Invoxia GPS Tracker PRO User Manual

Model: No subscription

Keywords: GPS, Tracker, PRO, Real-Time, Location, Cars, Motorcycles, Bicycles, Children, Motion, Tilt, Alerts, 4G, LTE-M, Network, Battery Life

INTRODUCTION

The Invoxia GPS Tracker PRO is a compact, real-time location tracking device designed to help you monitor vehicles, valuables, and loved ones. Utilizing 4G LTE-M network connectivity, it provides advanced location accuracy and a suite of anti-theft features, including motion and tilt alerts, and geofencing. This manual provides comprehensive instructions for setting up, operating, and maintaining your Invoxia GPS Tracker PRO.

SETUP AND ACTIVATION

Setting up your Invoxia GPS Tracker PRO is a quick and straightforward process, typically taking less than 60 seconds.

1. Download the Invoxia GPS App:

Before using your tracker, download the official Invoxia GPS application from your smartphone's app store (iOS 12 / Android 5 or higher required). Google Play Services are also required for Android devices. Note that certain phone models and processors are incompatible (e.g., Blackview 9500/9600/9700, Mediatek processors).

2. Charge the Tracker:

Connect the Invoxia GPS Tracker PRO to a power source using the provided USB cable. A full charge typically takes approximately 90 minutes. The device will power on automatically once charging begins.

3. Pair with Your Smartphone:

Open the Invoxia GPS app and follow the on-screen instructions to pair your tracker via Bluetooth. This process establishes the initial connection and allows the tracker to become fully autonomous, transmitting its location without distance limits.

4. Subscription Requirement:

A subscription is required to access the geolocation services and ensure optimal tracker performance. This provides access to the 4G LTE-M network for real-time tracking and alerts. Subscription plans are available starting from \$6.25/month when prepaid long-term.

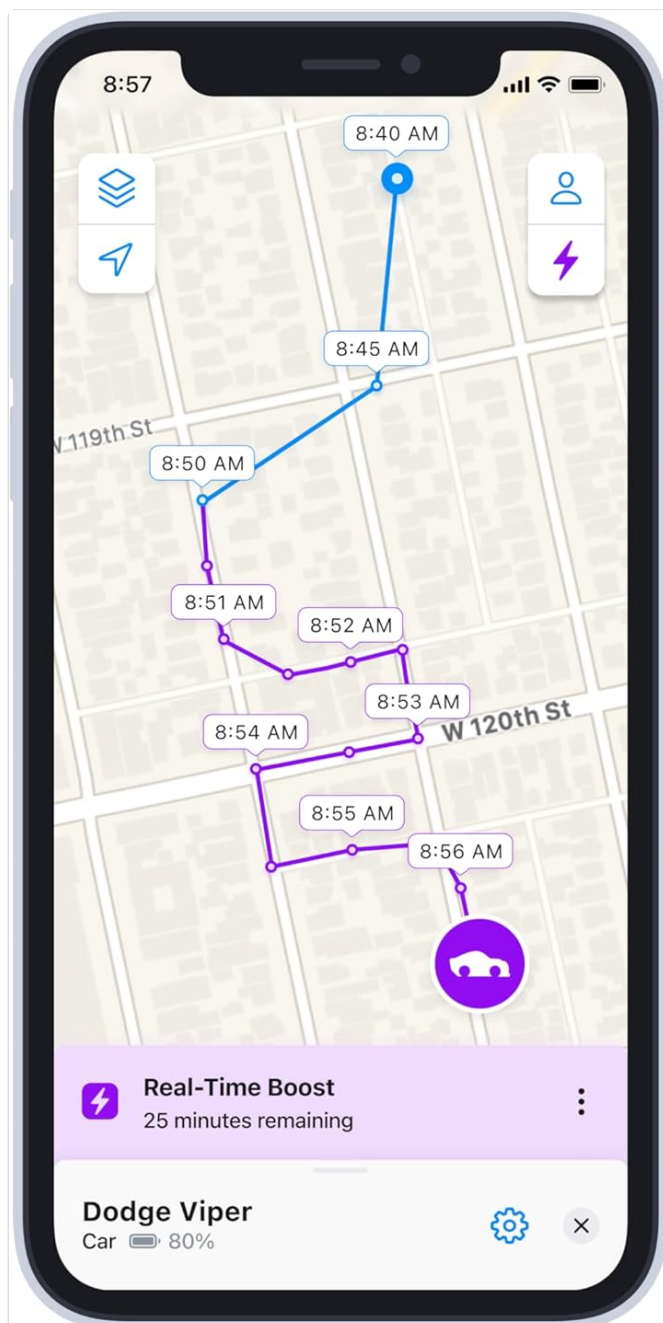

Image: A visual guide illustrating the three simple steps for setting up the Invoxia GPS Tracker: 1. Download the Invoxia app, 2. Charge the tracker to turn it on, and 3. Quickly locate your belongings.

OPERATING INSTRUCTIONS

Real-Time GPS Tracking

The Invoxia GPS Tracker PRO provides continuous 24/7 tracking. You can view the tracker's current location and historical routes directly within the Invoxia GPS app. Location updates can be configured to occur every 2, 5, 10, or 30 minutes. In emergencies, activate real-time tracking for updates every 30 seconds.

Anti-Theft Alerts

The tracker is equipped with advanced motion and tilt detection to prevent theft. You will receive immediate notifications on your smartphone if suspicious movement is detected. This feature maximizes the chances of recovery for your valuables.

- **Motion Detection:** Alerts you when the tracker begins to move after being stationary.
- **Tilt Detection:** Notifies you if the device's orientation changes significantly, indicating potential tampering or movement.

Real-Time GPS Tracking

Protect your vehicles against theft

Geofencing

Define virtual safety zones (geofences) within the app. You will receive alerts if the tracker enters or exits these predefined areas. This feature is ideal for monitoring children's movements, ensuring vehicles stay within designated boundaries, or protecting specific assets.

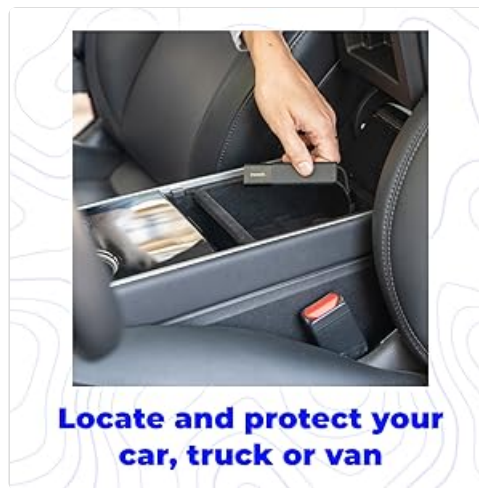

Image: A young boy walking across a crosswalk, symbolizing the ability of the Invoxia GPS Tracker to help users keep an eye on loved ones by setting geofence alerts for their routes.

IFTTT Integration

The Invoxia GPS Tracker PRO supports integration with IFTTT (If This Then That), allowing you to create custom automation scenarios. Connect your tracker with other smart devices and services to automate location-based actions, enhancing its utility beyond basic tracking.

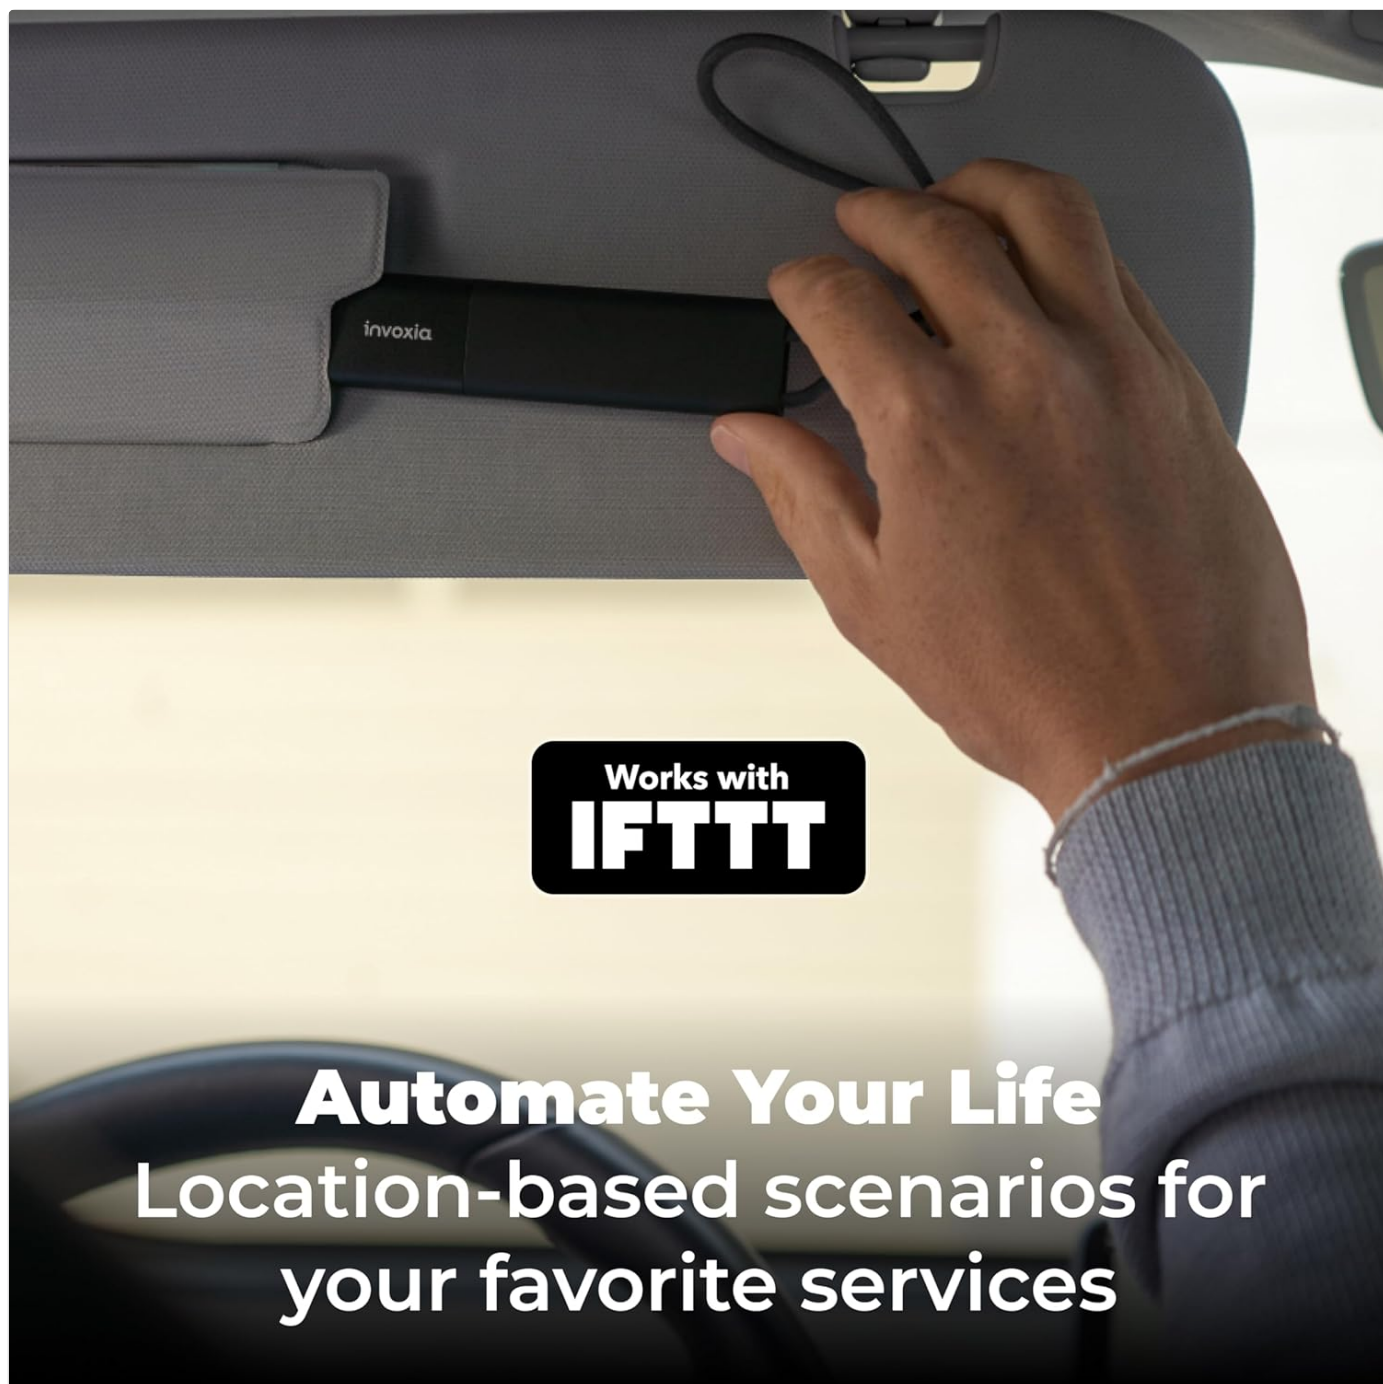

Image: A hand securing the Invoxia GPS Tracker PRO to a car's sun visor, with a prominent "Works with IFTTT" logo indicating its compatibility with home automation scenarios.

BATTERY LIFE AND MANAGEMENT

The Invoxia GPS Tracker PRO is designed for exceptional battery life, lasting up to 6 months on a single charge depending on usage and settings. The battery life varies based on travel time and whether Smart Battery Management is enabled.

Estimated Battery Life Based on Usage

Travel Time	Battery Life
8 Hours/day	Up to 5 Days
4 Hours/day	Up to 11 Days
2 Hours/day	Up to 3 Weeks

Travel Time	Battery Life
Smart Battery Management*	Up to 4 months

*Estimates based on 10-minute update interval. Smart Battery Management is enabled when tracking your own vehicle or belongings with Bluetooth enabled.

Travel Time	Battery Life
8 Hours/day	Up to 5 Days
4 Hours/day	Up to 11 Days
2 Hours/day	Up to 3 Weeks
Smart Battery Management*	Up to 4 months

MAINTENANCE

Charging

Recharge the tracker using a standard USB cable. The device contains a Lithium Polymer battery (included). Ensure the tracker is fully charged before initial use and whenever the battery level is low to maintain optimal performance.

Water Resistance

Invoxia GPS trackers are IP33 certified. This means they are designed to resist shocks and standard outdoor conditions. While they offer some water resistance, they are not fully waterproof. Avoid submerging the device in water or exposing it to heavy rain for extended periods.

TROUBLESHOOTING

- No Location Updates:**
Ensure your subscription is active. Check if the tracker is in an area with 4G LTE-M network coverage. The tracker does not work in Puerto Rico, Guam, American Samoa, (U.S.) Virgin Islands, or the Northern Mariana Islands. If the tracker is stationary for over 24 hours, it may only send updates once every 24 hours to conserve battery.
- App Incompatibility:**
Verify your smartphone runs iOS 12 / Android 5 or higher and has Google Play Services installed. The tracker is incompatible with specific phone models and Mediatek processors (e.g., Blackview 9500/9600/9700; Doogee S90C/S55/S70/S68 Pro; Gigaset S370/GX 290; Hammer Energy myPhone; Hisense E30; Honor 7S; HTC Desire 626; Konrow Sky 55; Lenovo K5; LG Q7; Meizu MX5; Nomu S50; OnePlus 2; OPPO F9/CPH1819; Redmi 6; Samsung Galaxy Note 3/Note 4/Note Pro 12.2/S4; Sony Xperia XA1; Ulefone Armor 3/5S/3S; UMIDIGI F1; UNIHERTZ Jelly-Pro; Wiko P200/View Max/W-K510-EEA/W-V600; ZTE Blade V1000; LG M320; Nokia 5.1).
- Short Battery Life:**
Review the "Battery Life and Management" section. Frequent real-time tracking (30-second updates) and constant movement will reduce battery life. Optimize settings in the app to extend battery duration.
- Inaccurate Location:**
Ensure the tracker has a clear line of sight to the sky for optimal GPS signal reception. Obstructions like thick concrete or underground locations can affect accuracy.

SPECIFICATIONS

Feature	Detail
Product Dimensions	4.13 x 1.06 x 3.74 inches
Item Weight	1.06 ounces
Model Number	No subscription
ASIN	B0B8K2CKDH
Batteries	1 Lithium Polymer battery (included)
Connectivity Technology	Cellular (4G LTE-M Network)
Special Features	Wireless, Motion & Tilt Alerts, Geofencing, IFTTT Integration
Color	Black
Manufacturer	Invoxia
Date First Available	August 4, 2022
Included Components	Battery
Water Resistance	IP33 Certified

WARRANTY AND SUPPORT

Invoxia is committed to providing high-quality products and support.

- **Warranty:**
The Invoxia GPS Tracker PRO comes with a 2-year warranty, ensuring peace of mind regarding manufacturing defects and performance issues.
- **Online Support:**
For any questions, technical assistance, or troubleshooting not covered in this manual, please visit the Invoxia official website for online support resources and contact information.
- **Brand Store:**
Explore other Invoxia products and accessories by visiting the official [Invoxia Store on Amazon](#).
