OttLite CSAQC00P

OttLite Prevention LED Desk Lamp with Wireless Charging - User Manual

Model: CSAQC00P

INTRODUCTION

Thank you for purchasing the OttLite Prevention LED Desk Lamp with Wireless Charging. This lamp is designed to provide balanced, natural light that reduces eyestrain, making it ideal for various tasks such as crafting, office work, reading, and studying. It also features convenient wireless charging and a USB port for your devices.

KEY FEATURES

- **ClearSun LED Technology:** Designed to match the spectrum of the sun, reducing eyestrain by up to 51%. Features a 95+ Color Rendering Index (CRI) for accurate color representation.
- **Wireless Charging Pad:** Conveniently charge Qi-compatible devices by placing them on the lamp base.
- **USB Charging Port:** Integrated 5V, 2.1A USB port for charging additional devices like phones, smartwatches, or tablets.
- **3 Color Temperature Modes:** Easily switch between warm white, bright white, and ClearSun natural daylight modes.
- **3 Brightness Settings:** Adjustable brightness levels to suit your lighting needs.
- **Flexible Rubberized Neck:** Allows for easy adjustment of the lamp height from 8.5 to 19 inches.
- **Compact Design:** Base measures 6.5 x 6.5 inches, making it suitable for various desk sizes.

PACKAGE CONTENTS

Please check the package contents to ensure all items are present:

- OttLite Prevention LED Desk Lamp
- Power Adapter

SETUP

1. **Unpack:** Carefully remove the lamp and all components from the packaging.
2. **Placement:** Place the lamp base on a stable, flat surface. Ensure there is enough space around the base for wireless charging and access to the USB port.
3. **Connect Power:** Insert the power adapter into the DC input jack located on the back of the lamp base. Plug the other end of the adapter into a standard electrical outlet.
4. **Adjust Lamp:** Gently adjust the flexible rubberized neck to position the lamp head as desired. The height can be adjusted from 8.5 to 19 inches.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Control

The lamp features touch-sensitive controls on its base.

- To turn the lamp **ON**, lightly touch the power button (**O**) on the base.
- To adjust the brightness, continue to lightly touch the power button. The lamp cycles through 3 brightness levels.
- To turn the lamp **OFF**, continue touching the power button until the light turns off after cycling through all brightness levels.

Color Temperature Modes

The lamp offers 3 color temperature modes to suit different tasks and preferences.

- To change the color temperature, press and hold the power button (O) for a few seconds. The lamp will cycle through:
 - i. Warm White
 - ii. Bright White
 - iii. ClearSun Natural Daylight
- Release the button when your desired mode is active.

Wireless Charging

The lamp base includes a wireless charging pad for Qi-compatible devices.

1. Ensure the lamp is plugged into a power outlet.
2. Place your Qi-compatible device directly on the wireless charging pad located on the lamp base.
3. The device should begin charging automatically. A charging indicator on your device will confirm charging status.
4. For optimal charging, ensure the device is centered on the charging pad and remove any thick cases that might interfere with the connection.

USB Charging Port

A 5V, 2.1A USB charging port is located on the back of the lamp base.

1. Connect your device's USB charging cable to the USB port on the lamp.
2. Connect the other end of the cable to your device.
3. Your device will begin charging.

MAINTENANCE

- **Cleaning:** Disconnect the power before cleaning. Use a soft, damp cloth to wipe the lamp. Do not use abrasive cleaners or solvents.
- **Bulb Replacement:** The LED light source is integrated and not replaceable. Do not attempt to replace the LEDs.
- **Storage:** If storing the lamp for an extended period, disconnect it from power and store it in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Not plugged in; power outlet issue; adapter issue.	Ensure power adapter is securely plugged into the lamp and a working outlet. Try a different outlet.
Wireless charging not working.	Device not Qi-compatible; device not properly aligned; thick phone case; foreign objects on pad.	Verify device is Qi-compatible. Re-position device on the center of the pad. Remove thick phone cases. Ensure no metal objects are between device and pad.
USB charging not working.	Cable issue; device issue; lamp not powered.	Try a different USB cable. Ensure the lamp is powered on. Check if the device charges with other USB ports.
Light flickers or is dim.	Power supply issue; lamp malfunction.	Ensure stable power connection. If problem persists, contact customer support.

SPECIFICATIONS

- **Model:** CSAQC00P
- **Brand:** OttLite
- **Lamp Type:** LED Desk Lamp
- **Light Source:** Integrated LED
- **Color Temperature:** 3 Modes (Warm White, Bright White, ClearSun Natural Daylight)
- **Brightness:** 3 Levels, up to 621 Lumens
- **Color Rendering Index (CRI):** 95+
- **Wireless Charging:** Qi-compatible
- **USB Port Output:** 5V, 2.1A
- **Power Source:** Corded Electric (Adapter included)
- **Product Dimensions:** 6.5"D x 6.5"W x 8.5"H (adjustable height up to 19")
- **Item Weight:** 10.4 ounces
- **Material:** Plastic
- **UPC:** 761712018812

WARRANTY AND SUPPORT

This product is backed by the Good Housekeeping Seal, indicating quality testing and a limited warranty. For specific warranty details and to register your product, please refer to the information provided with your purchase or visit the official OttLite website.

For technical support, troubleshooting assistance, or questions regarding your OttLite product, please contact OttLite Customer Service:

- **Phone:** Refer to the contact information on the OttLite website for the most current phone numbers.

ADDITIONAL INFORMATION: CLEARSUN LED TECHNOLOGY

OttLite's exclusive ClearSun LED technology is engineered to provide a healthier way to see by closely matching the spectral output of the sun. Unlike typical LEDs that can have unbalanced lightwaves, ClearSun LEDs deliver a smooth and continuous spectrum, which significantly reduces eyestrain and fatigue.

Your browser does not support the video tag.

Video: An official video from OttLite Technologies explaining the benefits of ClearSun LED technology and how it reduces eyestrain by matching natural sunlight.

This technology ensures that colors appear more vibrant and true-to-life, with a Color Rendering Index (CRI) of 95+, which is significantly higher than the average LED lamp. This superior color accuracy is beneficial for tasks requiring precise color matching, such as crafting, painting, or design work.

ClearSun Technology

The spectral output of most LED light sources looks like a roller coaster — full of big peaks and deep valleys that leave your eye muscles strained.

ClearSun LEDs are different. Our revolutionary technology creates a comparable experience to natural daylight, with no gaps for your eyes to fill in. ClearSun creates balanced, smooth lighting that **reduces eyestrain up to 51%**.

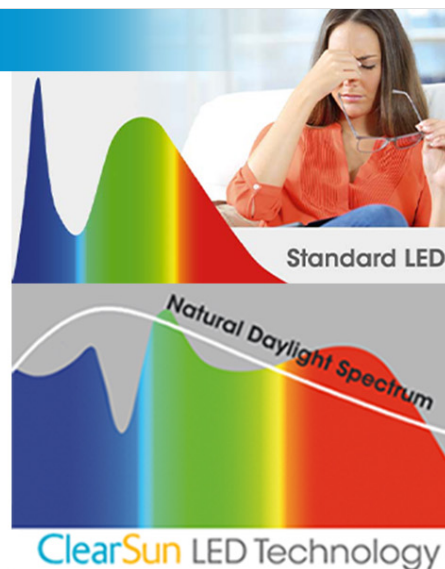

Image: A graph illustrating the spectral output of ClearSun LED technology compared to standard LEDs and natural daylight, showing a smoother, more balanced light spectrum.

Incredible Color Accuracy

The Color Rendering Index (CRI) is used to measure how accurately a light shows color on a scale of 1-100. With a **CRI score of 95+**, OttLite ClearSun LEDs show colors more vividly and true to life.

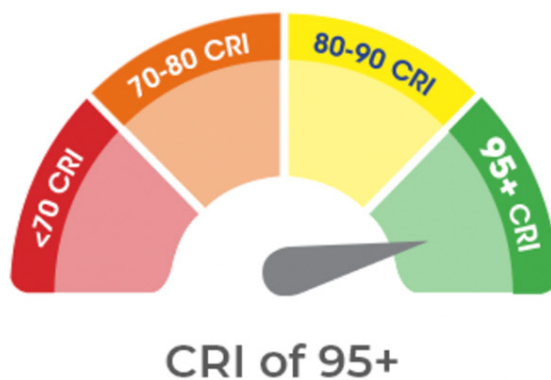

Image: A visual representation of the Color Rendering Index (CRI), highlighting OttLite's 95+ CRI score for exceptional color accuracy.
