Batteries	1 Lithium Ion batteries required. (included)
Battery Cell Composition	Lithium Ion
Battery Capacity	2500 Milliamp Hours

Compatibility

This battery pack is designed for universal compatibility with standard 2-pin furniture connectors. Please ensure your furniture's input matches this type before use.

Image: Diagram illustrating compatibility with 2-pin connectors and showing incompatible plug types (USB, 5-pin, RJ45, Figure-8, Barrel Plug).

Important Compatibility Notes:

- Not compatible with USB ports.
- Not compatible with 5-pin connectors.
- Not compatible with RJ45 connectors.
- Not compatible with barrel plugs.

Initial Setup

Connecting the Battery Pack to Your Furniture

Follow these steps to connect your Blue Cactus battery pack to your reclining furniture:

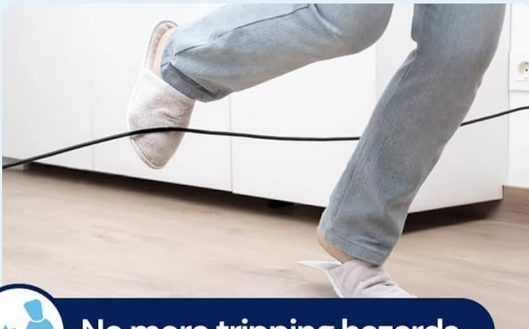

1. Locate the existing power cord of your reclining furniture.
2. Disconnect the furniture's power cord from the wall outlet.
3. Find the 2-pin connection point on your furniture's power cord, typically near the motor or where it connects to the wall adapter.
4. Connect the output cable (long cord) from the Blue Cactus battery pack to this 2-pin connection point on your furniture's power cord.
5. Ensure the connection is secure.

Furniture Placement Freedom

With the battery pack, you can place your reclining furniture anywhere in the room without being limited by wall outlets, enhancing your living space's flexibility and safety by eliminating tripping hazards.

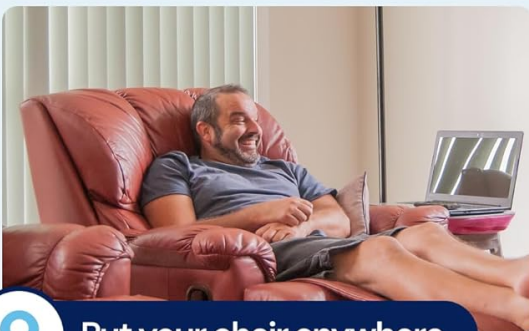

The Smart Way to Enjoy Your Favorite Chair

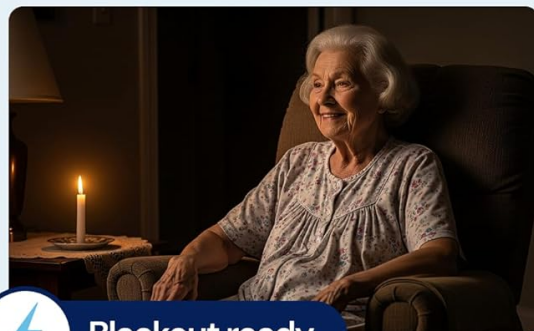

No more tripping hazards

Relax longer, recharge less

Put your chair anywhere

Blackout ready

Your recliner keeps working, even during a power outage.

Operating Your Furniture with the Battery Pack

Once connected, your furniture will operate as usual, powered by the battery. The LCD display on the battery pack shows the remaining charge, allowing you to monitor its power level. This ensures reliable power backup, providing peace of mind during power outages.

Charging the Battery Pack

An initial 24-hour charge is recommended for optimal performance. Subsequent charges will vary based on

usage. The LCD display will indicate when the battery is fully charged.

1. Connect the charger to the battery pack's 'IN' port.
2. Plug the charger into a standard wall outlet.
3. Allow the battery to charge until the LCD display shows 100%.
4. Once fully charged, unplug the charger from the wall outlet and then disconnect it from the battery pack.

Care and Maintenance

- Keep the battery pack in a dry environment, away from moisture and direct sunlight.
- Avoid exposing the battery to extreme temperatures (hot or cold).
- Regularly check all cable connections to ensure they are secure and free from damage.
- If storing the battery for an extended period, ensure it is fully charged before storage to prolong its lifespan.

- Clean the exterior of the battery pack with a soft, dry cloth. Do not use liquid cleaners.

Troubleshooting Common Issues

Issue	Possible Cause / Solution
Furniture not responding.	Check battery charge level on the LCD display. Ensure all connections between the battery pack and furniture are secure.
Battery draining quickly.	Excessive use of power-intensive features (e.g., USB charging, continuous motor use). Ensure the battery is fully charged before use.
Battery not charging.	Verify the charger is properly connected to both the battery and a working wall outlet. Check for any visible damage to the charger or cables.

Warranty and Customer Support

At The Blue Cactus Company, we prioritize your satisfaction. Our dedicated US-based customer service team is here to assist you with any questions or concerns.
