## 4. SETUP

### 4.1 Battery Installation

1. Open the battery compartment cover.
2. Insert one of the two included 1350mAh Lithium Ion batteries, ensuring correct polarity.
3. Close the battery compartment cover securely.

### 4.2 MicroSD Card

A MicroSD card is required for recording. A Samsung 64GB 100MB/s (U3) MicroSDXC Evo Select Memory Card is highly recommended (not included). Before first use, format the card within the camera settings to ensure optimal performance and compatibility.

### 4.3 Waterproof Case

For underwater use or protection against impacts, place the camera inside the included waterproof case. The case allows the camera to be waterproof up to 131 feet (40 meters).

## 5.6 Wi-Fi Connectivity and AKASO GO App

Connect your camera to the AKASO GO App via Wi-Fi to control the camera, preview footage, and transfer files to your mobile device.

## 5.7 Various Modes

The camera offers multiple modes to enhance your creative possibilities:

- Time Lapse
- Still Photo
- Slow Motion
- Burst Photo
- Self-Timer
- Loop Recording
- Driving Mode
- Diving Mode

## 6. MAINTENANCE

- Keep the camera and accessories clean and dry.
- Avoid exposing the camera to extreme temperatures or direct sunlight for extended periods.
- Clean the lens with a soft, lint-free cloth.
- Ensure the waterproof case is free of debris and properly sealed before underwater use.

## 7. TROUBLESHOOTING

- **Camera not powering on:** Ensure batteries are charged and correctly inserted.
- **Recording issues:** Verify that a compatible MicroSD card is inserted and formatted. Check available storage space.
- **AKASO GO App connectivity:** If experiencing latency or connection issues, ensure the camera's Wi-Fi is enabled and you are connected to the camera's Wi-Fi network on your mobile device. Try restarting both the camera and the app.

- **Poor image stabilization:** Ensure EIS 2.0 is enabled in the camera settings.
