DAISO Triceratops Block

INSTRUCTION MANUAL

Important Safety Warnings

WARNING: CHOKING HAZARD - Small Parts. This product contains small parts and is not suitable for children under 3 years old due to a risk of choking or suffocation. Please ensure this product is kept out of reach of infants and young children.

This product is recommended for ages 12 and up. When using this product, parental or guardian supervision is advised, especially for younger users within the recommended age range.

Do not use this product for purposes other than its intended design. Store the product in a safe place, away from direct sunlight and extreme temperatures.

This image shows the retail packaging for the DAISO Triceratops Block. The packaging includes important safety warnings regarding small parts and choking hazards, indicating it is not suitable for children under 3 years old, and is recommended for ages 12 and up. Material information states the blocks are made of ABS resin. Manufacturer details for DAISO INDUSTRIES CO., LTD. are also visible.

Assembly Instructions

The DAISO Triceratops Block set (Model: 4549131712117) consists of mini-blocks designed for assembly. Follow the included diagrams and instructions carefully for proper construction.

- 1. Unpack Components:** Carefully open the packaging and remove all block pieces. Verify that all components are present according to the parts list, if provided.
- 2. Review Diagrams:** Examine the assembly diagrams thoroughly before beginning. Identify the different block shapes and their corresponding positions.
- 3. Follow Step-by-Step:** Assemble the blocks by following the numbered steps in the instruction sheet. Ensure each block is securely connected to the previous one.
- 4. Check Connections:** After each major step, gently check the connections to ensure stability. If a connection feels loose, re-examine the diagram and re-attach the pieces.
- 5. Final Inspection:** Once assembly is complete, inspect the entire model to confirm all parts are correctly placed and the structure is stable.

Note: Some assembly steps may require careful attention to detail. If you encounter difficulty, re-read the instructions and review the diagrams.

Usage Guidelines

Once assembled, the DAISO Triceratops Block model is intended for display or gentle play. Handle the model with care to prevent accidental disassembly or damage to the block connections.

- **Display:** Place the assembled model on a stable, flat surface away from edges where it might fall.
- **Play:** Engage in imaginative play, but avoid excessive force, dropping, or throwing the model, as this can cause pieces to detach or break.
- **Disassembly:** If you wish to disassemble the model, carefully separate the blocks to avoid stressing the connection points.

Care and Maintenance

Proper care will help maintain the condition and longevity of your DAISO Triceratops Block set.

- **Cleaning:** To clean the blocks, gently wipe them with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed immediately by drying. Do not use harsh chemicals, abrasive cleaners, or immerse the blocks in water.
- **Storage:** Store the blocks in a cool, dry place, away from direct sunlight and high humidity. If disassembled, keep all pieces together in a container to prevent loss.
- **Avoid Extreme Temperatures:** Exposure to extreme heat or cold can affect the plastic material, potentially causing warping or brittleness.

Troubleshooting

If you encounter issues during assembly or use, consider the following:

- **Difficulty Assembling:** If a piece does not fit, double-check the instruction diagram to ensure you are using the correct piece and orientation for that step. Sometimes, a slight adjustment in angle is needed.
- **Missing Pieces:** Carefully check the packaging and surrounding area for any small pieces that may have been overlooked. If a piece is genuinely missing, contact the retailer or manufacturer for assistance.
- **Loose Connections:** Ensure blocks are pressed firmly together until they click or feel secure. If a connection remains loose, verify that the connecting studs and holes are clean and undamaged.

Product Specifications

Feature	Detail
Product Name	DAISO Triceratops Block
Brand	Daiso
Model Number	4549131712117
ASIN	B0875QVXF4
Materials	ABS resin

Recommended Age	12 years and up (Not for children under 3 years)
Package Dimensions	6.61 x 3.39 x 0.87 inches
Item Weight	0.704 ounces
Manufacturer	DAISO
