

iOttie Dash & Windshield

iOttie Easy One Touch Signature Dashboard & Windshield Universal Car Mount Phone Holder

Model: Dash & Windshield | Brand: iOttie

INTRODUCTION

The Easy One Touch 5 Dash and Windshield Mount is the next generation top car mount in the U.S. Featuring the Patented Easy One Touch Mechanism, you can lock and release smartphones quickly with a one handed motion. Recognized for superior quality and sleek design, the new Easy One Touch 5 series features a new finish that complements modern automotive interiors. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance and longevity of your iOttie car mount.

KEY FEATURES

- **EASY ONE TOUCH MECHANISM:** Press the locking side arms with a quick one-handed motion, and place your phone against the trigger button. The mount's arms will close automatically, holding your device securely while you drive. Mount or remove your phone in seconds with the patented Easy One Touch Mechanism.
- **WIDE COMPATIBILITY:** New larger Easy One Touch button, with a universal cradle that fits smartphones and cases of any size.
- **MAGNETIC CORD ORGANIZER:** Keep charging cables neatly organized with the magnetic tab located near the bottom foot.
- **TELESCOPIC ARM:** The improved telescopic arm now extends from 5 inches to 8 inches (as opposed to the Easy One Touch 4 which only extended to 6.5inch) and pivots 260 degrees. This enables a myriad of customized viewing angles while you're on the road.
- **ADJUSTABLE BOTTOM FOOT:** You can easily and securely adjust the bottom foot by squeezing the spring button.

SETUP AND INSTALLATION

Mounting Options

The iOttie Easy One Touch mount offers versatile mounting options for both your dashboard and windshield. Choose the best location for optimal visibility and accessibility.

Windshield Mounting

For vehicles with curved or textured dashboards, mounting on the windshield is recommended to ensure a secure suction. Clean the windshield surface thoroughly before application.

Image: The iOttie mount securely attached to a vehicle's windshield, providing a clear view for the driver.

Dashboard Mounting

For flat, smooth dashboards, the mount can be directly applied. Ensure the surface is clean and free of debris for maximum adhesion.

Suction Cup Preparation

The enhanced suction cup features a sticky gel formula for a stronger hold. For optimal performance, ensure the suction cup is clean. If it loses stickiness, rinse it with warm water and air dry.

Enhanced Suction Cup

Redesigned suction cup with improved sticky gel formula provides a stronger hold.

OPERATING INSTRUCTIONS

Easy One Touch Mechanism

To secure your phone, simply press the locking side arms and place your device against the trigger button. The arms will automatically close, holding your phone firmly. To release, squeeze the side arms again.

Easy One Touch Mechanism

U.S. patented technology provides one-handed lock and release mounting for easy insertion and retrieval of device.

Image: A diagram illustrating the Easy One Touch Mechanism, showing how to engage and release the phone with a single motion.

Telescopic Arm Adjustment

The telescopic arm extends from 5 to 8 inches, allowing you to position your phone at the ideal distance. Loosen the telescopic knob, extend or retract the arm, and then tighten the knob to secure.

Improved Telescopic Arm

Telescopic arm extends from 4.5" to 6.75" for custom viewing angles.

Image: Diagram showing the improved telescopic arm and its extension range for customized viewing angles.

Viewing Angle Adjustment

The mount pivots 260 degrees, providing a wide range of viewing angles. Adjust the pivot knob to set your preferred angle for navigation or hands-free calls.

Magnetic Cord Organizer

Keep your charging cables tidy and out of the way using the integrated magnetic tab located near the bottom

foot of the mount.

MAINTENANCE

Cleaning the Suction Cup

If the suction cup becomes dirty or loses its stickiness, simply rinse it with warm water and allow it to air dry completely. Do not use harsh chemicals or abrasive materials, as this may damage the gel.

TROUBLESHOOTING

Problem	Solution
Mount not sticking to dashboard/windshield.	Ensure surface is clean and dry. Rinse suction cup with warm water and air dry if it has lost stickiness. For textured dashboards, consider windshield mounting.
Phone not securely held in cradle.	Ensure the phone is placed firmly against the trigger button to activate the Easy One Touch mechanism. Adjust the bottom foot to properly support the phone.
Telescopic arm is loose.	Tighten the telescopic knob to secure the arm in place.
Mount falls off in extreme temperatures.	High temperatures can affect suction. Re-apply the mount to a clean surface. Consider mounting on the windshield if dashboard temperatures are too high.

SPECIFICATIONS

Feature	Detail
Product Dimensions	6.5 x 4.2 x 4 inches
Item Weight	7.2 ounces
Item Model Number	Dash & Windshield
Color	Black
Manufacturer	iOttie
Compatible Devices	Smartphones (iPhone, Samsung, LG, Google, OnePlus, etc.)
Mounting Type	Dashboard, Windshield
Special Features	Adjustable, Telescopic Arm, Magnetic Cord Organizer
