

PRITECH PR-2888

PRITECH PR-2888 Electric Trimmer User Manual

Comprehensive guide for your PRITECH rechargeable electric trimmer, designed for versatile grooming needs.

1. SAFETY INFORMATION

Warning: This product contains sharp blades that can cause skin irritation or injury. Keep away from eyes to avoid eye injury. Handle with care to prevent electrical shock. Do not use on infants. Rinse blades under running water after use, but keep away from other water sources. Store in a cool, dry place. Follow recommended cleaning and maintenance procedures.

2. PRODUCT OVERVIEW

2.1. What's Included

Your PRITECH PR-2888 Electric Trimmer package includes:

- PRITECH Electric Trimmer (Main Device)
- Styling Comb
- Cleaning Brush
- Instruction Manual
- USB-connected Charger
- Four ABS plastic protective attachments (3mm, 6mm, 9mm, 12mm)
- Standing Charging Dock

Figure 2.1: PRITECH PR-2888 Electric Trimmer and included accessories.

2.2. Product Features

- **Safe and Convenient Standing Charging Base:** Keeps the trimmer upright and tidy, ensuring blades stay dry and clean.
- **Precise Blades:** Stainless steel blades prevent fraying, with chamfered edges to prevent skin scratches.
- **Long Battery Life:** Rechargeable 1200mAh lithium-ion battery provides up to 150 minutes of operation time from a 2-hour charge.
- **Waterproof Design:** IPX6 waterproof rating allows for both dry and wet shaving.

3. SETUP

3.1. Charging Your Trimmer

1. Remove the hair trimmer from its packaging.
2. Place the trimmer on the standing charging base.
3. Connect the USB cable to the charging base and a suitable USB power source (e.g., wall adapter, computer, power bank).
4. Charge the trimmer for approximately 2 hours before the first use to ensure a full charge. The indicator light will show charging status.

5. MAINTENANCE

5.1. Cleaning the Trimmer

Regular cleaning ensures the longevity and performance of your trimmer. The PR-2888 features an IPX6 waterproof rating, allowing for easy cleaning.

1. After each use, turn off the trimmer and disconnect it from the charging base.
2. Remove any attached guide combs.
3. Gently tap or shake out any accumulated hair from the blade and comb.
4. Rinse the blades under running lukewarm water. Do not use compressed air, scouring pads, abrasive cleaning agents, or aggressive liquids like petrol or acetone.

- 5. Use the provided cleaning brush to remove stubborn hair particles.
- 6. Ensure the trimmer head and any attachments are completely dry before storing or reattaching.
- 7. Periodically check and replace the blades for optimal performance.

SAFE USB STANDING RECHARGE BASE
Keep the trimmer powered at all times.

6. TROUBLESHOOTING

6.1. Common Issues and Solutions

Issue	Possible Cause	Solution
Trimmer not turning on or low power	Low battery; improper charging connection	Ensure trimmer is fully charged (2 hours). Check USB cable and power source connection.

Issue	Possible Cause	Solution
Poor cutting performance or pulling hair	Blades are dull or clogged with hair; incorrect technique	Clean blades thoroughly. Ensure blades are lubricated. Trim against the direction of hair growth. Consider replacing blades if dull.
Trimmer gets hot during use	Extended continuous use; insufficient lubrication	Allow trimmer to cool down. Apply lubricating oil to blades. Avoid prolonged continuous operation.
Charging indicator light not working	Faulty cable/adapter; issue with charging dock or trimmer	Try a different USB cable and power adapter. Ensure trimmer is correctly seated on the charging dock. If issue persists, contact customer support.

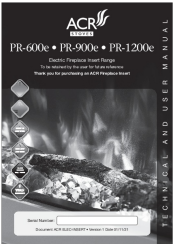

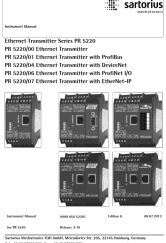

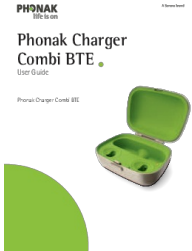

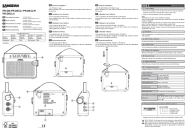

7. SPECIFICATIONS
