Motorola M360FS19-RG

Moto 360 3rd Gen 2020 Smartwatch User Manual

Model: M360FS19-RG

Introduction

The Moto 360 3rd Gen 2020 is a luxury stainless steel smartwatch designed to seamlessly integrate with your daily life, offering advanced features and a sleek design. This manual provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your device.
Key features include:

- **New Sleek Design:** Crafted with premium engineering, featuring a water-resistant, sunlight-readable display and 20mm interchangeable leather and silicone bands.
- **Durable Construction:** Made from scratch-resistant glass, stainless steel, titanium screws, and PVD coating for extended longevity.
- **Quick Charge:** Achieves 0 to 100% charge in 60 minutes, providing up to 24 hours of battery life with always-on display.
- **Wear OS by Google:** Runs on the latest Wear OS, offering connectivity to popular apps like Google Pay, Viber, Spotify, and Shazam.
- **Fitness Tracking:** Built-in GPS, heart rate monitor, and step count technology for compatibility with Google Fit, Strava, Adidas Running, and Nike Run Club.

What's in the Box

Your Moto 360 3rd Gen 2020 package includes the following items:

- Moto 360 Smartwatch
- USB Charging Cradle
- Genuine Leather Strap
- High-Impact Silicone Sports Band

INCLUDED IN THE BOX

Figure 2: Included accessories: smartwatch, two interchangeable bands, and USB charging cradle.

SETUP

1. Charging Your Smartwatch

Before initial use, fully charge your Moto 360. Connect the USB charging cradle to a power source. Place the smartwatch onto the cradle, ensuring the charging pins align. A full charge from 0% to 100% typically takes 60 minutes.

2. Pairing with Your Smartphone

The Moto 360 runs on Wear OS by Google and is compatible with both iOS and Android devices. Follow these steps to pair your smartwatch:

1. Download the **Wear OS by Google** app from the App Store (iOS) or Google Play Store (Android).
2. Turn on your Moto 360 by pressing and holding the power button.
3. Open the Wear OS app on your smartphone and follow the on-screen instructions to pair your device.
4. Ensure Bluetooth is enabled on your smartphone.

3. Changing Watch Bands

The Moto 360 comes with interchangeable 20mm bands. To change a band, locate the quick-release pins on the underside of the band where it connects to the watch case. Slide the pin to detach the band, then align the new band and slide the pin back into place to secure it.

TWO BANDS IN THE BOX

Operating Your Smartwatch

Navigation and Controls

The Moto 360 features a touch screen and physical buttons for navigation:

- **Touch Screen:** Swipe up, down, left, or right to navigate through menus, notifications, and tiles. Tap to select items.
- **Crown Button:** Press to access the app drawer or return to the watch face. Rotate to scroll through lists or adjust settings.
- **Customizable Button:** Assign a frequently used app or function to this button for quick access.

Using Wear OS by Google

Your smartwatch provides access to a wide range of features through Wear OS:

- **Notifications:** Receive smartphone notifications directly on your wrist. Swipe up from the watch face to view them.
- **Google Assistant:** Access Google Assistant by long-pressing the crown button or saying "Hey Google."

- **Google Pay:** Make contactless payments using Google Pay. Ensure your cards are set up in the Wear OS app.
- **Fitness Tracking:** Utilize built-in GPS and heart rate monitoring for accurate workout tracking. Compatible with apps like Google Fit, Strava, and Nike Run Club.

Your browser does not support the video tag.

Maintenance

Cleaning Your Smartwatch

To maintain the appearance and functionality of your Moto 360, regularly clean it with a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.

Water Resistance

The Moto 360 is 3ATM water-resistant, meaning it can withstand splashes, rain, and brief immersion in shallow water. It is not suitable for diving, high-speed water sports, or prolonged submersion. Always ensure the watch is dry before charging.

Figure 6: The Moto 360 is designed to be water-resistant for everyday use.

Heart Rate Sensor Care

The heart rate sensor on the back of the watch should be kept clean for accurate readings. Wipe it gently with a soft cloth after workouts or if it appears dirty.

Troubleshooting

Battery Life Issues

If you experience shorter than expected battery life (less than 24 hours with typical use), consider the following:

- **Reduce Always-On Display:** Disabling the always-on display can significantly extend battery life.
- **Limit Notifications:** Excessive notifications can drain the battery. Adjust notification settings in the Wear OS app.
- **GPS Usage:** Continuous GPS tracking (e.g., during long workouts) consumes more power.
- **Background Apps:** Close unused apps running in the background on your smartwatch.
- **Watch Faces:** Animated or highly detailed watch faces can use more power. Opt for simpler designs.

Connectivity Problems

If your smartwatch is not connecting to your phone or Wi-Fi:

- **Bluetooth:** Ensure Bluetooth is enabled on both your smartphone and smartwatch.
- **Restart Devices:** Try restarting both your smartwatch and smartphone.
- **Re-pair:** If issues persist, unpair the watch from the Wear OS app and re-pair it.
- **App Updates:** Ensure both the Wear OS app and your smartwatch's software are up to date.

Charging Issues

If your watch is not charging:

- **Check Connections:** Ensure the USB charging cradle is securely connected to a power source and the watch is properly seated on the cradle.
- **Clean Contacts:** Gently clean the charging contacts on both the watch and the cradle with a dry, soft cloth to remove any dust or debris.
- **Try Different Power Source:** Test the charger with a different USB port or wall adapter.

Specifications

Feature	Specification
Product Dimensions	1.69 x 1.69 x 0.46 inches
Item Weight	1.83 ounces (52 Grams)
Model Number	M360FS19-RG
Batteries	1 Lithium Ion battery (included)
Standing Screen Display Size	1.19 Inches
Memory Storage Capacity	8 GB
RAM Memory Installed Size	8 GB
