Setup

Initial Pairing

For first-time use, the QCY T6 earbuds offer a quick and convenient pairing process:

1. Ensure your device's Bluetooth is enabled.
2. Open the charging case. The earbuds will automatically enter pairing mode.
3. On your device, search for "QCY T6" in the Bluetooth settings and select it to connect.

The earbuds are designed to connect independently, providing a stable and flexible connection.

Wearing the Earbuds

The QCY T6 earbuds are designed for a secure and comfortable fit, especially during physical activity. They feature three

holding points to ensure snug wearing and prevent slipping.

Maintenance

Charging the Earbuds and Case

To charge the earbuds, place them inside the charging case. The case itself can be charged using the provided MicroUSB cable. A full charge of the case provides approximately 4 extra charges for the earbuds, extending total playtime up to 30 hours.

Cleaning and Storage

Regular cleaning helps maintain optimal performance and hygiene. Use a soft, dry cloth to wipe the earbuds and charging case. Avoid using harsh chemicals or abrasive materials. Always store the earbuds in their charging case when not in use to protect them and keep them charged.

Troubleshooting

If you encounter issues with your QCY T6 earbuds, try the following common troubleshooting steps:

- **Earbuds Not Pairing/Connecting:** Ensure both earbuds are charged. Place them back in the case, close it, then open it again to re-initiate pairing mode. Check your device's Bluetooth settings and try forgetting the device, then re-pairing.
- **One Earbud Not Working:** Verify both earbuds are charged. Sometimes, placing them back in the case in reverse order of removal (left then right) can help reset their connection. If the issue persists, a factory reset (refer to the

QCY app or online support for specific instructions) might be necessary.

- **Charging Issues:** Ensure the MicroUSB cable is securely connected to both the case and a power source. Check if the charging indicator light on the case is active. Try a different charging cable or power adapter.
- **Touch Controls Unresponsive:** Ensure your fingers are clean and dry. Sometimes, a quick reset by placing the earbuds back in the case can resolve minor touch control glitches.
- **Sound Quality Issues:** Ensure the earbuds are properly seated in your ears and you are using the correct size eartips for a good seal. Check the equalizer settings in the QCY app.

For more detailed troubleshooting or persistent issues, refer to the QCY official support resources or contact customer service.
