Satisfyer 108318

Satisfyer Men Classic Masturbator

MODEL: 108318

Introduction

Thank you for choosing the Satisfyer Men Classic Masturbator. This device is designed to provide a unique and satisfying experience through its innovative features and high-quality materials. Please read this manual carefully before first use to ensure proper handling, maintenance, and longevity of your product.

Image: The Satisfyer Men Classic Masturbator in Silver, showcasing its sleek design.

The Satisfyer Men Classic is a manual masturbator featuring a super-soft cyberskin sleeve and an innovative internal pressure regulator. It is designed for sustained arousal and a realistic tactile experience. This product is not battery-operated and does not vibrate.

Product Components

The Satisfyer Men Classic Masturbator package typically includes:

- 1 x Satisfyer Men Classic Masturbator Unit
- 1 x Removable Cyberskin Sleeve (Classic Insert)
- 1 x Hygienic Cap

Setup

1. **Unboxing:** Carefully remove the masturbator unit and its components from the packaging.
2. **Initial Cleaning:** Before first use, thoroughly clean the removable cyberskin sleeve and the interior of the main unit with warm water and a mild toy cleaner or antibacterial soap. Rinse thoroughly and allow to air dry completely.
3. **Assembly:** Ensure the cyberskin sleeve is correctly inserted into the main unit. It should fit snugly.

Operating Instructions

The Satisfyer Men Classic is designed for intuitive manual use. Follow these steps for an optimal experience:

1. **Lubrication:** Apply a generous amount of water-based lubricant to the entrance of the sleeve and to yourself. This is crucial for comfort and to prevent damage to the cyberskin material.
2. **Insertion:** Gently insert yourself into the sleeve.
3. **Pressure Regulation:** The device features an innovative internal pressure regulator. By covering or uncovering the small opening at the base of the unit with your finger, you can adjust the air pressure inside the sleeve. Covering the opening creates a stronger vacuum and more intense suction, while uncovering it releases pressure for a softer sensation. Experiment to find your preferred level of intensity.
4. **Movement:** Use manual back-and-forth motions to stimulate. The textured interior of the cyberskin sleeve is designed to provide varied sensations along the entire shaft.

Cleaning and Maintenance

Proper cleaning and maintenance are essential for hygiene and to prolong the life of your Satisfyer Men Classic.

1. **Disassembly:** After each use, carefully remove the cyberskin sleeve from the main unit.
2. **Cleaning the Sleeve:** Wash the cyberskin sleeve thoroughly with warm water and a mild toy cleaner or antibacterial soap. Gently rub the interior and exterior surfaces. Rinse completely to remove all soap residue.
3. **Cleaning the Unit:** Wipe the exterior of the main unit with a damp cloth and mild soap. Do not submerge the main unit in water.
4. **Drying:** Allow all components to air dry completely before reassembly or storage. Avoid direct sunlight or extreme heat.
5. **Storage:** Once dry, reinsert the sleeve into the unit and cover it with the hygienic cap. Store the

masturbator in a clean, dry, and dust-free place, away from other toys made of different materials to prevent material degradation.

Troubleshooting

- **Lack of Suction:** Ensure the internal pressure regulator opening at the base is fully covered by your finger to create a vacuum. Check that the sleeve is properly seated within the unit.
- **Discomfort during Use:** Always use a generous amount of water-based lubricant. If discomfort persists, discontinue use.
- **Sleeve Damage:** The cyberskin sleeve is delicate. Avoid using oil-based lubricants, which can degrade the material. Handle with care during cleaning and insertion. If the sleeve is damaged, replacement sleeves may be available from the manufacturer.
- **Product is not vibrating/powered:** Please note that the Satisfyer Men Classic is a manual device and does not feature any electronic components, batteries, or vibration functions. Its design relies on manual movement and the adjustable air pressure system.

Specifications

Model Number	108318
Brand	Satisfyer
