Hot Wheels GHD36

Hot Wheels Croc Rod User Guide

Model: GHD36

Introduction

The Hot Wheels 2020 Street Beasts Croc Rod is a unique die-cast vehicle, part of the 160/250 series. This model features a distinctive crocodile-themed design, combining a playful aesthetic with the classic Hot Wheels performance. It is designed for imaginative play and collecting.

Setup

The Hot Wheels Croc Rod comes ready for play directly out of its packaging. No assembly or batteries are required.

1. Carefully remove the vehicle from its blister packaging.
2. Ensure all packaging materials are discarded safely.

Image: The Hot Wheels Croc Rod, a green die-cast car with a crocodile-inspired body, is shown in its sealed blister packaging. The packaging features the Hot Wheels logo and indicates it is part of the Street Beasts series, model 160/250.

Operating

This Hot Wheels vehicle is designed for free-rolling play and compatibility with Hot Wheels track systems (sold separately).

- **Free Play:** Simply push the car along any smooth, flat surface to make it roll.
- **Track Play:** Place the Croc Rod on a Hot Wheels track to experience high-speed racing and stunts. Ensure the track pieces are securely connected for optimal performance.

The vehicle's durable construction allows for various play scenarios, encouraging creativity and motor skill development.

Maintenance

To ensure the longevity and appearance of your Hot Wheels Croc Rod, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the car with a soft, slightly damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- **Storage:** Store the vehicle in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to heat can deform plastic parts.
- **Inspection:** Periodically check the wheels and axles for any debris or hair that might impede smooth rolling. Gently remove any obstructions.

Troubleshooting

Hot Wheels vehicles are generally very robust. If you encounter any issues, consider the following:

- **Wheels Not Rolling Smoothly:** Check for any visible debris (e.g., lint, hair) caught around the axles. Carefully remove it. Ensure the wheels are not bent or damaged.
- **Paint Chipping:** Minor paint chips can occur with regular play, especially during collisions or drops. This is normal wear and tear for a die-cast toy.

If the product is significantly damaged upon receipt, please refer to the warranty information.

Specifications

Feature	Detail
Product Dimensions	1.3 x 4.3 x 6.5 inches
Item Weight	1.58 ounces
Model Number	GHD36
