WHAT'S IN THE BOX

Upon unboxing your Logitech M705 Marathon Wireless Mouse, ensure all components are present:

- Logitech M705 Marathon Wireless Mouse
- Logitech Unifying Receiver
- 2 AA Batteries (pre-installed or included separately)
- User Documentation (this manual)

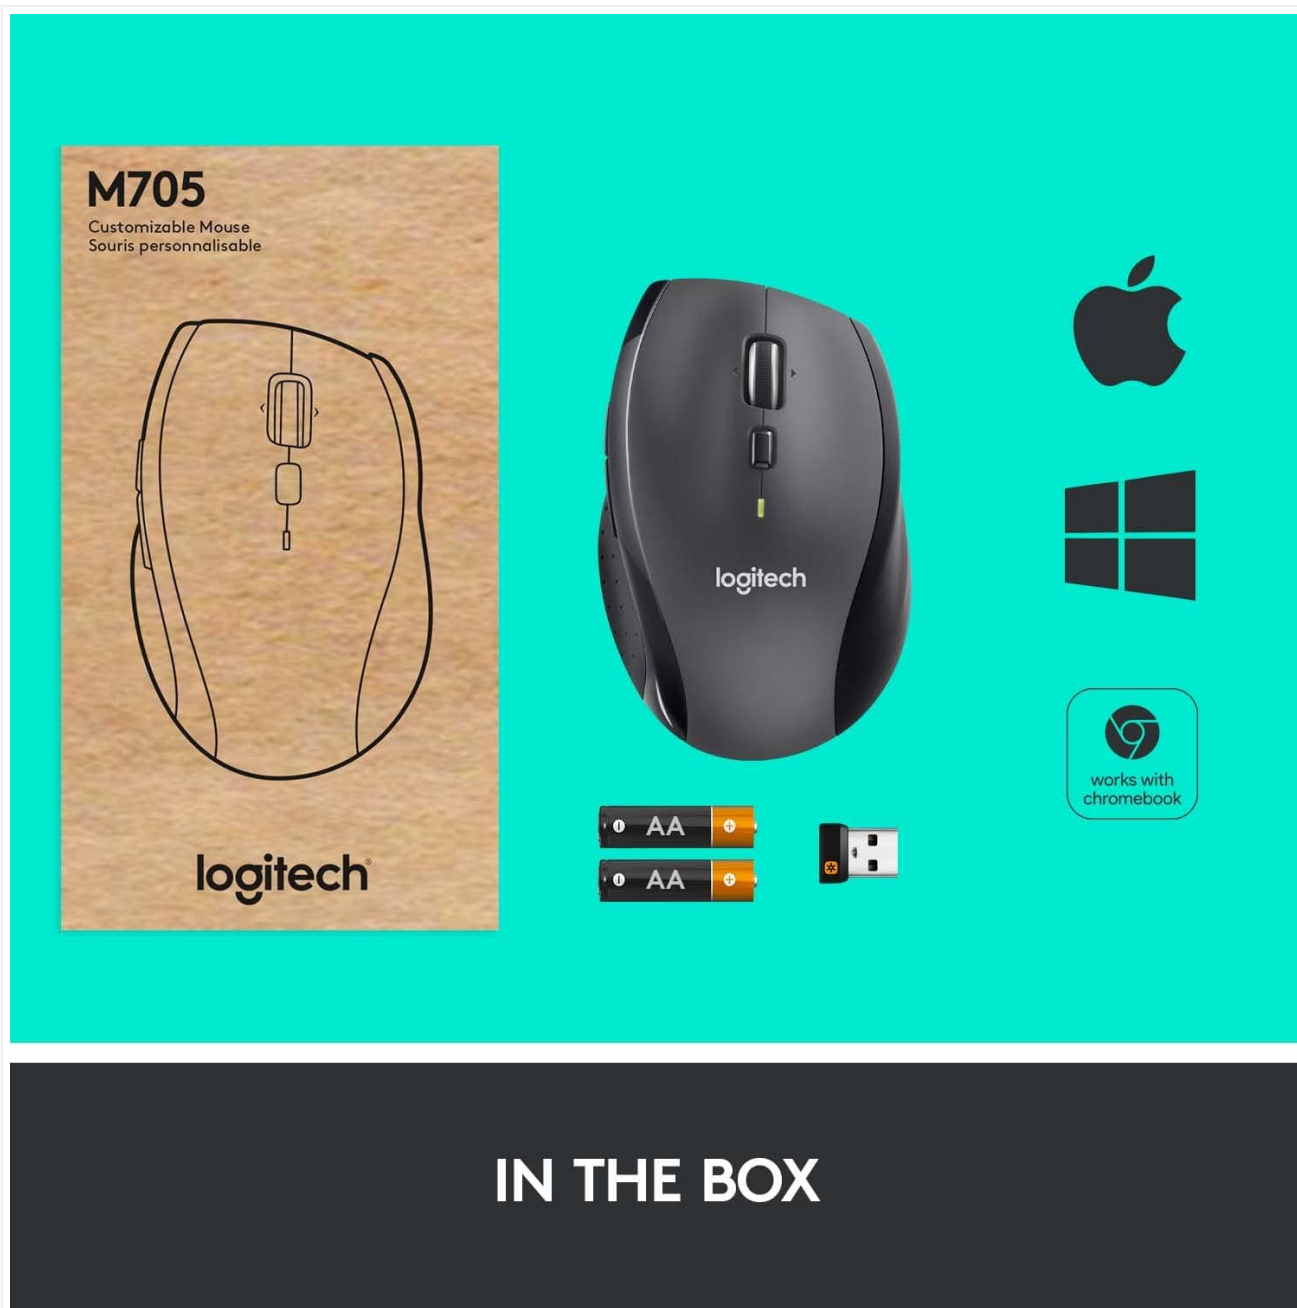

Figure 2: Included items in the M705 Marathon Mouse packaging.

SETUP

1. Battery Installation

The M705 mouse uses two AA batteries. These may be pre-installed with a pull tab or included separately.

1. Locate the battery compartment door on the underside of the mouse.
2. Slide the battery compartment door open.
3. If a pull tab is present, remove it. If batteries are separate, insert two AA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment door securely.

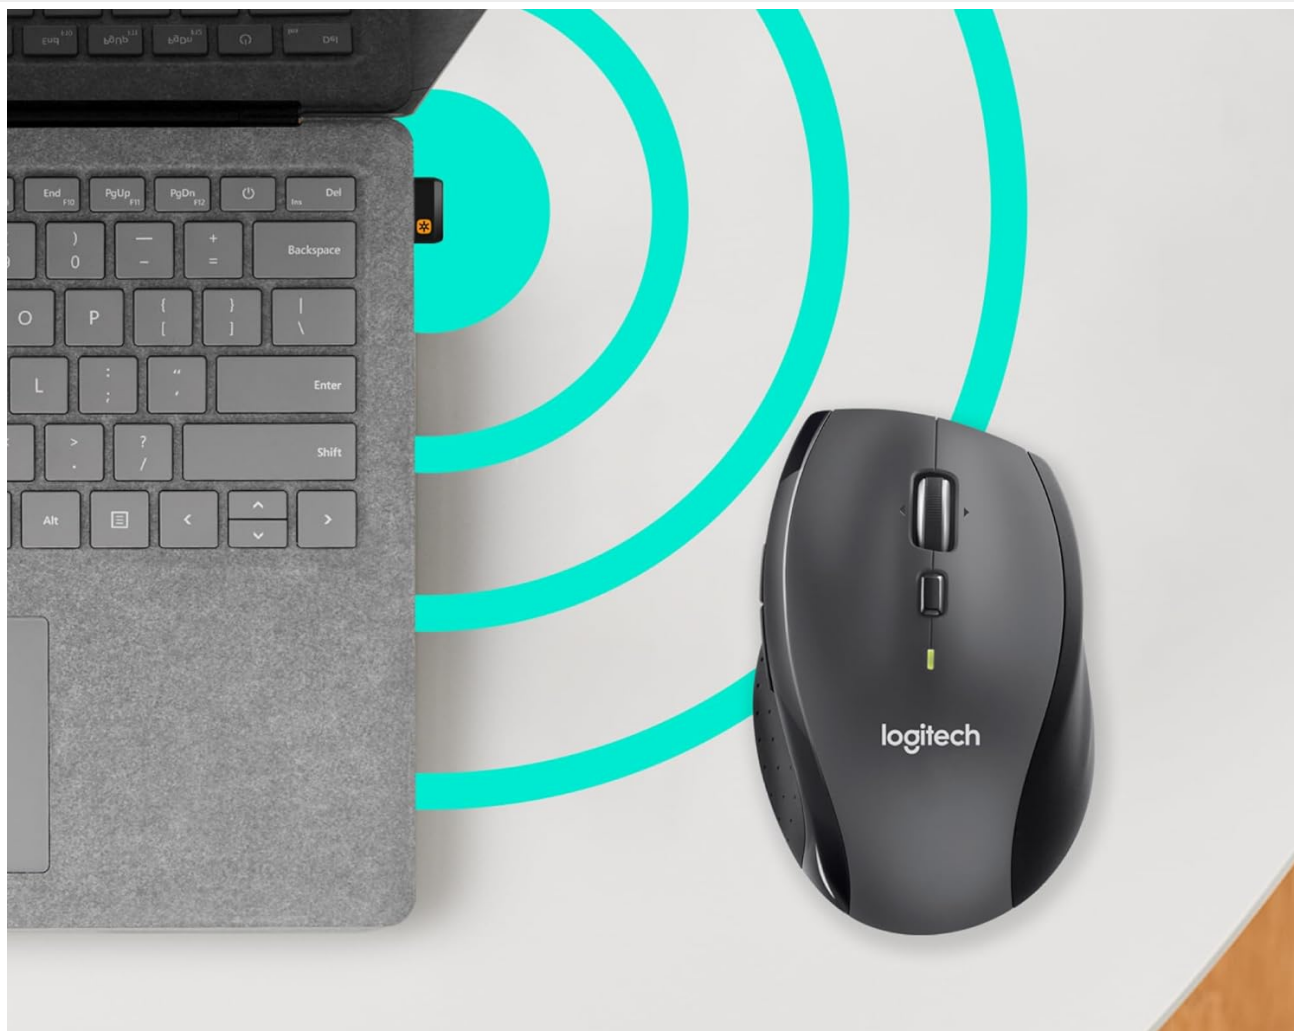

Figure 3: Steps for installing or replacing batteries in the M705 mouse.

2. Connecting via Logitech Unifying Receiver

The Logitech Unifying Receiver provides a reliable 2.4 GHz wireless connection.

1. Locate the tiny Logitech Unifying Receiver. It may be stored inside the battery compartment of the mouse.
2. Plug the Unifying Receiver into an available USB port on your computer (PC, Mac, Laptop, Chromebook).
3. Turn on the mouse using the On/Off switch located on the underside. The mouse should automatically connect.
4. If the mouse does not connect automatically, download and install the Logitech Options software from the official Logitech website to pair the device.

10m | 33ft

LAG-FREE WIRELESS

Figure 4: The M705 mouse offers lag-free wireless connectivity up to 10 meters (33 feet).

3. Connecting via Bluetooth Smart Wireless Technology

The M705 also supports Bluetooth Smart for direct connection to compatible devices without the need for the Unifying Receiver.

1. Ensure your device's Bluetooth is enabled.
2. Turn on the M705 mouse.
3. Press and hold the Easy-Switch button (located on the underside of the mouse, usually labeled 1, 2, or 3) for three seconds until the LED light starts blinking rapidly. This indicates pairing mode.
4. On your computer or device, go to Bluetooth settings and select "Logitech M705" from the list of available devices to complete the pairing process.
5. The LED light on the mouse will turn solid for 5 seconds when connected.

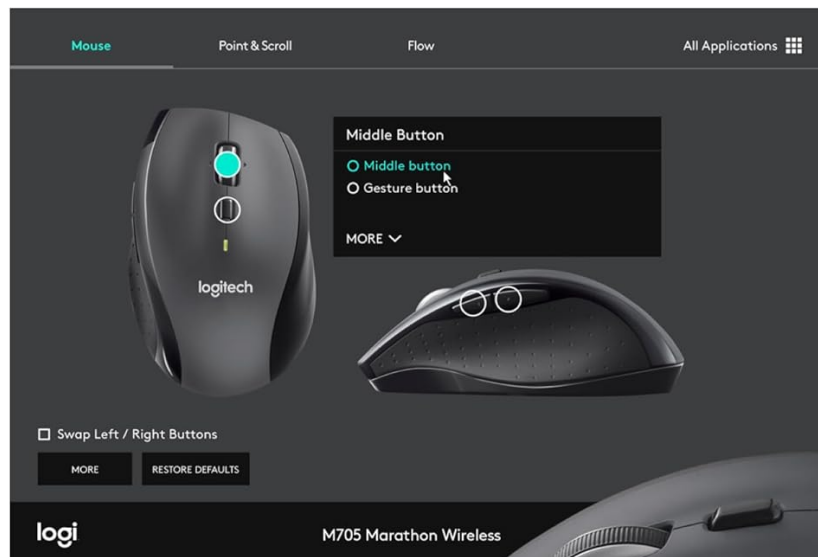

OPERATING THE MOUSE

Button Functions and Customization

The M705 Marathon Mouse features 5 programmable buttons and a versatile scroll wheel:

- **Left/Right Click:** Standard mouse clicks.
- **Hyper-Fast Scroll Wheel:** Allows you to fly through long documents and web pages with a simple spin. Press the button below the scroll wheel to switch between hyper-fast and click-to-click scrolling.
- **Tilt Wheel:** Tilt the scroll wheel left or right for horizontal scrolling, useful in spreadsheets or wide documents.
- **Thumb Buttons:** Two conveniently placed thumb buttons (forward/back) for easy navigation.
- **Logitech FLOW:** Utilize the Easy-Switch button on the underside to seamlessly switch between up to 3 connected computers, allowing you to move your cursor, text, and files across screens.

For advanced customization of buttons and features, download the Logitech Options software from the official Logitech website. This software allows you to assign specific functions to each programmable button, adjust pointer speed (DPI), and configure Logitech FLOW.

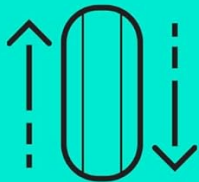

CUSTOMIZE BUTTONS WITH LOGITECH OPTIONS

MAINTENANCE

Battery Replacement

The M705 Marathon Mouse boasts an impressive 3-year battery life. When replacement is needed, follow the battery installation steps outlined in the Setup section.

DURABILITY + QUALITY

Figure 8: The M705 is built for durability and quality with a long-lasting battery.

Cleaning

To maintain optimal performance, regularly clean your mouse:

- Use a soft, lint-free cloth lightly dampened with water or an electronics cleaning solution.
- Avoid harsh chemicals or abrasive materials.
- Clean the optical sensor on the underside of the mouse to ensure accurate tracking.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mouse not responding	Low battery; Receiver unplugged; Incorrect connection mode; Interference.	Replace batteries; Ensure receiver is securely plugged in; Switch to correct connection mode (Unifying or Bluetooth); Move mouse closer to receiver/device; Remove other wireless devices causing interference.
Erratic cursor movement	Dirty optical sensor; Unsuitable surface; Low battery.	Clean the optical sensor; Use on a clean, non-reflective surface or mouse pad; Replace batteries.
Logitech FLOW not working	Software not installed/updated; Devices not on same network; Firewall blocking connection.	Install/update Logitech Options software; Ensure all devices are on the same Wi-Fi network; Check firewall settings.

SPECIFICATIONS

Feature	Detail
