2. SETUP: BATTERY INSTALLATION

The remote control requires two AAA batteries (not included) for operation. No programming or pairing is necessary; simply insert the batteries correctly, and the remote will be ready to use.

1. Locate the battery compartment cover on the back of the remote control.

2. Slide the battery compartment cover downwards or press the release tab (if present) and lift to open.

3. Insert two new AAA batteries, ensuring the positive (+) and negative (-) terminals align with the markings inside the compartment.

4. Replace the battery compartment cover by sliding it back into place until it clicks securely.

5. TROUBLESHOOTING

Problem	Solution
Remote is not responding.	- Ensure batteries are inserted correctly with the correct polarity (+/-). - Replace old batteries with new ones. - Check for any obstructions between the remote and the TV's infrared sensor. - Point the remote directly at the TV's sensor.
Some buttons are not working.	- Clean the remote's surface and buttons to remove any dirt or debris. - If only specific buttons are unresponsive, it might indicate a hardware issue.
Remote works intermittently.	- Batteries may be low; replace them. - Ensure there is no strong light source (like direct sunlight or bright fluorescent lights) interfering with the IR signal.
