5. CARE AND MAINTENANCE

To maintain the quality and longevity of your Zinus mattress, consider the following general care tips:

- **Rotate Regularly:** Rotate your mattress every 3-6 months to ensure even wear and extend its lifespan.
- **Use a Mattress Protector:** A good quality mattress protector can shield your mattress from spills, stains, and allergens.
- **Clean Spills Immediately:** Blot spills with a clean, dry cloth. For tougher stains, use a mild soap and water solution, applying sparingly and blotting dry. Avoid saturating the mattress.
- **Avoid Jumping:** Refrain from jumping on the mattress, as this can damage the internal components and void the warranty.
- **Ensure Proper Support:** Always use your mattress on a sturdy, supportive bed frame or foundation to prevent sagging and maintain its structural integrity.
