Zinus Korey Bed Frame 140x190cm Instruction Manual

Model: EU-ASMPCH-15K

1. PRODUCT OVERVIEW

The Zinus Korey Metal Bed Frame with upholstered grey headboard provides sturdy support for your mattress. Its design includes wooden slats suitable for memory foam, latex, or spring mattresses. The frame stands 36 cm high, offering over 30 cm of under-bed storage space. This robust metal platform bed frame with a padded headboard is designed to add style and comfort to your bedroom.

Key Features:

- **Modern Design:** Features a contemporary look with an upholstered headboard, suitable for various bedroom decors.
- **Durable Construction:** Made entirely of steel for long-lasting use. The 140x190 cm size supports a maximum weight capacity of 318 kg.
- **Reliable Support:** Wooden slats provide strong support for latex, memory foam, or spring mattresses.
- **Easy Assembly:** All necessary parts, tools, and instructions are included in a compact package for straightforward assembly, typically completed in under an hour.
- **Under-bed Storage:** 36 cm height provides ample space for storage beneath the frame.

2. SETUP AND ASSEMBLY

This bed frame is designed for easy assembly. Please follow these steps carefully to ensure proper construction and stability. It is recommended to assemble the bed frame with two people.

2.1 Unpacking and Preparation

1. Open the packaging and carefully remove all components.
2. Verify that all parts, tools, and instructions are present. Refer to the included parts list.
3. Lay out all components on a clean, soft surface (e.g., a rug or blanket) to prevent scratches.

2.2 Assembly Steps

1. Attach the side rails to the headboard and footboard using the provided bolts and the ratchet tool. Ensure all connections are secure but do not overtighten initially.
2. Install the center support beam(s) if applicable, following the instructions for proper alignment.
3. Unroll or place the wooden slats onto the bed frame. Ensure they are evenly spaced and secured according to the manual. The slats are designed to support your mattress directly.
4. Once all components are in place, go back and fully tighten all bolts. Avoid overtightening to prevent damage to the threads.
5. Place your mattress on the assembled bed frame.

3. OPERATING AND USAGE

The Zinus Korey Bed Frame is designed for stable and comfortable sleep. Proper usage ensures its longevity and your safety.

- Ensure the bed frame is placed on a level surface to prevent wobbling.
- This bed frame is designed to be used with a mattress directly on the slats. A box spring is not required.
- Do not exceed the maximum weight capacity of 318 kg (for 140x190cm size) to prevent damage to the frame and ensure safety.
- Utilize the under-bed space for storage, keeping items neatly organized.

4. MAINTENANCE

Regular maintenance will help preserve the appearance and structural integrity of your Zinus Korey Bed Frame.

- **Cleaning the Metal Frame:** Wipe the metal surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Upholstered Headboard:** For light cleaning, use a soft brush or vacuum cleaner with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner. Do not saturate the fabric.
- **Checking Connections:** Periodically check all bolts and screws to ensure they remain tight. Retighten if necessary, but do not overtighten.
- **Slats Inspection:** Inspect the wooden slats for any signs of damage or wear. Replace any broken slats to maintain proper mattress support.

5. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common troubleshooting tips.

Problem	Possible Cause	Solution
Bed frame is wobbly or squeaks.	Loose bolts or uneven placement.	Ensure all bolts are securely tightened. Check that the bed frame is on a level surface. If on an uneven floor, use shims under the legs.
Slats are shifting or falling out.	Improper installation or damaged slats.	Verify that slats are correctly positioned and secured according to the assembly instructions. Replace any damaged slats.
Headboard feels loose.	Headboard attachment bolts are loose.	Tighten the bolts connecting the headboard to the frame.
