Wipro Azure LED Rechargeable Lantern (Model E10008) User Manual

1. PRODUCT OVERVIEW

The Wipro Azure LED Rechargeable Lantern is a versatile and dependable illumination device designed for various lighting needs. It features 360-degree light distribution, ensuring comprehensive lighting in any environment. The lantern offers a tunable white light feature, allowing users to switch between soft, warm white (2700K) and bright, cool white (6500K) to suit different preferences and moods. Equipped with an 1800mAh Li-Ion battery, it serves as a reliable emergency light source with extended operating time.

4. SETUP AND CHARGING

Before initial use, fully charge the Wipro Azure LED Rechargeable Lantern. The lantern is equipped with a rechargeable lithium-ion battery. Charging typically takes 6-8 hours for a full charge.

1. Locate the charging port on the lantern.
2. Connect the provided charging cable to the lantern and a suitable power source (e.g., USB wall adapter, power bank, or laptop USB port).
3. The charging indicator light will illuminate to show that the device is charging.
4. Once fully charged, the indicator light may change color or turn off, depending on the model. Disconnect the charging cable.

5. OPERATING INSTRUCTIONS

The Wipro Azure LED Rechargeable Lantern is designed for simple and intuitive operation.

1. **Power On/Off:** Rotate the knob located on the top of the lantern clockwise to turn it on. Continue rotating to increase brightness. Rotate counter-clockwise to decrease brightness and turn off.
2. **Adjusting Color Temperature:** The lantern features a color tunable function. As you rotate the knob, the light color will transition between warm white (2700K), neutral white (4000K), and cool white (6500K). Adjust the knob until you reach your desired color temperature and brightness.
3. **Using the Flexible Handle:** The integrated flexible handle allows for easy carrying or hanging of the lantern. Adjust the handle to your preferred position for portability.

Image 5.2: The lantern offers color temperatures from 2700K (warm white) to 6500K (cool white).

6. MAINTENANCE AND CARE

- **Cleaning:** Wipe the lantern with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the lantern in a cool, dry place when not in use. If storing for an extended period, ensure the battery is partially charged and recharge it every 3-6 months to maintain battery health.
- **Water Resistance:** This product is *not water resistant*. Avoid exposure to water or high humidity.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lantern does not turn on.	Battery is depleted.	Charge the lantern fully (refer to Section 4).
Light is dim or flickers.	Low battery or improper knob setting.	Recharge the battery. Adjust the knob to increase brightness.
Cannot change light color.	Knob not rotated sufficiently.	Rotate the knob slowly and fully to cycle through color temperatures.

8. SPECIFICATIONS

Feature	Detail
Model Number	E10008
Light Source Type	LED
Color Temperature	2700K (Warm White) - 6500K (Cool White)
Battery Type	1800mAh Lithium Ion (included)
Battery Life	Up to 3 Hours
Charging Time	6-8 Hours
Product Dimensions	13L x 13W x 17H Centimeters
Item Weight	354 Grams
Material	Polycarbonate (PC)
Water Resistance Level	Not Water Resistant
Country of Origin	China
