Rug Doctor Mighty Pro X3 Commercial Carpet Cleaner Instruction Manual

Model: Mighty Pro X3

Brand: Rug Doctor

PRODUCT OVERVIEW

The Rug Doctor Mighty Pro X3 Commercial Carpet Cleaner is designed for professional-grade deep cleaning of carpets and rugs. Its powerful one-pass cleaning system sprays, scrubs, and extracts embedded dirt, grime, stains, and odors, providing thorough results for both commercial and home use.

This machine features a triple-action vibrating brush that works to release deeply embedded dirt from all sides of carpet fibers. The enhanced vacuum motor ensures strong suction for effective dirt and water removal, contributing to faster drying times. With its large 3.9-gallon recovery tank, the Mighty Pro X3 allows for extended cleaning sessions with less frequent refilling and emptying.

SAFETY INFORMATION

Always read and understand all instructions before operating the appliance. Failure to follow instructions could result in electric shock, fire, or serious injury.

- **Electrical Safety:** Do not use with a damaged cord or plug. Ensure the appliance is properly grounded. Do not immerse the machine in water.
- **Chemical Safety:** Use only Rug Doctor approved cleaning solutions. Do not mix different cleaning solutions. Avoid contact with skin and eyes. Keep out of reach of children and pets.
- **Operation:** Always vacuum the carpet thoroughly before using the carpet cleaner to prevent clogging. Do not operate the machine over electrical outlets or cords. Ensure all tanks are securely latched before operation.
- **Storage:** Store the machine in a dry, indoor area. Empty and clean all tanks after each use.

SETUP

1. **Unpack:** Carefully remove the Rug Doctor Mighty Pro X3 from its packaging. Ensure all components are present.
2. **Handle Assembly:** The handle is designed to fold for storage. To set up for use, lift the handle to the upright position until it locks into place. Press the "HANDLE RELEASE" button to adjust the handle angle as needed.
3. **Fill Clean Water Tank:** Locate the "CLEAN WATER TANK" (upper tank). Remove it by lifting the "TANK HANDLE". Fill the tank with hot tap water (do not use boiling water) and the recommended amount of Rug Doctor cleaning solution. Replace the tank securely.

Figure 4: The large capacity tanks reduce the need for frequent emptying and refilling.

4. **Prepare Waste Water Tank:** Ensure the "WASTE WATER TANK" (lower tank) is empty and properly seated. This tank collects the dirty water extracted from the carpet.
5. **Power Connection:** Unwind the power cord and plug the machine into a grounded electrical outlet.

OPERATING INSTRUCTIONS

1. **Pre-Vacuum:** Always vacuum the area thoroughly with a dry vacuum cleaner before using the Rug Doctor Mighty Pro X3. This prevents loose dirt and debris from clogging the machine.

2. **Start Machine:** Turn on the machine using the power switch located on the handle.
3. **Cleaning Technique:** Press the "DEEP CLEAN" button on the handle to release cleaning solution. Slowly pull the machine backward over the carpet, overlapping each pass slightly. Release the "DEEP CLEAN" button when pushing the machine forward. For heavily soiled areas, repeat the process.

Figure 5: The adjustable comfort grip handle makes the Mighty Pro X3 easy to use and maneuver.

4. **Monitor Tanks:** Observe the waste water tank as it fills with dirty water. When the clean water tank is empty or the waste water tank is full, turn off the machine.
5. **Upholstery/Hand Tool (Sold Separately):** For cleaning upholstery, stairs, or hard-to-reach areas, attach the optional hand tool to the designated connection port on the back of the machine. Follow the specific instructions provided with the hand tool for its operation.

Figure 6: The Mighty Pro X3 offers versatile pro-grade cleaning for upholstery, stairs, and more with an optional tool (sold separately).

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Rug Doctor Mighty Pro X3.

- **Empty and Rinse Tanks:** After each use, empty the dirty water from the waste water tank. Rinse both the clean and waste water tanks thoroughly with clean water.
- **Clean Filter:** Inspect and clean the filter located in the waste water tank. Remove any debris or lint to maintain proper suction.
- **Wipe Down Machine:** Wipe the exterior of the machine with a damp cloth to remove any residue.
- **Store Properly:** Store the machine in an upright position in a dry, climate-controlled area. Ensure the handle is folded down for compact storage if desired.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
No Spray	Clean water tank empty; spray nozzle clogged; pump issue.	Refill clean water tank; clean spray nozzle; contact support.
No Suction	Waste water tank full; filter clogged; hose not connected properly.	Empty waste water tank; clean filter; ensure hose is secure.
Machine Not Turning On	Not plugged in; power switch off; circuit breaker tripped.	Check power connection; ensure switch is ON; reset breaker.
Water Leaking	Tanks not seated correctly; damaged seals; hose connection loose.	Reseat tanks; inspect seals for damage; tighten hose connections.
