› Coway Filter Kit Instruction Manual for CHP-06E, CP-07H, CHP-590 Water Purifiers

Coway CHP-06E, CP-07H, CHP-590

Coway Filter Kit Instruction Manual

For Models: CHP-06E, CP-07H, CHP-590

INTRODUCTION

This manual provides essential information for the installation, maintenance, and replacement of the Coway filter kit, designed for use with Coway water purifiers including models CHP-06E, CP-07H, and CHP-590. Adhering to these instructions will help ensure optimal performance and water quality from your Coway water purification system.

COMPATIBLE MODELS

This filter kit is compatible with the following Coway water purifier models:

- Coway CHP-06E
- Coway CP-07H (Sally)
- Coway CHP-590 (Harry Pearl)

FILTER COMPONENTS AND FUNCTIONS

The Coway filter kit includes the following components, each designed for a specific purification stage:

Ceramic Filter (Antibacterial Filter)

This filter is designed to prevent the growth of bacteria and viruses within the water reservoir, ensuring hygienic water storage.

NEO SENSE 14" - CNFN14 Filter

Image: A white cylindrical NEO SENSE CNFN14 filter with an orange and white label, shown out of its packaging. The NEO SENSE filter is responsible for filtering out coarse impurities, chlorine, solvents, and dissolved particles from the water, improving its clarity and taste.

PLUS INNO SENSE 14" - C1FN14-PLUS Filter

Image: A white cylindrical PLUS INNO SENSE CIFN14-PLUS filter with a green and white label, shown out of its packaging.

The PLUS INNO SENSE filter targets and removes odors, additional chlorine, and solvents from the water, further enhancing its quality and palatability.

INSTALLATION

Refer to your specific Coway water purifier model's user manual for detailed, step-by-step instructions on how to access and replace the filters. General steps typically involve:

1. Turn off the water supply to the purifier and unplug the unit.
2. Locate the filter compartments, usually accessible by opening a cover or panel.
3. Carefully remove the old filters, noting their orientation.
4. Insert the new filters, ensuring they are securely seated and oriented correctly.
5. Close the filter compartments, restore water supply, and plug in the unit.
6. Flush the system as per your purifier's instructions to remove air and carbon fines.

MAINTENANCE AND FILTER REPLACEMENT SCHEDULE

Regular maintenance and timely filter replacement are crucial for maintaining consistent water quality and the longevity of your Coway water purifier. Please adhere to the following schedule:

- **Filters (Ceramic, NEO SENSE, PLUS INNO SENSE):** Replace every **12 months**.
- **Water Reservoir:** Clean and disinfect the water reservoir every **12 months**.
- **Membrane:** The reverse osmosis membrane (if applicable to your model) should be changed every **36 months**.

Failure to replace filters and clean the reservoir as recommended may lead to reduced water quality, decreased flow rates, and potential damage to the purification system.

TROUBLESHOOTING

If you experience issues with water quality, taste, or flow after replacing filters, consider the following:

- **Poor Water Taste/Odor:** Ensure filters are correctly installed and that the system has been adequately flushed. If issues persist, the filters may be faulty or the system may require further inspection.
- **Reduced Water Flow:** Check for kinks in water lines or ensure filters are not clogged. New filters should restore optimal flow.
- **Leakage:** Verify that all filter connections are tight and O-rings are properly seated.

For persistent problems or complex issues, please contact Coway customer support.

SPECIFICATIONS

Brand	Coway
Material	Ceramic (for Ceramic Filter component)
Compatible Models	CHP-06E, CP-07H, CHP-590
UPC	713482785630
ASIN	B086L8T3W5

WARRANTY AND SUPPORT

For specific warranty information regarding your Coway filter kit or water purifier, please refer to the documentation provided with your original water purifier purchase or visit the official Coway website. If you have any questions concerning filter replacement, water reservoir cleaning, membrane inspection, or require technical assistance, please do not hesitate to contact Coway customer support:
