EagleStone 194 Pcs Dinosaur Race Car Tracks Set Instruction Manual

Model: 7298

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your EagleStone 194 Pcs Dinosaur Race Car Tracks Set. Please read this manual thoroughly before use to ensure proper function and safety.

The set allows children to create a dynamic dinosaur-themed race track with flexible track pieces, a bridge, dinosaur figures, and two electric cars with LED lights. It is designed to enhance practical skills, cooperation, and hand-eye coordination.

2. WHAT'S IN THE BOX

Your EagleStone Dinosaur Race Car Tracks Set includes the following components:

- 160 x Track Pieces (flexible, various colors)
- 2 x Electric Race Cars with LED Lights
- 1 x Bridge Structure (multiple parts for assembly)
- 2 x Dinosaur Figures
- 4 x Tree Decorations
- 4 x Slopes/Ramps
- 1 x Dinosaur Head Tunnel
- Other connecting rods and accessories as pictured.

3. SETUP AND ASSEMBLY

Follow these steps to assemble your Dinosaur Race Car Tracks Set:

- 1. Unpack Components:** Carefully remove all track pieces, cars, dinosaurs, bridge parts, and accessories from the packaging.
- 2. Assemble Track Pieces:** The flexible track pieces can be connected by snapping them together. Experiment with different configurations to create various track layouts. The tracks are designed to be easily twisted, turned, and adjusted.
- 3. Construct the Bridge:** Assemble the bridge structure using the provided parts. Ensure all connections are secure to provide a stable crossing for the cars.
- 4. Integrate Ramps and Dinosaur Head:** Place the ramps at desired points to create inclines and declines. Position the dinosaur head tunnel over a track section to create an exciting passage.
- 5. Place Decorations:** Arrange the tree decorations and dinosaur figures around the track to create a prehistoric environment.
- 6. Install Car Batteries:** Each electric car requires 2 AA batteries (not included). Use a small screwdriver to open the battery compartment on the underside of each car. Insert the batteries,

ensuring correct polarity, and secure the compartment cover.

Image 3.2: Various track features including gates, ramps, and bridges.

4. OPERATING INSTRUCTIONS

Once the track is assembled and batteries are installed in the cars, you are ready to play:

1. **Turn On Cars:** Locate the ON/OFF switch on the underside of each electric car and switch it to the 'ON' position. The LED lights on the cars will illuminate.
2. **Place Cars on Track:** Gently place the electric cars onto the assembled track. Ensure the wheels are properly aligned with the track grooves.
3. **Observe Movement:** The cars will automatically drive along the track, navigating turns, ramps, and the bridge. The LED lights will flash as they move.
4. **Interactive Play:** Engage with the dinosaur figures and track features as the cars race.
5. **Turn Off Cars:** When finished playing, switch the cars to the 'OFF' position to conserve battery life.

2 ELECTRIC CARS WITH LED LIGHTS

Video 4.3: This video demonstrates the EagleStone Dinosaur Race Car Tracks Set in action, showing the electric cars moving along the flexible tracks, crossing the bridge, and interacting with the dinosaur head tunnel. It highlights the dynamic play experience of the set.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Dinosaur Race Car Tracks Set, follow these maintenance guidelines:

- **Cleaning:** Wipe all track pieces, cars, and accessories with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Battery Care:** Always turn off the electric cars when not in use. Remove batteries if the toy will not be used for an extended period to prevent leakage. Replace batteries when car speed decreases or lights dim.
- **Storage:** Store the set in a cool, dry place away from direct sunlight. The flexible tracks can be rolled up or disassembled for compact storage.
- **Track Integrity:** Periodically check track connections to ensure they are secure. If any track pieces become damaged, replace them to maintain smooth operation.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cars not moving or moving slowly.	Low or dead batteries. Incorrect battery polarity. ON/OFF switch is off.	Replace batteries with fresh AA batteries, ensuring correct +/- orientation. Turn the ON/OFF switch to 'ON'.
Cars fall off the track frequently.	Loose track connections. Track is not laid flat. Obstructions on the track.	Ensure all track pieces are securely connected. Lay the track on a flat, even surface. Remove any small objects from the track path.
Bridge or other accessories are unstable.	Improper assembly of bridge supports. Loose connections.	Re-check the assembly of the bridge and other structures, ensuring all parts are firmly clicked into place.
LED lights on cars are dim or not working.	Low or dead batteries.	Replace batteries with fresh AA batteries.

7. SPECIFICATIONS

- **Product Dimensions:** 10 x 8 x 4 inches
- **Item Weight:** 2.48 pounds
- **Model Number:** 7298
- **Manufacturer Recommended Age:** 3 years and up
- **Batteries Required:** 2 AA batteries (for each car, not included)
- **Manufacturer:** EagleStone
