Papake Foldable Aluminum Folding Table User Manual

Model: B08862BVNR

1. Introduction

Thank you for choosing the Papake Foldable Aluminum Folding Table. This portable and height-adjustable utility table is designed for versatility, making it suitable for various indoor and outdoor activities such as camping, picnics, parties, and general utility use. This manual provides essential instructions for safe setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your table.

Figure 1: The Papake Foldable Aluminum Folding Table in its unfolded state and folded for transport.

2. Setup Instructions

Follow these steps to safely set up your folding table:

1. **Unfold the Table:** Place the folded table (briefcase style) on a flat surface. Release the side latches. Gently open the two halves of the table top.

Figure 2: The table in its initial folded configuration.

2. **Extend the Legs:** Once the table top is partially open, carefully flip the table over. Unfold the legs from their stored position. Ensure all leg braces are fully extended and locked into place.

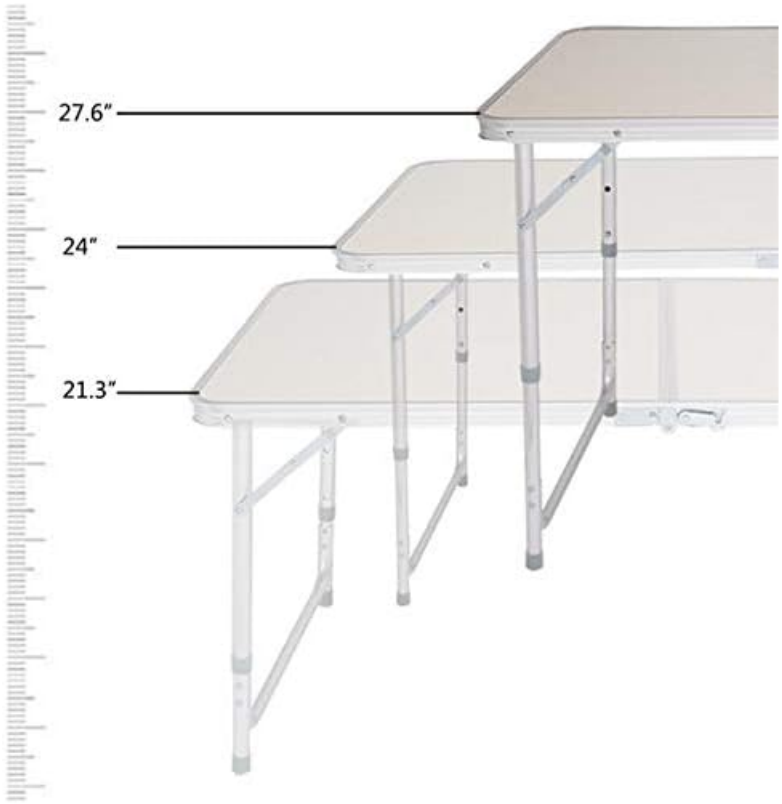

Figure 3: Unfolding the table top and extending the leg frames.

3. **Secure the Table Top:** Press the two halves of the table top together until the central latch engages and secures them. Ensure the table top is flat and stable.

Figure 4: Visual representation of the table's foldable and portable design.

4. **Adjust Height (Optional):** Each leg features a push-button mechanism for height adjustment. Press the button and slide the inner leg section to your desired height. Ensure the button clicks into one of the pre-drilled holes for secure locking. There are typically three height settings: 21.3 inches, 24 inches, and 27.6 inches.

Figure 5: Table height adjustment options.

5. **Verify Stability:** Before placing items on the table, gently shake it to ensure all legs are fully extended, locked, and the table is stable on the ground.

Figure 6: Detailed view of table features: central latch, carrying handle, leg brace, and adjustable leg.

3. Operating Instructions

The Papake folding table is designed for versatile use. Observe the following guidelines for optimal operation:

- **Weight Capacity:** Do not exceed the recommended weight capacity of the table. Overloading can cause damage or instability.
- **Even Weight Distribution:** Distribute weight evenly across the table surface to prevent tipping or stress on specific points.
- **Surface Protection:** While the table surface is durable, using placemats or tablecloths is recommended to protect against scratches, spills, and heat.
- **Outdoor Use:** The aluminum construction is suitable for outdoor use. However, prolonged exposure to harsh weather conditions (heavy rain, strong winds) should be avoided to extend the product's lifespan.
- **Folding for Storage:** To fold the table, reverse the setup steps. Ensure all leg braces are disengaged, legs are folded inward, and the table halves are securely latched together before carrying.

4. Maintenance

Proper maintenance will help preserve the appearance and functionality of your table.

- **Cleaning:** Wipe the table surface with a damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that could damage the finish. Dry thoroughly after cleaning.
- **Storage:** Store the table in a dry, cool place when not in use. Avoid storing in direct sunlight or extreme temperatures for extended periods.
- **Inspection:** Periodically check all moving parts, latches, and leg mechanisms for proper function and tightness. Tighten any loose screws if necessary.

5. Troubleshooting

If you encounter any issues with your table, refer to the following common problems and solutions:

- **Table is Unstable:**
  - Ensure all legs are fully extended and locked into their respective positions.
  - Verify that the leg braces are fully engaged.
  - Check that the table is placed on a flat, even surface.
- **Difficulty Folding/Unfolding:**

- Ensure all latches and leg mechanisms are properly disengaged or engaged as required.
- Do not force any parts. If resistance is met, re-check the steps.

- **Table Top Not Latching Securely:**
  - Ensure the two halves of the table top are aligned correctly before attempting to latch.
  - Check for any obstructions in the latch mechanism.

6. Specifications

Feature	Detail
Brand	Papake
Model Number	B08862BVNR
Material	Aluminum, Engineered Wood
Frame Material	Metal
Base Type	Leg
Adjustable Heights	Approx. 21.3", 24", 27.6"
UPC	732866991573
