF Certified
Durability	Tested to 25,000 bends, 10,000 plug-ins
Color	Black
Material	Durable Plastic or Rubber (Outer)

Engineered for Safety
