WHAT'S IN THE BOX

- Phone Base
- 5 Cordless Handsets
- 5 AC Adapters

SETUP

Initial Setup and Charging

Before using your new VTech phone system, ensure all components are properly connected and the handsets are fully charged.

1. Connect the phone base to a power outlet and a telephone wall jack (if using a landline).
2. Insert the battery into each cordless handset and place them on the charging cradles.

3. Allow at least 16 hours for the handsets to fully charge before initial use.

Bluetooth Connect to Cell Setup

This system allows you to make and receive cellular calls using your cordless handsets. You can pair up to two cell phones.

1. On the phone base, press the **MENU** button.
2. Navigate to **Bluetooth** and press **SELECT**.
3. Select **Add New Phone** and follow the on-screen prompts to pair your cell phone.
4. Ensure your cell phone's Bluetooth is enabled and discoverable.

OPERATING INSTRUCTIONS

Making and Receiving Calls

- To make a call, dial the number and press **HOME/FLASH** for landline or **CELL 1**/**CELL 2** for cellular.
- To answer a call, press any dialing key or **HOME/FLASH** or **CELL 1**/**CELL 2**.
- The system features Caller ID Announce, which audibly announces the caller's name or number.

Smart Call Blocker

The Smart Call Blocker feature helps filter robocalls and unwanted calls. You can block numbers on the spot or add them to a block list.

1. During a call, press the **CALL BLOCK** button to block the current caller.
2. To manage your block list, press **CALL BLOCK** when the phone is idle, then select **Block list**.
3. You can add new entries manually or from the Caller ID log.

Digital Answering System

The integrated digital answering system records up to 22 minutes of messages, announcements, and memos. It includes a voice guide for easy setup.

- To play messages, press **PLAY/STOP** on the base unit.
- The LED message counter on the base displays the number of new messages.

MAINTENANCE

Battery Care

To maintain optimal battery performance, ensure handsets are placed on their chargers when not in use. Replace batteries when they no longer hold a charge effectively.

Cleaning

Wipe the phone and base with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

If you experience issues with your VTech IS8151-5 system, try the following common solutions:

Common Troubleshooting Steps

Problem	Solution
No dial tone	Ensure the phone line cord is securely connected to the base and the wall jack. Check if other phones on the same line are working.
Handset not charging	Verify the AC adapter is plugged in correctly. Clean the charging contacts on the handset and cradle with a dry cloth.
Cannot make/receive calls via Bluetooth	Ensure your cell phone's Bluetooth is on and it is paired with the phone system. Check the Bluetooth connection status on the phone base.
Poor range/static	Move the phone base to a central location away from other electronic devices. Ensure there are no large metal objects or thick walls between the handset and base.
