1. INTRODUCTION

The Goovis D3 is a portable media player designed to deliver an immersive viewing experience. This device supports 2D, 3D, 2K, and 4K Blu-ray content, providing high-quality video playback. It can be connected to Goovis headsets, HD TVs, computers, and projectors, offering versatility for various entertainment setups.

2. SAFETY INFORMATION

- Do not expose the device to extreme temperatures, humidity, or direct sunlight.
- Avoid dropping or subjecting the device to strong impacts.
- Use only the specified power adapter (5V/2A) to charge the device.
- Do not attempt to disassemble or repair the device yourself. Contact qualified service personnel.
- Keep the device away from water and other liquids.

3. PRODUCT COMPONENTS

The Goovis D3 Portable Media Player package typically includes the D3 player unit and a remote control.

Various 3D formats supported

Side by Side 3D

Top and Bottom 3D

Frame packing 3D

4K + HDR Excellent Visual and Image Quality

4K Ultra High Definition (HD) brings you clear and natural visual experiences.
High Dynamic Range (HDR) image processing gives you excellent image quality,
with brighter, more realistic colors and greater detail.

devices such as a keyboard, mouse, audio output, and headphones.

4. SETUP

4.1. Charging the Device

Before initial use, fully charge the Goovis D3. Connect the provided power adapter to the device's charging port and plug it into a power outlet. The device uses a 5V/2A power supply.

4.2. Initial Power On

Press and hold the power button on the device or remote control until the Goovis logo appears on the connected display.

4.3. Connecting to Display Devices

- **Goovis Headsets:** Connect directly to compatible Goovis headsets for a personal viewing experience.
- **HD TVs/Projectors:** Use an HDMI cable to connect the D3 to an HD TV or projector. Select the appropriate HDMI input on your display device.
- **Computers:** The D3 can be connected to a computer for file transfer or as an external drive.

4.4. Connecting Peripherals

The Goovis D3 supports various external devices via Bluetooth 4.1 dual mode and 2.4G/5G dual mode Wi-Fi.

- **Bluetooth Devices:** To pair a Bluetooth keyboard, mouse, or gamepad, navigate to the Bluetooth settings in the device's operating system (Android 7.0 GOS 3.0) and follow the pairing instructions for your peripheral.
- **USB Storage:** Connect mobile storage devices (e.g., USB flash drives) to the appropriate USB port for media playback.

5. OPERATING INSTRUCTIONS

5.1. User Interface Navigation

The Goovis D3 runs on Android 7.0 with GOS 3.0. Use the remote control to navigate through menus, select applications, and control playback. The remote has a maximum range of 10 meters.

5.2. Media Playback

The D3 supports a wide range of video and audio formats, including Blu-ray 3D, 4K, and HDR content.

- **Supported Video Formats:** ISO, MKV, AVI, MP4, WMV, RMVB, MOV, TS.
- **Supported Audio Formats:** FLAC, APE, AAC, MP3, WAV, AC3.

Image: A side-by-side comparison showing the superior visual quality of 3D Blu-ray video (1920x1080*2) on the Goovis D3 compared to other 3D video (1920x1080), highlighting enhanced detail and clarity.

Image: A graphic highlighting the key features of the Goovis D3, including Master Level Decoding, 4K HDR Image Processing, Various Applications, High-speed Wireless Networking, and Long-life Battery. It also emphasizes a "New 3D Blu-ray Experience" with powerful video decoding capacity for point-to-point display.

5.3. Accessing Online Content

With built-in Wi-Fi, the D3 allows access to various online streaming services such as Netflix, Amazon Prime, Disney+, and Apple TV+. Ensure the device is connected to a stable internet connection.

6. MAINTENANCE

6.1. Cleaning

Wipe the device with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the surface.

6.2. Storage

When not in use for extended periods, store the Goovis D3 in a cool, dry place, away from direct sunlight and extreme temperatures. Ensure the battery is partially charged before storage to maintain battery health.

7. TROUBLESHOOTING

- **Device does not power on:** Ensure the device is fully charged. Connect the power adapter and try again.
- **No video output:** Check HDMI cable connections. Ensure the display device is set to the correct input source.
- **No audio:** Verify audio settings on the D3 and the connected display/audio system. Check cable connections.
- **Remote control not responding:** Check the remote control's battery. Ensure there are no obstructions between the remote and the D3.
- **Connectivity issues (Wi-Fi/Bluetooth):** Restart the D3 and the router/Bluetooth device. Ensure the D3 is within range of the network/device.
