7. Troubleshooting

- **System Wobbles:** Ensure the elevated stand is correctly seated in the grooves of the integrated mat. Check that the mat is on a flat, even surface.
- **Excessive Spills:** While the mat is designed to contain most spills, some pets may be particularly messy. Ensure bowls are not overfilled. The elevated design itself helps reduce spills by providing a more natural eating angle.
- **Pet Refuses to Eat/Drink:** Allow your pet time to adjust to the new feeding system. Ensure the height is appropriate for your pet's size (refer to the size guide in specifications).
