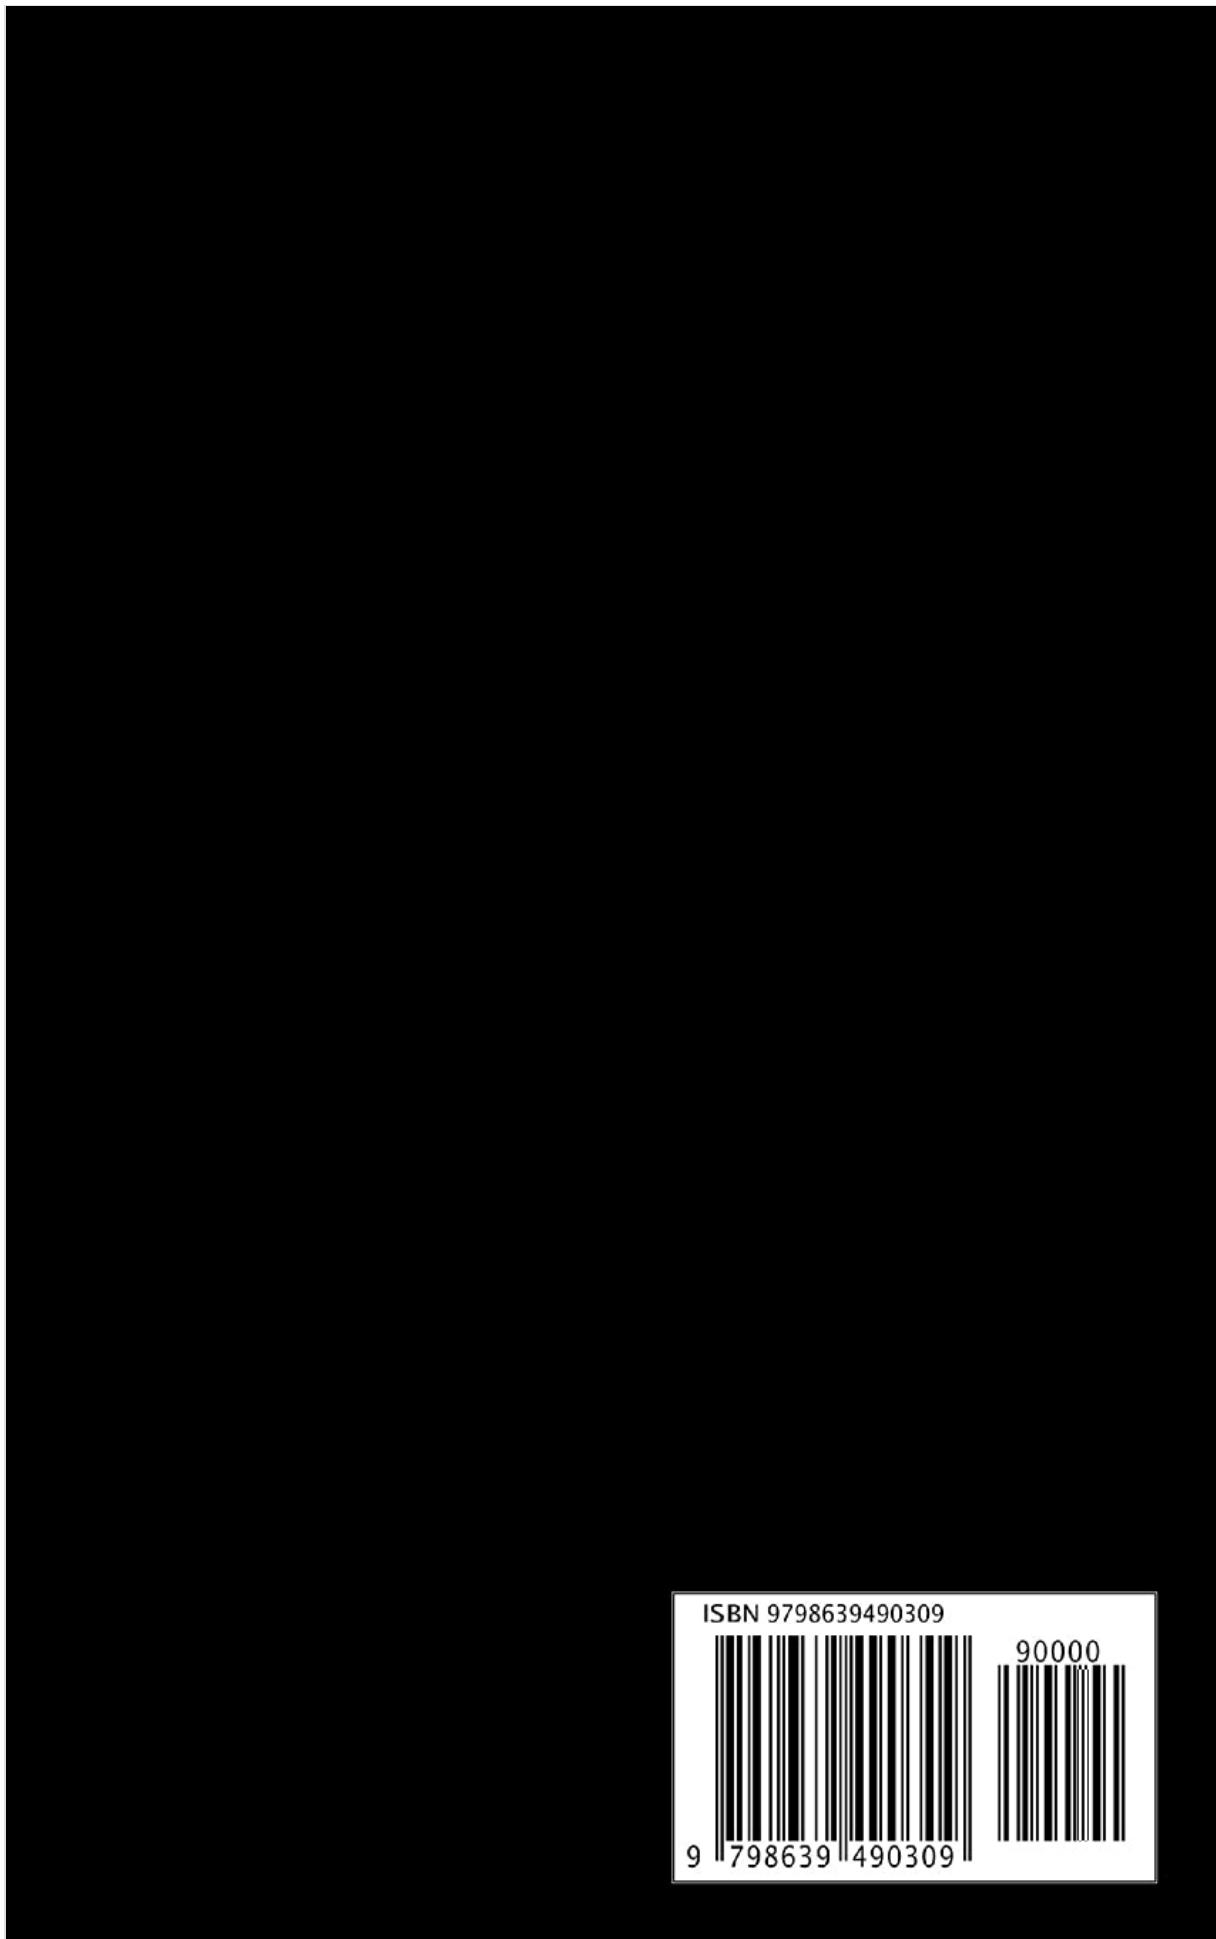

Figure 2: Back cover of the manual displaying the ISBN-13 barcode. The ISBN-13 is [979-8639490309](https://www.isbn-international.org/ISBN-13).

The Apple iPhone SE 2020 is a powerful and compact smartphone, combining advanced features with a

familiar design. This manual serves as your guide to unlocking its full potential.

## SETUP

---

### Initial Device Setup

1. **Power On:** Press and hold the side button until the Apple logo appears.
2. **Hello Screen:** Swipe up from the bottom of the screen.
3. **Language and Region:** Select your preferred language and region.
4. **Quick Start:** If you have another iPhone or iPad, you can use Quick Start to set up your new iPhone automatically. Bring your old device near your new one and follow the on-screen instructions.
5. **Set Up Manually:** If you don't have another device or prefer manual setup, tap "Set Up Manually".
6. **Connect to Wi-Fi:** Choose a Wi-Fi network and enter the password.
7. **Data & Privacy:** Read the Data & Privacy information and tap "Continue".
8. **Face ID or Touch ID:** Set up Face ID (if applicable) or Touch ID for secure unlocking and purchases.
9. **Create a Passcode:** Set a 6-digit passcode. You can choose "Passcode Options" for other formats.
10. **Apps & Data:** Choose how to transfer apps and data from an old device or set up as a new iPhone.
11. **Apple ID:** Sign in with your Apple ID or create a new one. This is crucial for App Store, iCloud, and other Apple services.
12. **Siri:** Set up Siri, Apple's voice assistant.
13. **Screen Time:** Configure Screen Time settings to monitor and manage device usage.
14. **App Analytics:** Choose whether to share app analytics with Apple.
15. **True Tone Display:** Enable or disable True Tone.
16. **Zoom:** Select your display zoom preference.
17. **Welcome:** Tap "Get Started" to begin using your iPhone.

### Setting Up Apple ID

Your Apple ID is the account you use for all Apple services, including the App Store, iCloud, iMessage, FaceTime, and more. To set up your Apple ID:

- During initial setup, you will be prompted to sign in or create an Apple ID.
- If you already have one, enter your Apple ID and password.
- To create a new one, tap "Don't have an Apple ID or forgot it?" and then "Create a Free Apple ID". Follow the on-screen instructions to provide your birth date, name, email address, and create a password.
- Ensure you remember your Apple ID and password, as they are essential for managing your device and content.

## OPERATING YOUR iPhone SE 2020

---

### Apps Management

The iPhone SE 2020 runs on iOS, providing a seamless app experience. You can download apps from the App Store, organize them on your home screen, and manage their permissions.

- **Downloading Apps:** Open the App Store app, browse or search for apps, and tap "Get" or the price

to download. You may need to authenticate with Face ID, Touch ID, or your Apple ID password.

- **Organizing Apps:** Touch and hold an app icon until all icons jiggle. Drag apps to rearrange them, create folders by dragging one app onto another, or delete apps by tapping the "X" on their icon.
- **App Permissions:** Go to *Settings > Privacy* to manage permissions for location services, contacts, photos, microphone, and more for individual apps.

## OS Upgrade

Keeping your iOS updated ensures you have the latest features, security patches, and performance improvements.

1. Ensure your device is connected to Wi-Fi and has at least 50% battery or is connected to power.
2. Go to *Settings > General > Software Update*.
3. If an update is available, tap "Download and Install".
4. Follow the on-screen prompts to complete the installation. Your iPhone will restart during this process.

## Pictures and Video Editing

The Photos app on your iPhone SE 2020 offers robust tools for editing your photos and videos directly on your device.

- **Editing Photos:** Open the Photos app, select a photo, and tap "Edit". You can adjust exposure, contrast, brightness, apply filters, crop, rotate, and more.
- **Editing Videos:** Select a video in the Photos app and tap "Edit". You can trim the video, apply filters, adjust colors, and rotate.
- **Live Photos:** For Live Photos, you can choose a key photo, trim the video, or apply effects like Loop, Bounce, or Long Exposure.

## Tips and Tricks

- **Control Center:** Swipe up from the bottom edge of the screen to access Control Center for quick access to settings like Wi-Fi, Bluetooth, brightness, and volume.
- **Siri:** Activate Siri by saying "Hey Siri" or by pressing and holding the Home button.
- **Reachability:** Double-tap the Home button to bring the top of the screen down within reach.
- **Screenshot:** Press the Home button and the Power button simultaneously.
- **Force Restart:** Press and quickly release the Volume Up button, then press and quickly release the Volume Down button, then press and hold the Side button until you see the Apple logo.

## MAINTENANCE

Proper maintenance can extend the life and performance of your iPhone SE 2020.

- **Cleaning:** Use a soft, lint-free cloth to clean your iPhone. Avoid abrasive materials or harsh chemicals.
- **Battery Health:** To optimize battery life, avoid extreme temperatures. You can check battery health in *Settings > Battery > Battery Health*.
- **Storage Management:** Regularly check your storage in *Settings > General > iPhone Storage* and delete unnecessary apps, photos, or videos.
- **Software Updates:** Keep your iOS updated to ensure optimal performance and security.

- **Backup:** Regularly back up your iPhone to iCloud or your computer to prevent data loss.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your iPhone SE 2020.

Problem	Possible Solution
Device not responding/frozen	Perform a force restart: Press and quickly release Volume Up, then Volume Down, then press and hold the Side button until the Apple logo appears.
Apps crashing or not opening	Close and reopen the app. Restart your iPhone. Check for app updates in the App Store. Reinstall the app.
Wi-Fi or Bluetooth connectivity issues	Toggle Wi-Fi/Bluetooth off and on in Control Center or Settings. Restart your router. Reset Network Settings ( <i>Settings &gt; General &gt; Transfer or Reset iPhone &gt; Reset &gt; Reset Network Settings</i> ).
Battery draining quickly	Check Battery Usage in <i>Settings &gt; Battery</i> to identify power-hungry apps. Reduce screen brightness. Disable Background App Refresh for non-essential apps. Keep iOS updated.
Storage full	Review <i>Settings &gt; General &gt; iPhone Storage</i> . Delete unused apps, large videos, or photos. Offload apps. Clear Safari history and website data.
