SETUP INSTRUCTIONS

- Assemble the Tripod:** Extend the tripod legs to a stable position. Adjust the height of the tripod stand by loosening the locking collars on the central pole, extending the sections to your desired height (from 17.5 inches to 51 inches), and then securely tightening the collars.
- Attach the Ring Light:** Screw the 8-inch ring light onto the top of the tripod stand. Ensure it is securely fastened. The ring light features a pivot mount allowing for 360-degree adjustment.
- Install the Phone Mount:** Attach the pivot mount phone holder to the flexible arm located within the ring light. The phone mount is universally compatible with most smartphones and can be rotated for vertical or horizontal phone positioning.
- Connect Power:** Plug the USB cable from the ring light into any standard USB port (e.g., computer, wall charger, power bank). The in-line remote on the cable will illuminate, indicating power.
- Pair Wireless Remote Shutter:** Turn on the wireless remote shutter. On your smartphone, go to Bluetooth settings and pair with the remote. This allows for convenient photo and video capture from a distance.

OPERATING INSTRUCTIONS

- 1. Power On/Off:** Use the power button on the in-line remote control to turn the ring light on or off.
- 2. Adjust Brightness:** The ring light offers 10 brightness levels. Use the '+' and '-' buttons on the in-line remote to increase or decrease the light intensity.
- 3. Change Color Modes:** Select from 3 color modes (white, natural, warm) using the mode button on the in-line remote. Each mode provides different lighting temperatures to suit your environment and desired effect.
- 4. Use Wireless Remote Shutter:** Once paired via Bluetooth, use the wireless remote shutter to remotely trigger your smartphone's camera for photos or to start/stop video recording.
- 5. Adjust Ring Light Angle:** The 360-degree pivot mount allows you to easily adjust the angle of the ring light to direct illumination precisely where needed.

COMPLETE CREATIVE CONTROL

EXTENDABLE PHONE MOUNT

Works with most phones. Extends up to 3.2 in. (max opening). Lined with non-abrasive materials that won't damage phone. Rotates for vertical/horizontal phone positioning.

WIRELESS REMOTE SHUTTER WITH STRAP

Wireless remote shutter allows for snapping photos and recording videos at the press of a button.

USB CABLE WITH REMOTE

Simply plug into a USB port on your computer, wall charger or power bank to begin use. Comes with built-in remote control.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the ring light and tripod. Avoid using abrasive cleaners or solvents that could damage the finish or electronic components.
- **Storage:** When not in use, disassemble the ring light and tripod for compact storage. Store in a cool, dry place.

away from direct sunlight and extreme temperatures to prolong its lifespan.

TROUBLESHOOTING

- Light Not Turning On:** Ensure the USB cable is securely plugged into a working USB power source. Try a different USB port or power adapter.
- Wireless Remote Shutter Not Connecting:** Check if the remote shutter has a working battery (1 Lithium Metal battery included). Ensure Bluetooth is enabled on your smartphone and the remote is in pairing mode. Try re-pairing the device.
- Tripod Instability:** Make sure all tripod legs are fully extended and the locking collars on the central pole are tightened to secure the height. Ensure the tripod is placed on a flat, stable surface.
