Empava JT367

Empava 72" x 48" Whirlpool Tub User Manual

Model: JT367
Brand: Empava

1. INTRODUCTION

Welcome to your new Empava Whirlpool Tub. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new bathtub. Please read thoroughly before use to ensure proper functionality and longevity of your product.

2. IMPORTANT SAFETY INFORMATION

Your safety is paramount. Please adhere to all safety guidelines to prevent injury or damage to the product.

2.1 Electrical Requirements

- Input voltage: 110V, Current: 10A, Power: 1125 W.
- External circuitry must be equipped with a high-sensitive and fast-type leakage protection switch. (Induced current rating below 15MA, trip time should be less than 0.1 second, rated current is above 30A.)
- The product is ETL Certified, ensuring it meets safety and performance standards.

2.2 General Safety Guidelines

- Always ensure the bathtub is properly grounded before use.
- Do not operate the hydro massage jets without sufficient water level in the tub.
- Keep children away from the tub unless supervised by a responsible adult.
- Avoid using abrasive cleaners or harsh chemicals that may damage the acrylic surface.
- Do not use electrical appliances near the tub.

3. PRODUCT OVERVIEW

The Empava 72" x 48" Whirlpool Tub is designed for a luxurious bathing experience, featuring advanced hydro massage and chromatherapy.

3.1 Key Features

- **1125W Whirlpool Tub with 10 Water Jets:** Features adjustable direction and intensity, driven by a powerful 1.2HP motor.
- **Relaxing Hydro Massage:** Designed to ease tense muscles and reduce stress, creating a serene home retreat.
- **Jetted Bathtub with Chromatherapy:** Equipped with color-changing lights for an enhanced, soothing experience.
- **Two-Person Capacity:** Spacious interior for comfortable bathing.
- **Durable Construction:** Made from 100% high-quality acrylic, reinforced with fiberglass resin, and supported by a 304 stainless steel frame.
- **Pre-installed Accessories:** Faucet, knobs, showerhead, and jets are pre-drilled and pre-installed for easy setup.

3.2 Product Dimensions and Components

Below are the detailed dimensions and a visual representation of the tub's components.

4. SETUP AND INSTALLATION

Proper installation is crucial for the performance and safety of your whirlpool tub. It is recommended to have installation performed by a qualified professional.

4.1 Unboxing

Carefully remove the tub from its packaging. Inspect for any signs of damage during transit. Keep all packaging materials until installation is complete and the tub is confirmed to be in working order.

4.2 Site Preparation

- Ensure the installation area has a level and structurally sound floor capable of supporting the weight of the filled tub (110 gallons) and occupants.
- Verify that all necessary plumbing and electrical connections are available and conform to local building codes.

4.3 Plumbing and Electrical Connections

The tub comes with pre-installed accessories for simplified connection. Refer to the following specifications:

- Water inlet connection: 1/2" external thread cold/hot water hoses.
- Drainage hole diameter: 1.97 inches (50mm).
- Drain pipe length: 31 inches (800mm).
- Shower head hose length: 59 inches (1500mm).
- Power plug cord length: 70 inches (1800mm).

5. OPERATING INSTRUCTIONS

Follow these steps to enjoy the full features of your Empava Whirlpool Tub.

5.1 Filling the Tub

- Ensure the drain is closed by rotating the drain cover.
- Open the faucet to fill the tub with water. Do not exceed the overflow level.

5.2 Hydro Massage and Chromotherapy Function

Activate the hydro massage and chromotherapy for a relaxing experience.

- Press the hydro-massage on-off button. The jets will activate, and the changing color light function will turn on simultaneously.
- To adjust water intensity, rotate the hydro massage strength control knob clockwise for stronger flow, or counter-clockwise for weaker flow.
- The 6 small water jets have adjustable direction. The 4 big water jets have adjustable direction and intensity.

Video: This video demonstrates the hydro massage and chromotherapy features of the Empava 72" x 48" Whirlpool Tub, showcasing the powerful jets and color-changing lights in action.

Image: The tub's chromotherapy feature illuminating the water with a vibrant color, enhancing the bathing experience.

5.3 Handheld Shower

The tub includes a pull-out handheld shower for convenient rinsing.

6. MAINTENANCE AND CARE

Regular maintenance ensures the longevity and optimal performance of your whirlpool tub.

6.1 Cleaning the Tub

- Clean the acrylic surface regularly with a soft cloth and a non-abrasive, non-corrosive cleaner.

- Rinse the tub thoroughly with clean water after each cleaning.

6.2 Jet Maintenance

- Periodically run the jets with a specialized tub cleaner solution to prevent mineral buildup and ensure hygienic operation.

6.3 Drainage

- To drain the tub, simply rotate the drain cover to the open position.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your whirlpool tub.

7.1 Common Issues and Solutions

- **No Power:** Check the electrical connections and the circuit breaker. Ensure the power plug is securely connected to a properly rated outlet.
- **Jets Not Working:** Verify that the water level in the tub is above the jets. Ensure the power is on and the hydro massage button is pressed.
- **Leaks:** Inspect all plumbing connections for tightness. If leaks persist after tightening, contact customer support.

7.2 Frequently Asked Questions (FAQ)

Q1: What are the electrical requirements?

A1: Input voltage: 110V, Current: 10A, Power: 1125 Watts. External circuitry needs to be equipped with a high-sensitive and fast-type leakage protection switch. (Induced current rating below 15MA, trip time should be less than 0.1 second, rated current is above 30A.)

Q2: What size is the water inlet connection? What is the length of the shower hose?

A2: Please reserve the connectors of 1/2" external thread cold/hot water hoses, which outstand the wall 1.18" (30mm). Please reserve the drainage holes: Ø 1.97 inch (50mm). Shower head hose length: 59" (1500mm). Drain pipe length: 31" (800mm). Power plug cord length: 70" (1800mm).

Q3: What are the dimensions and the soaking depth?

A3: Exterior dimensions: 72" L x 48" W x 24" H. Interior Size: 44" L x 32" W x 19" H. Depth to overflow drain: 15.9".

Q4: Is the faucet included?

A4: Yes. The tub includes faucets, drainer, handheld shower, headrest, and overflow.

Q5: Does this tub have an inline heater?

A5: This version does not come with an inline heater. However, Empava offers two heater-equipped options: the 59JT319LED or the 87JT351LED.

8. SPECIFICATIONS

Attribute	Value
Model Number	JT367
Color	White
Material	Acrylic
Product Dimensions (L x W x H)	72" x 48" x 24"
Item Weight	180 Pounds

Capacity	110 Gallons
Voltage	110 Volts
Power	1125 Watts
Installation Type	Back to Wall
Certifications	ETL Certified, UL Certified Motor
UPC	850014138738
