› WOSTOKE Car Android Navigation Stereo GPS Radio User Manual for Kia Soul 2014-2017 (Model WS-D0530)

WOSTOKE WS-D0530

WOSTOKE Car Android Navigation Stereo GPS Radio User Manual

Model: WS-D0530 | For Kia Soul 2014-2017

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your WOSTOKE Car Android Navigation Stereo GPS Radio. This unit is specifically designed for Kia Soul models from 2014 to 2017. Please read this manual thoroughly before using the product to ensure proper function and safety.

2. SAFETY INFORMATION

- Read all instructions carefully before installation and operation.
- Professional installation is highly recommended to avoid damage to the unit or your vehicle.
- Do not operate the device in a way that distracts you from driving. Always prioritize road safety.
- Ensure all connections are secure and properly insulated to prevent short circuits.
- Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1x Car Android Head Unit with Mask
- 1x GPS Antenna
- 1x Power Cable (Plug & Play)
- 2x USB Port Cables
- 1x RCA Expand Cable
- 1x RCA Connector for Reverse Camera
- 1x Install Kit (Gift)

- 1x External Mic (Gift)
- 1x AHD 720 Reverse Camera (Gift)
- CANBUS (if applicable, for vehicles with original amplifier)

4. SETUP AND INSTALLATION

This head unit is designed for direct fitment in Kia Soul models from 2014 to 2017. Due to the complexity of automotive electrical systems, professional installation is strongly recommended.

4.1 General Installation Steps

1. **Disconnect Battery:** Before starting any electrical work, disconnect the vehicle's negative battery terminal.
2. **Remove Original Head Unit:** Carefully remove the existing car stereo and dashboard trim. Refer to your vehicle's service manual for specific instructions.
3. **Connect Wiring Harness:** Connect the provided power cable (Plug & Play) to the vehicle's wiring harness. Connect the GPS antenna, USB cables, RCA cables, and reverse camera connector as needed. If your vehicle has an original amplifier, ensure the CANBUS module is correctly integrated.
4. **Install Head Unit:** Mount the WOSTOKE head unit into the dashboard opening. Ensure all cables are routed properly and not pinched.
5. **Reconnect Battery and Test:** Reconnect the battery and power on the unit to test all functions (radio, navigation, Bluetooth, camera, steering wheel controls).
6. **Reassemble Dashboard:** Once all functions are verified, reassemble the dashboard trim.

5. OPERATING INSTRUCTIONS

Your WOSTOKE Android Navigation Stereo operates on an Android system, offering a user experience similar to a tablet. The 9-inch IPS touchscreen provides sensitive multi-touch control.

5.1 Basic Operation

- **Power On/Off:** Press and hold the power button (usually located on the front panel) to turn the unit on or off. A short press typically mutes or unmutes audio.
- **Touchscreen:** Navigate the interface by tapping, swiping, and pinching on the capacitive touchscreen.
- **Home Screen:** The home screen provides access to frequently used applications like Navigation, Video, Music, and Radio.

5.2 Key Features

- **Navigation:** Access the built-in GPS navigation system. The unit supports North America maps. Ensure the GPS antenna is properly installed for optimal signal reception.

The display showing a navigation map with a route summary and start navigation button.

- **Radio:** Tune into FM radio stations. The unit offers good radio reception.

The display showing the FM radio interface with frequency tuning and preset options.

- **Bluetooth:** Connect your mobile phone via internal Bluetooth for hands-free calling and stereo music streaming.
- **Wi-Fi:** Utilize the internal Wi-Fi module to connect to the internet via Wi-Fi networks or mobile hotspot sharing.
- **USB Connectivity:** Supports USB input for media playback and connection of USB interface cameras or DVRs.
- **Media Playback:** Supports 1080P hardware decoding and various audio formats for music and video playback.

The display showing video playback, demonstrating the unit's multimedia capabilities.

The display showing music playback with an equalizer visualization, indicating audio functionality.

- **Mirror Link:** Wirelessly connect iOS devices or wired/wireless connect Android devices to mirror your phone screen on the head unit display.

The display showing options for Android USB, Android WiFi, and iPhone WiFi for Mirror Link functionality.

- **Reverse Camera Support:** The unit supports aftermarket RCA type backup cameras, including the provided AHD 720 reverse camera.
- **Steering Wheel Control (SWC):** The unit supports existing steering wheel controls for convenient operation.
- **OSD Language:** Supports over 20 languages, including English, French, German, Spanish, and Italian.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your head unit.

- **Screen Cleaning:** Use a soft, dry, lint-free cloth to clean the touchscreen. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive cleaners, or solvents.
- **General Cleaning:** Keep the unit and surrounding dashboard area free from dust and debris.
- **Software Updates:** Periodically check for available software updates to ensure the best performance and access to new features.

7. TROUBLESHOOTING

If you encounter issues with your head unit, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on	Loose power connection, blown fuse, vehicle battery issue.	Check power cable connections. Inspect vehicle fuses. Ensure vehicle battery is charged.

Problem	Possible Cause	Solution
No sound output	Volume too low, speaker wires disconnected, incorrect audio settings.	Increase volume. Check speaker wire connections. Verify audio output settings in the system menu.
GPS signal lost or inaccurate	GPS antenna improperly installed or obstructed, poor satellite reception.	Ensure GPS antenna is securely connected and has a clear view of the sky (e.g., on the dashboard). Move to an open area.
Touchscreen unresponsive	Temporary software glitch, system freeze.	Restart the unit by pressing and holding the power button. If issue persists, perform a factory reset (refer to system settings).
Bluetooth connection issues	Device not in pairing mode, interference, incorrect pairing procedure.	Ensure your phone's Bluetooth is on and in pairing mode. Delete previous pairings and re-pair. Move closer to the unit.
Reverse camera not displaying	Camera not connected, reverse trigger wire not connected, faulty camera.	Check RCA and power connections for the reverse camera. Ensure the reverse trigger wire is correctly connected to the vehicle's reverse light circuit.

If the problem persists after attempting these solutions, please contact customer support.
