Zinus EU-PWPBBHE-12G

Zinus Vivek Deluxe Wood Platform Bed with Headboard - 160x200 cm - Instruction Manual

Model: EU-PWPBBHE-12G

1. Important Safety Information

Please read all instructions carefully before assembly and use. Keep this manual for future reference. Ensure all components are securely fastened before use. Do not exceed the maximum weight capacity.

- Always assemble with at least two adults.
- Place the bed on a level surface during assembly.
- Keep small parts away from children.
- Regularly check all bolts and screws to ensure they remain tight.

2. Package Contents

Verify that all parts are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Allen Wrench
- Ratchet Tool (for easier tightening)

Step-by-Step Guide:

1. **Unpack and Identify:** Carefully remove all components from the packaging. Lay them out and compare with the 'Package Contents' list to ensure everything is present.
2. **Attach Side Rails to Headboard:** Connect the left and right side rails to the headboard using the provided bolts and washers. Do not fully tighten yet.
3. **Attach Footboard:** Connect the footboard to the other ends of the side rails. Ensure all connections are aligned. Now, tighten all bolts securely using the Allen wrench or ratchet tool.
4. **Install Center Support Beam:** Attach the center support beam to the designated brackets on the headboard and footboard. Secure with bolts.
5. **Attach Support Legs:** Screw the adjustable support legs into the center support beam and any other designated points on the frame. Adjust them so they firmly touch the floor.
6. **Place Wood Slats:** Lay the wood slats across the bed frame, ensuring they are evenly spaced. The Zinus slats often come with a non-slip tape to keep your mattress in place. Peel off the protective film from the tape on the slats.

4. Usage Guidelines

Once assembled, the Zinus Vivek bed frame provides a sturdy foundation for your mattress.

- **Mattress Placement:** Place your mattress directly onto the wooden slats. A box spring is not required with this platform bed design.
- **Weight Capacity:** This 160x200 cm bed frame can support a maximum weight of 318 kg (700 lbs), including the mattress.
- **Anti-Slip Tape:** The slats are equipped with anti-slip tape to prevent your mattress from shifting. Ensure the protective film is removed for optimal grip.

5. Care and Maintenance

Proper care will extend the life and appearance of your Zinus Vivek bed frame.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Dusting:** Regularly dust the frame with a dry, soft cloth.
- **Tighten Fasteners:** Periodically check and retighten all bolts and screws to maintain stability and prevent squeaking.

- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the wood finish to fade or crack.

6. Troubleshooting

Here are solutions to common issues you might encounter:

- **Squeaking Noises:** Squeaking is often caused by loose connections. Re-tighten all bolts and screws on the frame, especially where the side rails connect to the headboard and footboard, and where the center support beam is attached. Ensure all support legs are firmly touching the floor.
- **Mattress Shifting:** Ensure the anti-slip tape on the wooden slats has its protective film removed. If the mattress still shifts, you may consider placing a non-slip mat between the mattress and the slats.
- **Uneven Frame:** Check that the bed is on a level floor. Adjust the height of any adjustable support legs to ensure even contact with the floor.
