4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your VASAGLE 5-Tier Bookshelf. It is recommended to assemble the product on a soft, clean surface to prevent scratches.

1. **Identify Parts:** Lay out all components and identify them using the labeled diagrams in the instruction manual.
2. **Assemble Frame:** Attach the steel frame components according to the numbered steps in the manual, ensuring all connections are firm.
3. **Install Shelves:** Secure the rustic brown shelves to the steel frame. Ensure they are correctly oriented and tightened.
4. **Attach Backboards:** The backboards are designed to prevent items from falling. Align the backboards with the pre-drilled holes on the back of the shelves and secure them with the provided screws. If holes are not pre-drilled on the shelves themselves, align the backboards and use the pre-drilled holes on the backboards as guides to screw them into the shelves.
5. **Install Adjustable Feet:** Screw the adjustable feet into the bottom of the frame. These feet allow for minor leveling adjustments on uneven floors.
6. **Install Anti-Tip Kit:** Attach the anti-tip kit to the top rear of the bookshelf and secure it to a wall stud or appropriate wall anchor point. This is a critical safety step.

7. TROUBLESHOOTING

If you encounter any issues with your bookshelf, refer to the following common problems and solutions:

- **Wobbling Bookshelf:**

Solution: Ensure the bookshelf is on a level surface. Adjust the leveling feet at the bottom of the frame until the unit is stable. Verify all assembly screws are securely tightened.

- **Missing or Damaged Parts:**

Solution: Before assembly, carefully check all package contents against the parts list. If any parts are

missing or damaged, do not proceed with assembly. Contact VASAGLE customer support for replacement parts.

- **Difficulty Attaching Backboards:**

Solution: The backboards are designed to be screwed directly into the shelves. If the shelves do not have pre-drilled holes for the backboards, align the backboards to the rear of the shelves and use the pre-drilled holes on the backboards as guides to screw them into the shelf material.

- **Bookshelf Tipping Hazard:**

Solution: Ensure the anti-tip kit is correctly installed and securely anchored to a wall stud or appropriate wall anchor. Always distribute weight evenly on shelves, placing heavier items on lower shelves.
