

NPET WF050TP

NPET WF050 Cat Water Fountain Instruction Manual

Model: WF050TP

1. INTRODUCTION

Thank you for choosing the NPET WF050 Cat Water Fountain. This automatic pet drinking fountain is designed to provide your beloved pets with a continuous supply of fresh, filtered water, encouraging healthy hydration habits. Its super quiet operation and thoughtful design ensure a comfortable environment for both you and your pets. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. IMPORTANT SAFETY INSTRUCTIONS

- This appliance is intended for **indoor use only**. Do not use outdoors.
- Always unplug the fountain from the power outlet before cleaning or performing any maintenance.
- Do not allow children to play with or around the fountain. Supervise children when near the fountain.
- Ensure the power cord is placed where it cannot be tripped over or damaged.
- Use only the provided power adapter. If the adapter or cord is damaged, do not use the fountain.
- Do not immerse the power adapter or plug in water or other liquids.
- Do not operate the fountain if it has a damaged cord or plug, or if it is malfunctioning or has been dropped or damaged in any manner.
- Keep the fountain away from heat sources and direct sunlight.
- Ensure the water level is always above the minimum mark to prevent the pump from running dry.

3. PACKAGE CONTENTS

Please check the package to ensure all components are present and in good condition:

- 1 x NPET WF050 Pet Water Fountain Unit
- 1 x Filter (pre-installed or separate)

- 1 x Faucet Kit
- 1 x Water Pump with USB cable
- 1 x Instruction Manual (this document)
- 1 x Power Adapter (for models with adapter)
- 1 x Cleaning Brush

Image: All components of the NPET WF050 Cat Water Fountain, including the main transparent reservoir, the top drinking platform with faucet, the internal pump, a filter, a power adapter, and a cleaning brush.

4. PRODUCT FEATURES

- **1.5L / 50oz Capacity:** Sufficient water storage for multiple pets or extended periods, lasting up to one week for a single pet.
- **5-Layer Filtration System:** Equipped with a high-density and high-content activated carbon filter to effectively maintain water quality and increase oxygen content, providing clean and healthy water.
- **Ultra-Quiet Operation:** Designed with a low-noise pump, operating at approximately 40dB, ensuring a

peaceful environment.

- **Transparent Design:** The visible fully transparent water tank allows for easy monitoring of water levels and cleanliness, indicating when to refill or clean.
- **Faucet and Spring Surge Modes:** Offers different water flow options to match the natural drinking habits of cats and dogs, encouraging increased water intake.
- **Emergency Water Storage:** The design includes a reservoir that holds water even during power outages, ensuring your pets have access to water.
- **Easy to Clean:** Component structure allows for easy disassembly and cleaning of most parts under water.

5-layer Filtration System

Provide clean water for your pets, and keep them far away from diseases

Image: A diagram illustrating the water flow and the 5-layer filtration process within the NPET WF050 fountain, highlighting how water is cleaned as it circulates.

Better Drinking Water

Match to small & medium cat dog drinking habits

Image: The NPET WF050 fountain demonstrating its two drinking modes, a calm surface flow and a dynamic faucet stream, designed to cater to different pet preferences.

Emergency Water Storage

Not afraid your pets will run out of water when there is sudden power outages

Image: The NPET WF050 pet water fountain positioned on a floor, with a cat nearby. The image highlights the fountain's transparent design and its ability to store water for emergency use during power outages.

Ultra Quiet Working

Provide a low noise environment for you and your pets

Image: A sleeping kitten resting peacefully next to the NPET WF050 pet water fountain, illustrating the product's ultra-quiet operation. A graphic indicates the fountain's noise level is approximately 40dB, comparable to a whisper.

50oz/1.5L Capacity

Suitable for one adult cat for 5 days water intake

Image: The NPET WF050 pet water fountain with its dimensions (17.3cm/6.8 inches height, 16.5cm/6.5 inches width) and 1.5L capacity clearly marked, demonstrating its compact size and ample water storage.

Hand Washable

Easy to disassemble and clean most parts under water

Image: An exploded view of the NPET WF050 pet water fountain, showing its main components (reservoir, top cover, pump, filter, faucet) being easily disassembled and cleaned under running water, emphasizing its hand-washable design.

Healthy Drinking Habit

Automatic water outlet when cat close to NPET pet fountain

Image: A cat approaching the NPET WF050 pet water fountain, which features an automatic water outlet when the pet is near, promoting a healthy drinking habit. Note: This feature may vary by model variant (e.g., with sensor).

5. ASSEMBLY AND SETUP

Before first use, please clean all components thoroughly with water (except the pump and adapter). Ensure all parts are dry before assembly.

1. **Clean Components:** Wash the water tank, drinking tray, and faucet kit with mild soap and water. Rinse thoroughly.

2. **Install Pump:** Place the water pump into the designated slot at the bottom of the water tank. Ensure the silicone hose attached to the pump is securely connected to the outlet pipe on the top cover. *Do not remove the silicone hose from the pump.*
3. **Insert Filter:** Rinse the filter under running water for a few minutes to remove any loose carbon dust. Place the filter into the filter tray on the top cover.
4. **Assemble Top Cover:** Carefully place the top cover onto the water tank, ensuring it is seated correctly and the pump's outlet aligns with the water flow channel.
5. **Install Faucet (Optional):** If desired, insert the faucet into the designated opening on the top cover.
6. **Fill Water:** Fill the water tank with clean water up to the MAX line. Do not overfill.
7. **Connect Power:** Connect the USB cable from the pump to the provided power adapter, then plug the adapter into a standard electrical outlet.
8. **Operation Check:** The fountain should start operating, and water should begin flowing. If not, check connections and water level.

6. OPERATING INSTRUCTIONS

Once assembled and powered on, the NPET WF050 Cat Water Fountain will continuously circulate and filter water for your pets. The transparent design allows you to easily monitor the water level. Ensure the water level remains above the MIN mark to protect the pump from damage due to dry running. Refill water as needed by slowly pouring fresh water into the top basin.

7. CLEANING AND MAINTENANCE

Regular cleaning and maintenance are crucial for the longevity of your fountain and the health of your pets. It is recommended to clean the fountain at least once every two weeks, or more frequently if you have multiple pets or if the water appears dirty.

1. **Unplug:** Always unplug the fountain from the power outlet before cleaning.
2. **Disassemble:** Remove the top cover, filter, and pump from the water tank.
3. **Clean Components:** Wash the water tank, top cover, and faucet kit with mild soap and water. Use the provided cleaning brush to clean the pump and its components, especially the impeller and intake area, to prevent mineral buildup and debris accumulation. Rinse all parts thoroughly to remove any soap residue.
4. **Filter Replacement:** Replace the filter every 2-4 weeks, depending on the number of pets and water quality. Rinse the new filter before placing it in the filter tray.
5. **Reassemble:** Reassemble all components as described in the "Assembly and Setup" section.
6. **Refill:** Fill the fountain with fresh, clean water.

Hand Washable

Easy to disassemble and clean most parts under water
