Spigen Rugged Armor Case for AirPods 2/1 Instruction Manual

1. INTRODUCTION

This manual provides essential information for the proper installation, use, and maintenance of your Spigen Rugged Armor Case for AirPods 2/1. Please read these instructions carefully to ensure optimal performance and longevity of your product.

2. PRODUCT OVERVIEW

The Spigen Rugged Armor Case is designed to provide durable, shock-proof protection for your AirPods 2/1 charging case. It features a resilient shock absorption design with carbon fiber accents, offering everyday scratch defense without adding significant bulk.

Key Features:

- Resilient Shock Absorption and Carbon Fiber Design.
- Flexible and shock-absorbent layer for scratch defense.
- Form-fitted design that adds no bulk.
- Full access to all features with precise cutouts.
- Includes a durable carabiner for easy portability.
- Compatible with wireless charging.

What's in the Box:

- 1 x Spigen Rugged Armor Ear Buds Cover Case
- 1 x Carabiner

3. SETUP INSTRUCTIONS

Follow these steps to properly install your AirPods charging case into the Spigen Rugged Armor Case:

1. **Separate the Case:** The Spigen Rugged Armor Case consists of two separate pieces: one for the body of the AirPods charging case and one for the lid. Gently separate these two pieces.
2. **Insert the AirPods Body:** Carefully slide the main body of your AirPods charging case into the larger bottom piece of the Spigen case. Ensure it is seated firmly and correctly aligned with the charging port cutout.
3. **Attach the Lid Cover:** Place the smaller top piece of the Spigen case onto the lid of your AirPods charging case. Press down gently to ensure a secure and snug fit.
4. **Verify Fit:** Check that both parts of the case are securely attached and that the AirPods charging case opens and closes smoothly. The LED indicator should be visible through the designated cutout.

4. OPERATING INSTRUCTIONS

Using the Carabiner:

The included carabiner allows for convenient attachment of your AirPods case to bags, keychains, or belt loops. Simply clip the carabiner through the designated loop on the side of the Spigen case.

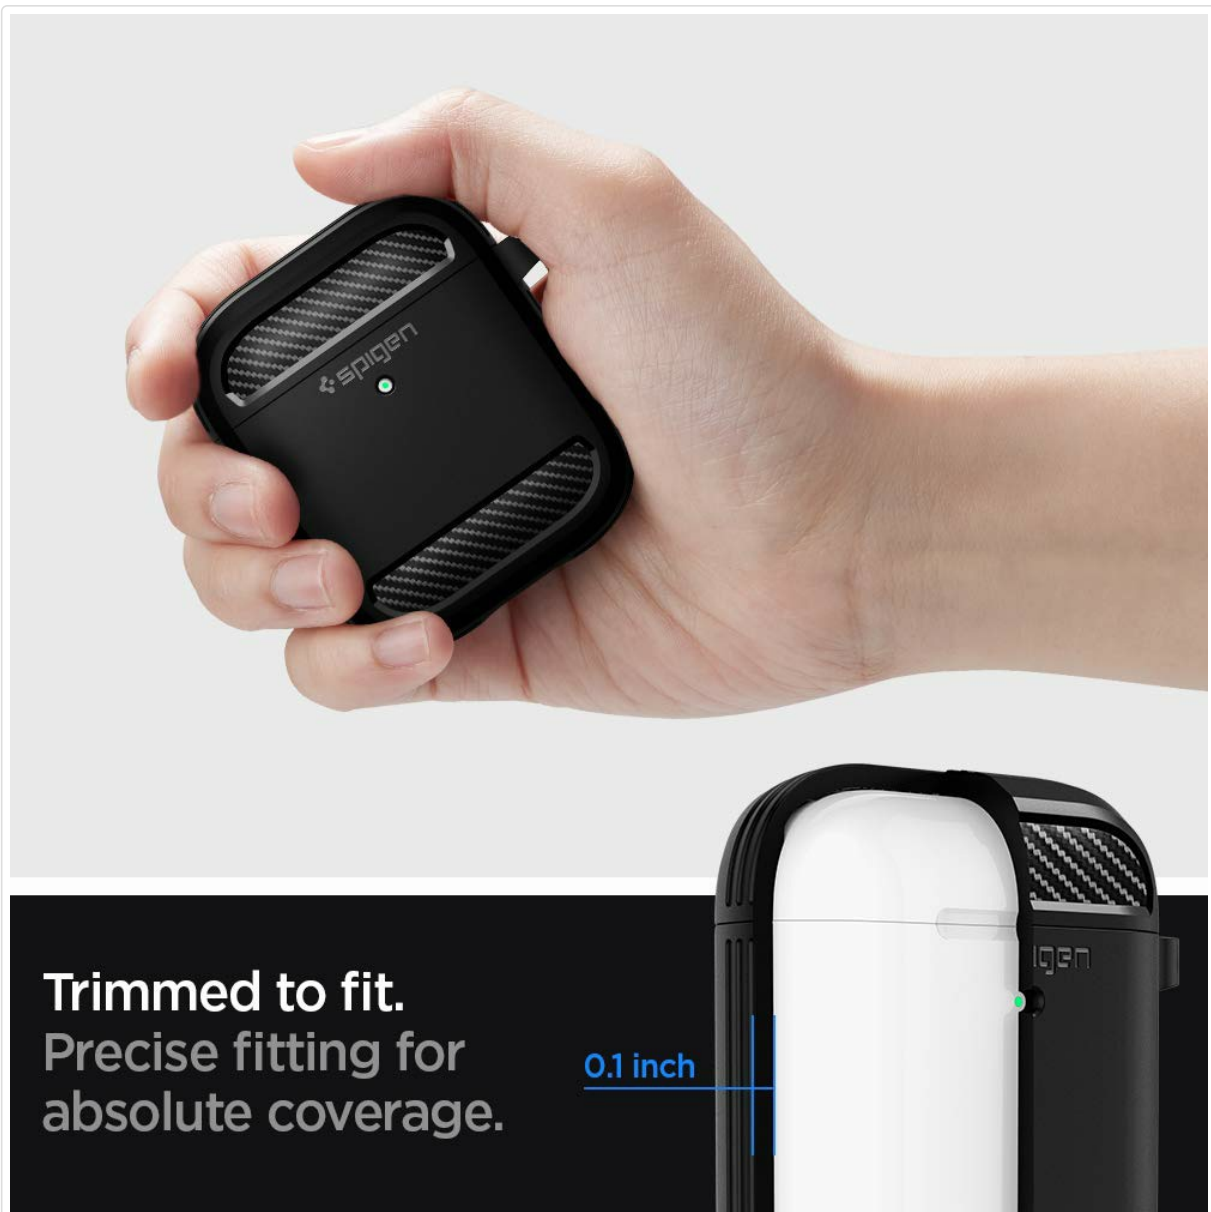

Do you. We got you.
Suited for your
everyday grind.

Charging Your AirPods:

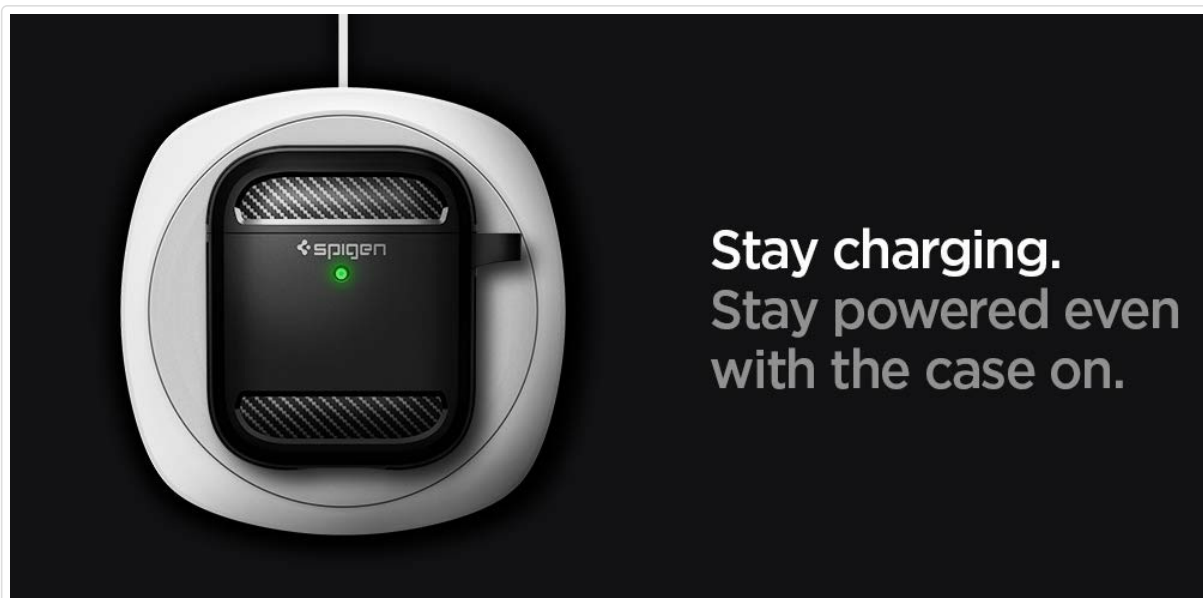

- **Wired Charging:** The case features a precise cutout at the bottom, allowing full access to the charging port. Connect your Lightning cable directly to the AirPods charging case without removing the Spigen case.
- **Wireless Charging:** The Spigen Rugged Armor Case is designed to be compatible with wireless charging. Simply place your AirPods charging case (with the Spigen case installed) onto a compatible wireless charging pad. The LED indicator will remain visible to confirm charging status.

5. MAINTENANCE

To keep your Spigen Rugged Armor Case in optimal condition, follow these maintenance guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and dirt. Avoid using harsh chemicals or abrasive cleaners, as these can damage the TPU material.
- **Storage:** Store the case in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Water Exposure:** This product is **Not Water Resistant**. Avoid exposing the case to water or other liquids to prevent damage to both the case and your AirPods.

6. TROUBLESHOOTING

If you encounter any issues with your Spigen Rugged Armor Case, refer to the following common solutions:

- **Difficulty Removing the Case:** The case is designed for a snug fit to provide maximum protection. To remove, gently push the AirPods charging case from the bottom cutout while carefully prying the

edges of the Spigen case. Avoid excessive force to prevent damage.

- **Accessing the Pairing Button:** The Spigen Rugged Armor Case does not feature a cutout for the AirPods pairing button on the back. If you need to access this button for pairing with new devices or resetting, you will need to temporarily remove the AirPods charging case from the Spigen protective case.
- **Wireless Charging Not Working:** Ensure your wireless charging pad is compatible and properly powered. Verify that the AirPods charging case is correctly centered on the charging pad. If the issue persists, try wired charging to confirm the AirPods case itself is functioning correctly.

7. SPECIFICATIONS
