Child Craft Rylan 4-in-1 Convertible Crib Instruction Manual

Model: F33001.82

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and conversion of your Child Craft Rylan 4-in-1 Convertible Crib. This crib is designed to adapt to your child's growth, converting from a crib to a toddler bed, day bed, and full-size bed. Please read all instructions carefully before assembly and use to ensure safe operation and longevity of the product.

SAFETY INFORMATION

WARNING: Failure to follow these warnings and the assembly instructions could result in serious injury or death.

- Read all instructions before using the crib. Keep instructions for future use.
- Do not use this crib if you cannot exactly follow the accompanying instructions.
- Check this product for damaged hardware, loose joints, missing parts, or sharp edges before and after assembly and frequently during use.
- Do not use the crib if any parts are missing, damaged, or broken. Contact Childcraft for replacement parts and instructional literature if needed. Do not substitute parts.
- Ensure all fasteners are securely tightened. Do not overtighten.
- The mattress used with this crib must be at least 27 1/4 inches (69 cm) by 51 5/8 inches (131 cm) with a thickness not exceeding 6 inches (15 cm).
- To prevent falls, when the child is able to pull to a standing position, set the mattress to the lowest position.
- When the child is able to climb out, the crib shall no longer be used for that child.
- Do not place the crib near a window where cords from blinds or drapes could strangle a child.
- Do not place items with a string or cord around a child's neck, such as hood strings or pacifier cords. Do not suspend

strings over a crib or attach strings to toys.

- Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.
- Infants can suffocate on soft bedding. Never add a pillow, comforter, or additional padding.
- Never use this crib for an infant who cannot hold their head up unassisted.

PARTS LIST

Before beginning assembly, ensure all components are present. If any parts are missing or damaged, do not proceed with assembly. Contact Childcraft customer support for assistance.

- Headboard (1)
- Footboard (1)
- Side Rails (2)
- Mattress Support (1)
- Hardware Pack (bolts, barrel nuts, washers, Allen wrench)

Note: Toddler guard rail (Model #F09501) and full-size bed rails (Model #F06401) are sold separately for conversion.

SETUP: CRIB ASSEMBLY

Assembly typically requires two adults. Use the provided Allen wrench and ensure all connections are secure but do not overtighten.

1. Unpack all components and verify against the parts list.
2. Attach the side rails to the headboard and footboard using the provided bolts and barrel nuts. Ensure the side rails are oriented correctly with the mattress support brackets facing inward.
3. Insert the mattress support into the desired height position. Secure it to the side rails using the designated bolts. Refer to the "Operating Instructions: Mattress Height Adjustment" section for guidance on height settings.
4. Double-check all bolts and fasteners to ensure they are tight.
5. Place a standard crib mattress (sold separately) onto the mattress support.

OPERATING INSTRUCTIONS: MATTRESS HEIGHT ADJUSTMENT

The Child Craft Rylan Crib features a metal mattress support with 3 adjustable positions to accommodate your child's growth.

- **Highest Position:** For newborns and infants who cannot push up on their hands and knees. This position allows easier access to your baby.
- **Middle Position:** For infants who can push up on their hands and knees but cannot yet pull themselves to a standing position.
- **Lowest Position:** For children who can pull themselves to a standing position. This position helps prevent the child from climbing out of the crib.

To adjust the mattress height, remove the mattress and carefully detach the mattress support from the side rails. Reattach the support at the desired height, ensuring all fasteners are securely tightened before placing the mattress back into the crib.

CONVERSION INSTRUCTIONS

1. Toddler Bed Conversion

To convert the crib into a toddler bed, you will need the Child Craft Toddler Guard Rail (Model #F09501), sold separately.

1. Remove one of the crib's side rails.
2. Attach the toddler guard rail to the headboard and footboard in place of the removed side rail, following the instructions provided with the guard rail.
3. Ensure all connections are secure.

2. Day Bed Conversion

To convert the crib into a day bed, no additional parts are required.

1. Remove one of the crib's side rails completely.
2. Ensure the mattress support is set to the lowest position for safety and ease of access.
3. Confirm all remaining connections are secure.

3. Full-Size Bed Conversion

To convert the crib into a full-size bed, you will need the Child Craft Full-Size Bed Rails (Model #F06401), sold separately.

1. Disassemble both side rails and the mattress support from the headboard and footboard.
2. Attach the full-size bed rails to the headboard and footboard, following the instructions provided with the bed rails.
3. Place a full-size mattress and box spring (not included) onto the bed rails.
4. Ensure all connections are secure.

MAINTENANCE AND CARE

- Clean the crib regularly with a damp cloth. Avoid abrasive cleaners or strong chemicals that could damage the finish.
- Periodically check all bolts and fasteners to ensure they remain tight. Loose fasteners can compromise the safety and stability of the crib.
- Avoid exposing the crib to extreme temperatures or humidity, as this can cause warping or cracking of the wood.
- Do not store the crib in direct sunlight for extended periods, as this may cause fading.

TROUBLESHOOTING

Missing Parts or Instructions

If you find that parts are missing from your package or the assembly instructions were not included, please contact Childcraft customer support immediately. Do not attempt to assemble the crib with incomplete parts or without proper instructions.

Difficulty with Assembly

If you encounter difficulties during assembly, review the instructions carefully. Ensure all parts are oriented correctly and that you are using the appropriate hardware for each step. If problems persist, contact customer support for guidance.

Loose Connections

Periodically check all bolts and fasteners. If any feel loose, tighten them with the provided Allen wrench. Do not overtighten, as this can strip the threads or damage the wood.
