vidaXL 170848

vidaXL Outdoor Chicken Coop with Nesting Box

Model: 170848

PRODUCT OVERVIEW

The vidaXL Outdoor Chicken Coop, Model 170848, is designed to provide a comfortable and secure habitat for your poultry. Constructed from high-quality pinewood, this coop features a robust frame and durable wire mesh for ventilation and protection. It includes an integrated nesting box and an easy-access ramp, ensuring a functional and safe environment for your chickens.

Key Features

- **Durable Construction:** Made from solid fir wood with a painted finish and plywood elements.
- **Secure Enclosure:** Features durable powder-coated iron wire mesh.
- **Weather Protection:** Equipped with a green waterproof roof to shield against rain.
- **Easy Access:** Includes an anti-slip ramp for chickens to move between levels.
- **Convenient Cleaning:** A sliding tray facilitates easy cleaning of the coop.
- **Integrated Nesting Box:** A dedicated compartment for egg laying.
- **Lockable Door:** Main door can be secured with a sliding latch.

SETUP AND ASSEMBLY

1. Unpacking and Inspection

Carefully unpack all components from the packaging. Verify that all parts listed in the assembly guide (not provided in this document) are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

2. Assembly

Follow the manufacturer's assembly instructions provided with your product. Ensure all screws and fasteners are securely tightened. Do not overtighten to avoid damaging the wood. Assembly is designed to be straightforward.

Figure 2: Product dimensions for assembly planning. Total dimensions: 202 x 75 x 98 cm (L x D x H).
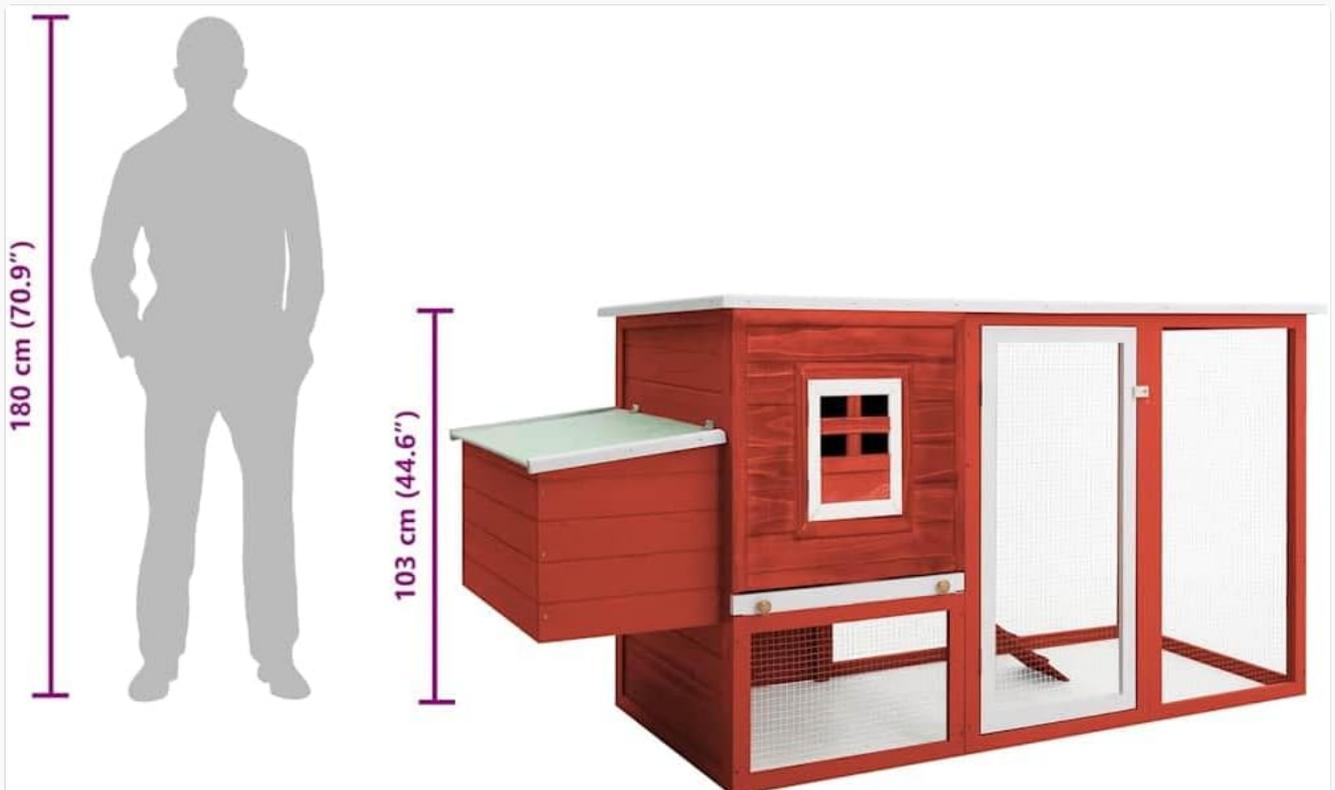

3. Placement

Select a suitable location for the chicken coop. It is highly recommended to place the coop under a shelter or in a protected area to extend its lifespan and provide additional protection from harsh weather conditions. Ensure the ground is level and well-drained.

OPERATING THE COOP

1. Chicken Access

The coop features an anti-slip ramp allowing chickens to easily move between the ground-level run and the elevated sleeping area. Ensure the ramp is securely in place.

Figure 4: Interior view with ramp for chicken access.

2. Nesting Box Use

The integrated nesting box provides a safe and private space for hens to lay eggs. It includes a divider to create separate compartments. Access the nesting box from the exterior for easy egg collection.

3. Ventilation and Security

The wire mesh ensures adequate air circulation. The small window with wooden slats also contributes to ventilation. Secure the main door using the sliding latch to protect your poultry.

MAINTENANCE

1. Cleaning

Regular cleaning is essential for the health of your chickens. The coop features a sliding tray at the bottom for easy removal of waste. Clean the tray frequently and disinfect the coop periodically using poultry-safe cleaners.

2. Weather Protection

The green waterproof roof provides protection against moisture. Regularly inspect the roof for any damage and repair as needed to maintain its waterproof integrity.

Figure 7: Detail of the waterproof roof material.

3. General Inspection

Periodically check all wooden components for signs of wear, rot, or damage. Inspect the wire mesh for any breaks or rust. Address any issues promptly to ensure the coop remains secure and functional.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Difficulty during assembly	Misaligned parts, incorrect orientation, missing hardware.	Double-check the assembly manual. Ensure parts are oriented correctly before fastening. Contact customer support for missing hardware.

Issue	Possible Cause	Solution
Water leakage inside the coop	Damaged roof, improper placement, gaps in construction.	Inspect the roof for tears or damage and repair. Ensure the coop is placed under shelter. Seal any visible gaps with appropriate weather-resistant sealant.
Wire mesh rusting	Exposure to moisture and elements over time.	Regularly clean and dry the mesh. Apply rust-inhibiting paint or replace rusted sections if necessary. Placing the coop under shelter helps.
Wood deterioration (rot, warping)	Prolonged exposure to moisture, lack of protective treatment.	Ensure the coop is placed under shelter. Apply a weather-resistant wood sealant annually. Replace severely damaged wooden parts.
