ToLuLu 4K Webcam with Microphone Instruction Manual

Model: 709e3d2e-47f2-4d6f-bc00-48364cdc1141

INTRODUCTION

Thank you for choosing the ToLuLu 4K Webcam with Microphone. This manual provides essential information for setting up, operating, and maintaining your webcam to ensure optimal performance. This 8MP USB computer web camera is designed to deliver crisp images and clear videos for various applications, including recording, video calls, online teaching, and streaming.

SETUP

The ToLuLu 4K Webcam is designed for easy plug-and-play installation, requiring no additional drivers. It comes with a mounting clip, a mini tripod, and a 6-foot long USB cable for versatile placement options.

Package Contents:

- ToLuLu 4K Webcam
- Mini Tripod
- Privacy Cover
- Integrated USB Cable (6 ft)

Installation Steps:

1. **Connect the Webcam:** Plug the USB cable of the webcam directly into an available USB port on your computer (laptop, desktop, Mac, PC). No additional drivers are typically required.
2. **Position the Webcam:**

- **On a Monitor/Laptop:** Use the adjustable universal clip to securely attach the webcam to the top of your laptop screen or desktop monitor. The soft padding on the clip prevents scratches.
- **On a Tripod:** For alternative placement, screw the webcam onto the included mini tripod. The tripod allows for free-standing use on a desk or other flat surface.

3. **Adjust the Angle:** The webcam's clip and tripod allow for multi-angle adjustments to achieve your desired view.

Plug & Play Easy to use No drivers required

Adjustable clip base securely access to any laptop

Wide Compatibility:

The webcam is compatible with a broad range of operating systems and applications, including:

- **Operating Systems:** Windows 2000, XP, 7, 8, 10 and above; Mac OS; Chrome OS; Smart TV; Android.
- **Applications:** Skype, OBS, YouTube, Facebook, Twitch, FaceTime, Zoom, Xbox One, Hangouts, and more.

Advanced facial enhancement technology and H.264 video compression optimize the image automatically, ensuring you look your best in any video scenario.

Superior Compatibility

Work with most video streaming softwares

- Windows 7/8/10 or later
- Android V5.0 or above

- MacOS 10.6 or above
- Chrome OS 29.0.1547 or above

MAINTENANCE

Cleaning:

To maintain optimal video quality, gently clean the webcam lens with a soft, lint-free cloth. Avoid using harsh chemicals or abrasive materials that could damage the lens.

Privacy Shutter:

Utilize the included privacy shutter to cover the lens when the webcam is not in use. This protects your privacy and prevents unauthorized access to your camera feed.

TROUBLESHOOTING

- No Video/Audio:** Ensure the USB cable is securely plugged into your computer. Check your computer's privacy settings to ensure camera and microphone access is granted to your applications.
- Poor Video Quality:** Verify that your software and display support 4K resolution if you are expecting 4K

output. Ensure adequate lighting in your environment.

- **Microphone Issues:** Confirm that the webcam's microphone is selected as the input device in your application's audio settings.
- **Connection Issues:** If experiencing intermittent connection problems, try plugging the webcam into a different USB port or directly into your computer if using a USB hub.
