

Spirich SS20-SPT-BA412W

Spirich Tall Corner Cabinet Instruction Manual

Model: SS20-SPT-BA412W

INTRODUCTION

Thank you for choosing the Spirich Tall Corner Cabinet. This freestanding storage solution is designed to maximize space in various rooms such as bathrooms, kitchens, and living rooms. Constructed from durable engineered wood, it offers both open shelving for display and concealed storage behind double doors. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and optimal use of your new cabinet.

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or broken.
- Assemble the cabinet on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly, as this may damage the material.
- Always place the cabinet on a flat, stable, and level surface to prevent tipping.
- Distribute weight evenly on shelves to maintain stability. The maximum weight limit for each shelf is approximately 20 pounds.
- For added safety, especially in homes with children or pets, consider securing the cabinet to the wall using anti-tip hardware (if included or recommended by local regulations).
- Keep small parts and packaging materials away from children.

PACKAGE CONTENTS

Before assembly, verify that all components are included in your package. Refer to the detailed parts list provided in your physical assembly guide for specific identifiers.

Component	Description
Main Panels	Side panels, top panel, bottom panel, back panels.
Shelves	Fixed open shelves and adjustable interior shelf.

Component	Description
Doors	Two beadboard style doors.
Hardware	Screws, dowels, cam locks, hinges, silver knobs, magnetic catches.

Setup and Assembly

The Spirich Tall Corner Cabinet is designed for easy assembly. All necessary accessories and detailed installation instructions are included in the product packaging. Please follow the step-by-step guide provided with your cabinet for the most accurate and efficient assembly process.

General Assembly Tips:

- Identify all parts and hardware before starting.
- Use a Phillips head screwdriver (not included) for most fasteners.
- Assemble in the room where the cabinet will be placed to avoid moving a fully assembled unit.
- Ensure all connections are secure but do not overtighten.

Figure 2: The fully assembled Spirich Tall Corner Cabinet, showcasing its design and how it fits into a room corner.

OPERATING INSTRUCTIONS

The Spirich Tall Corner Cabinet is designed for versatile storage. Utilize the three fixed open shelves for displaying decorative items, books, or frequently accessed essentials. The lower cabinet, enclosed by double doors, provides discreet storage for items you wish to keep out of sight. The interior adjustable shelf allows you to customize the storage space to fit taller or shorter items as needed.

Figure 3: The lower cabinet section with doors open, revealing the adjustable interior shelf and ample space for storing various items like toilet paper or cleaning supplies.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Spirich Tall Corner Cabinet, follow these simple care instructions:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the lacquered finish.
- **Spills:** Immediately wipe up any spills to prevent water damage or staining.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Humidity:** Maintain a stable humidity level in the room to prevent warping or cracking of the engineered wood.
- **Hardware:** Periodically check and tighten all screws and fasteners to ensure the cabinet remains stable and secure.

TROUBLESHOOTING

If you encounter any issues with your cabinet, refer to the following common problems and their solutions:

Problem	Possible Cause	Solution
Cabinet wobbles or is unstable.	Uneven floor; loose fasteners; improper assembly.	Ensure the cabinet is on a level surface. Tighten all screws and bolts. Re-check assembly steps.
Doors do not close properly.	Misaligned hinges; loose hinge screws; obstruction.	Adjust hinge screws to align doors. Ensure nothing is blocking the door's path. Check magnetic catches.
Shelves are not level.	Improperly inserted shelf pins; warped shelf.	Ensure shelf pins are fully inserted into corresponding holes. If warped, contact customer support.

PRODUCT SPECIFICATIONS

Attribute	Detail
Brand	Spirich
Model Number	SS20-SPT-BA412W
Color	White
