BIDIUTOY Titanic Model Set

BIDIUTOY Titanic Ship Model Building Block Set

Model: Titanic Model Set | Brand: BIDIUTOY

INTRODUCTION

Welcome to the assembly guide for your BIDIUTOY Titanic Ship Model Building Block Set. This set, comprising 1860 micro mini blocks, offers a unique and engaging challenge for builders aged 14 and up. Designed to replicate the iconic Titanic, this model provides an educational and rewarding experience, culminating in a detailed display piece.

Due to the small size of the blocks, patience and precision are key to a successful build. Please read through all instructions carefully before beginning assembly.

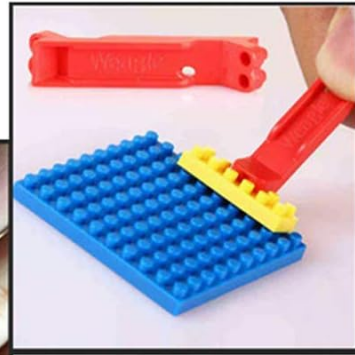

WHAT'S IN THE BOX

Upon opening your package, please verify that all components are present:

- 1860 Micro Mini Building Blocks (various shapes and colors)
- Detailed Step-by-Step Color Instruction Manual
- Brick Separator Tool (may be included to assist with small pieces)
- Spare Blocks (included to account for any potential missing pieces)

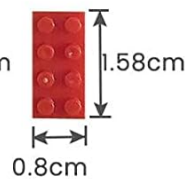

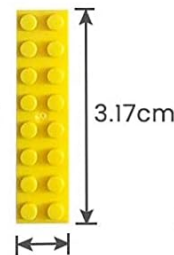

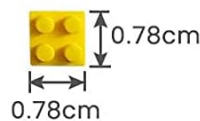

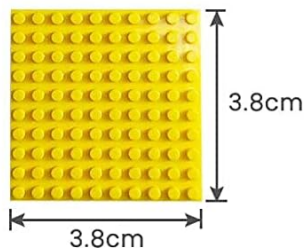

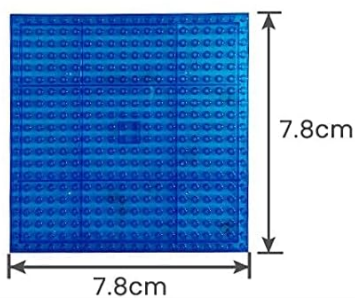

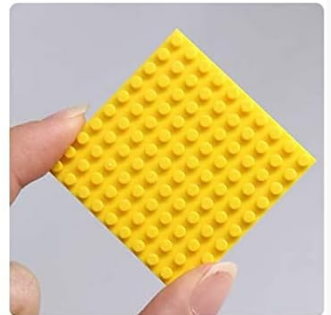

1860Pcs

Micro Diamond Block

This image illustrates the small size of the individual micro blocks (1860 pieces) and includes a brick separator tool, which can assist in handling and assembling the tiny components.

How Big Are You? The Smaller Block!

A visual guide demonstrating the extremely small scale of the micro building blocks, with dimensions provided for different block types to emphasize the precision required for assembly.

SAFETY INFORMATION

While this product is designed for enjoyment, please observe the following safety guidelines:

- **Choking Hazard:** This set contains very small parts (bricks as small as 4mm x 5mm). It is not suitable for children under 3 years of age.
- **Recommended Age:** Manufacturer recommended age is 14 years and up due to the complexity and small size of the pieces.
- Keep all blocks and packaging materials away from infants and young children to prevent accidental ingestion.
- Assemble in a well-lit area with a clean, flat surface to prevent loss of small pieces.

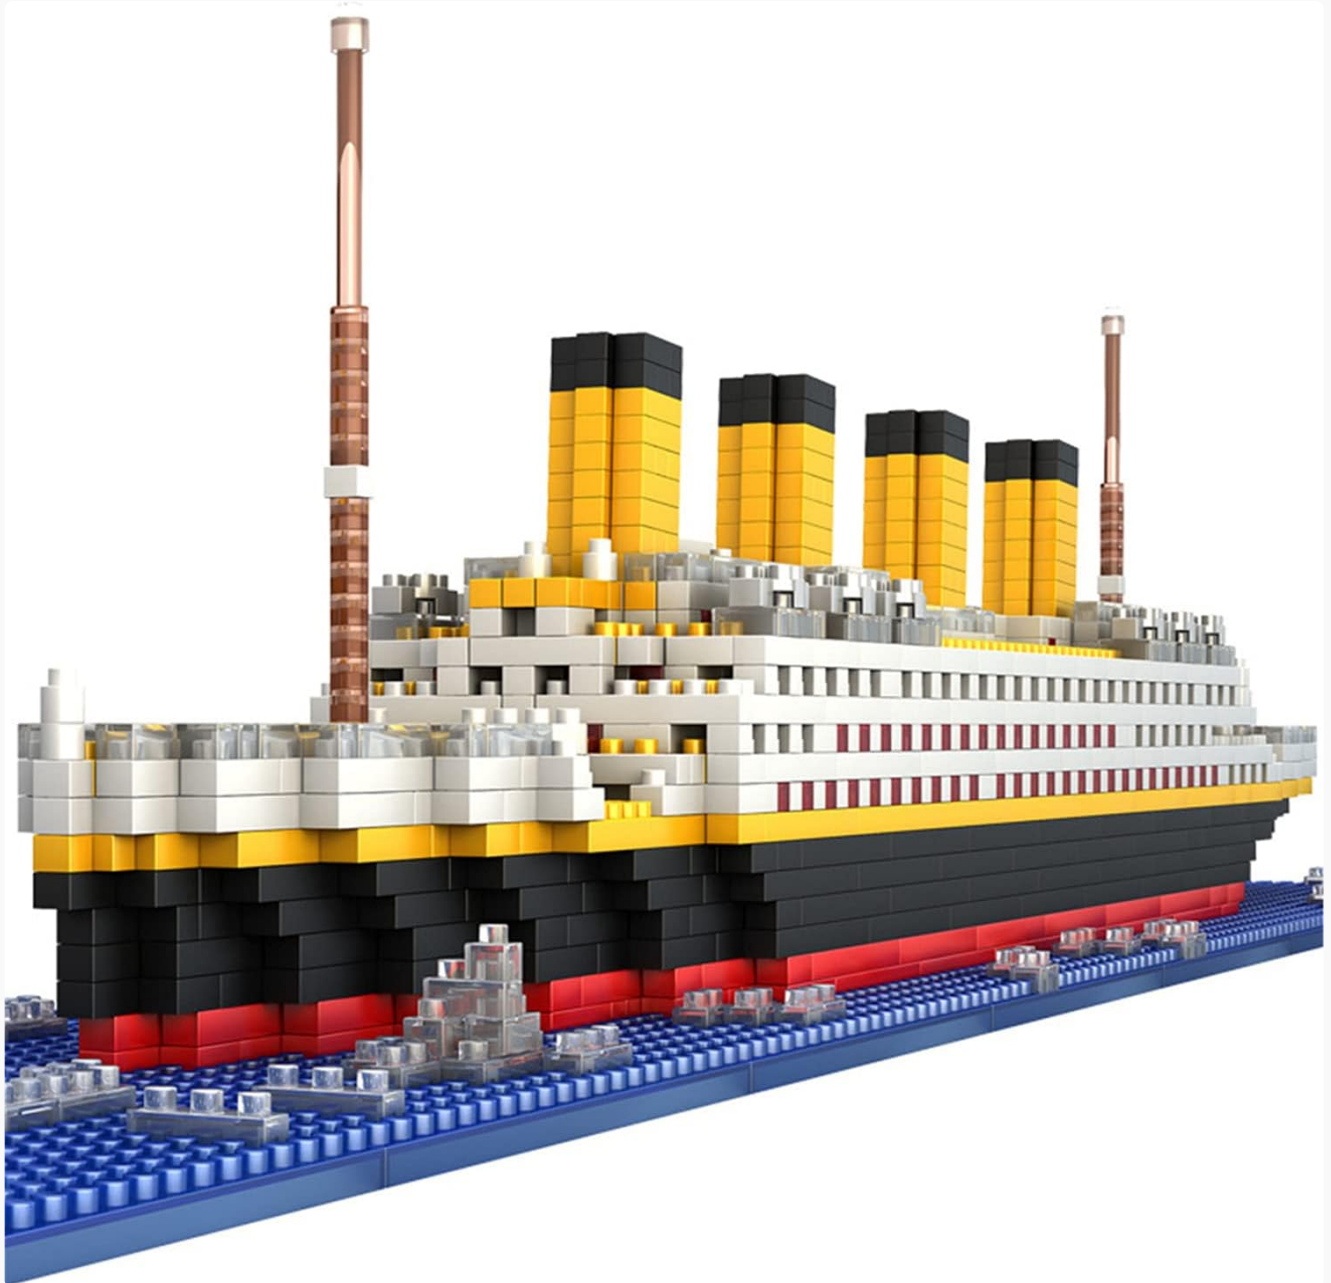

ASSEMBLY INSTRUCTIONS

The assembly process for the BIDIUTOY Titanic Model is designed to be a challenging yet rewarding experience. Follow the included step-by-step color instructions carefully.

1. **Preparation:** Unpack all bags of blocks. It is recommended to sort blocks by color and size to facilitate easier

assembly, especially given the micro scale.

2. **Follow the Manual:** The instruction manual provides detailed visual steps. Pay close attention to the orientation and placement of each micro block.
3. **Patience is Key:** Due to the small size of the bricks, assembly may require more time and precision than standard building block sets. Take breaks if needed to maintain focus.
4. **Utilize the Tool:** If a brick separator tool is included, use it to help connect or disconnect tightly fitted blocks, preventing strain on your fingers.
5. **Section by Section:** The model is typically built in sections. Complete each section fully before moving to the next to ensure structural integrity.

The completed Titanic ship model, showcasing its intricate details and the overall design achieved with micro building blocks.

This image demonstrates the approximate size of the finished Titanic model, measuring 22 inches in length and 4.5 inches in height, alongside a child for scale.

A young boy holding the fully assembled Titanic model, demonstrating the rewarding outcome of the building process.

DISPLAY AND CARE

Once assembled, your BIDIUTOY Titanic model is a magnificent display piece. To ensure its longevity and appearance:

- **Display:** Place the model on a stable, flat surface away from direct sunlight or extreme temperatures, which could affect the plastic over time. The included display base (blue base with iceberg elements) provides a secure foundation.
- **Cleaning:** To remove dust, gently wipe the model with a soft, dry cloth or use a soft brush. Avoid using harsh chemicals or abrasive cleaners.
- **Handling:** Handle the model carefully, especially when moving it, to prevent any pieces from detaching.

A close-up shot of the Titanic model, highlighting the details of the ship's deck and the clear blue base representing water, complete with small iceberg elements.

An aerial perspective of the completed Titanic model, showcasing its full length and the display base, suitable for placement on a desk or shelf.

The Titanic model depicted with artistic smoke effects emanating from its funnels, adding a dynamic visual element to the completed build.

TROUBLESHOOTING

Encountering issues during assembly is rare, but here are solutions to common concerns:

- **Missing Pieces:** The manufacturer anticipates this possibility and includes spare blocks in each package. If you find you are still missing specific pieces required to complete your build, please contact BIDIUTOY customer support directly. They will resend the necessary parts to you for free.
- **Difficulty Assembling:** The micro blocks are intentionally small for detailed results. If you find assembly challenging, ensure you are following the instructions precisely. Take frequent breaks, and consider working on the project with another person, as it can be a collaborative activity.
- **Blocks Not Fitting:** Ensure you are using the correct blocks as indicated in the instructions. Micro blocks require a firm, but not excessive, push to connect. If a block does not fit, double-check the previous steps for any misplacement.

SPECIFICATIONS

Feature	Detail
Product Dimensions (L x W x H)	18.1 x 3.1 x 7.5 inches
Item Weight	1 pound
ASIN	B087C5X9VC
Item Model Number	Titanic Model Set
