Free Boy B0876MPZQZ

Free Boy Odor Proof Stash Bag with Combination Lock

MODEL: B0876MPZQZ

Introduction

This manual provides essential instructions for the proper use and maintenance of your Free Boy Odor Proof Stash Bag. Designed for secure and discreet storage, this bag features advanced smell-proof technology, a durable construction, and an integrated combination lock to protect your contents.

Please read this manual thoroughly before using your product to ensure optimal performance and longevity.

Setup: Setting the Combination Lock

Your Free Boy Odor Proof Stash Bag comes with a pre-set combination of 0-0-0. Follow these steps to set your personalized combination:

1. **Open the Lock:** Ensure the lock is set to the default combination (0-0-0) and slide the release button to open it.
2. **Locate Reset Button:** On the side or bottom of the lock mechanism, locate a small reset button.
3. **Press Reset Button:** Using a pen or a similar pointed object, press and hold the reset button until you hear a click.
4. **Set New Combination:** While holding the reset button, turn the three combination dials to your desired personal code.
5. **Release Reset Button:** Release the reset button. You should hear another click, and the button will pop back into its original position. Your new combination is now set.
6. **Test the Lock:** Scramble the dials and then enter your new combination. Slide the release button to confirm it opens correctly.

Important: Remember your new combination. If you need to reset it again, repeat these steps.

Operating Your Stash Bag

Smell Proof Functionality

The Free Boy Stash Bag utilizes advanced activated carbon and filtering non-woven fabric lining to effectively trap and contain odors. To ensure maximum odor protection:

- Ensure all contents are placed securely inside the main compartment.
- Close the zipper completely. The air-tight sealed zipper is crucial for preventing odor escape.
- For added security and odor containment, engage the combination lock by inserting both zipper pulls into the lock mechanism and scrambling the dials.

Internal Organization

The bag features two internal mesh pockets, ideal for organizing smaller items such as accessories, lighters, or other personal effects. An internal extra-grip velcro strap helps secure contents within the main compartment.

Portability

The bag is designed for easy portability with a convenient hand strap. Its compact size (11.8"x8.6") allows it to fit easily into larger bags or backpacks, making it suitable for travel.

Maintenance and Care

- **Cleaning:** For minor spills or dirt, wipe the exterior with a damp cloth. Do not machine wash or submerge the bag in water, as this may compromise the activated carbon lining and smell-proof properties.
- **Drying:** If the bag gets wet, allow it to air dry completely before storing or using.
- **Zipper Care:** Keep the zippers clean and free of debris to ensure smooth operation and maintain the air-tight seal.
- **Storage:** Store the bag in a cool, dry place when not in use.

Troubleshooting

Combination Lock Issues

- **Lock Not Opening:** Ensure the dials are precisely aligned with your set combination. If you forgot your combination, you will need to follow the "Setting the Combination Lock" instructions to reset it.
- **Difficulty Setting New Combination:** Make sure the reset button is fully depressed and held while setting the new code. Release it only after the new code is set.

Zipper Functionality

- **Zippers Stuck or Difficult to Move:** Check for any fabric, threads, or debris caught in the zipper teeth. Gently clear any obstructions. Avoid forcing the zipper, as this can cause damage.
- **Zippers Not Engaging Lock:** Ensure both zipper pulls are fully aligned and inserted into their respective slots on the combination lock before attempting to secure it.

Odor Leakage

- **Faint Odor Detected:** Verify that the bag is completely zipped and the combination lock is engaged. The activated carbon lining works best when the bag is fully sealed. Avoid overfilling the bag, which can strain the zipper seal.
- **Persistent Odor:** If an odor persists, ensure the items inside are properly sealed in their own containers before placing them in the bag. The bag's lining is designed to contain odors, but extremely strong or uncontained scents may require additional measures.

Specifications

Model Number	B0876MPZQZ
Dimensions	11.8" x 8.6" (approximately)
Material	Durable fabric with activated carbon and filtering non-woven fabric lining
Lock Type	3-digit Combination Lock
Features	Smell-proof, water-repellent fabric, internal mesh pockets, hand strap
Manufacturer	Free Boy
