6. TROUBLESHOOTING

This section addresses common issues you might encounter with your patio furniture set.

Common Issues and Solutions:

- **Difficulty during Assembly:** If parts do not align or hardware seems difficult to install, ensure you have identified each piece correctly and are following the instructions precisely. Do not overtighten screws until all components are in place to allow for minor adjustments.
- **Cushions Sliding or Blowing Away:** The cushions are designed with anti-slip granules on the bottom. If sliding persists, consider placing additional non-slip mats underneath the cushions or using furniture clips to secure the individual seating units together, which can help stabilize the cushions.
- **Stains on Cushions:** For spills or stains, promptly follow the cleaning instructions for cushion covers (Section 5). Avoid using abrasive cleaners or brushes that could damage the fabric.
- **Wobbly Furniture:** Ensure all screws and bolts are fully and evenly tightened. Check that the furniture is placed on a flat, stable surface.
